Democratic Convention Routine. Without a single pretense of the "Peerless Leader" to decorate the walls of the auditorium and without a photographic likeness of any of the idols of the party in sight, the democratic state convention was held at 10:30 this afternoon.

Nebraska democracy stands today undaunted, unimpaired, vindicated. I make bold to say that the fundamental principles of the newer democracy are now being advocated and adopted wherever an intelligent, liberty-loving people are struggling to be free.

And gentlemen, if the signs of the times mean anything to you, you will find that the democratic party is the party of the future. It is the party of the people and the party of the future.

"Stand by Roosevelt." The coming battle cry of the republican party is "stand by Roosevelt." But how in the name of common sense, is this to be done?

The address of the temporary chairman made a decided hit and he was frequently applauded, especially upon that portion when he called upon the convention for governor and his references to Bryan.

Appointments of Committees. S. S. Stidner of Dodge and J. M. Logan of Frontier were selected assistant secretaries and the delegates present having been declared members of the convention, a permanent organization was made.

A committee of twelve, two from each congressional district, was appointed a resolution committee. These were: R. L. Metcalf, H. H. Hanks, G. M. Hitchcock, W. S. Shoemaker, G. L. George, W. H. Thompson, W. S. Behrind, George Corcoran, A. C. Schallerberg, R. S. Oberfelder and H. W. Smith.

The convention gave Dahman a regular ovation when he rose to speak. He told the convention it was democratic for the delegates to select the chairman and it was precedent. He referred to the fact that he had been elected by the convention in 1896 and 1898 and both times the party had been successful.

We endorse the proposed amendment to the constitution providing for a railway commission as a step in the right direction and we urge the delegates to give the commission the fullest support and broadest approval for bringing relief to the people from the present unjust and exorbitant freight rates and discrimination.

We declare in favor of the plan of adopting the same railroad valuations for purposes of taxation. We believe that the purpose of regulating railroad rates and railroad earnings and we demand that the legislature create a railway commission to appraise and determine the actual value of the railroads, corporations and other common carriers of the state for these two purposes.

Favorable Commission. for the maximum freight rate law placed on the statutes of Nebraska by a democratic and populist legislature, and has never grudgingly given up the battle against trust officials. The people of Nebraska are not going to be bullied by the trusts and the railroads. They will stand by their rights and their principles.
