## CRAIN AND PRODUCE MARKET

Early Cables from Liverpool Pit Come Unexpected Higher.

PRICES STRONG AT UPENING; EASY LATER

Minneapolis Reports Demand Poor for Arrivals Spring Wheat, and Southwest is Dull-Corn Lower on Free Acceptances.

OMAHA, Aug. 17, 1906.

There was an unexpected strength in Liverpool, cables this morning and Argentina snipments were small, the result being that early prices were up %c. The market became easier after the more anxious shorts had covered, and lost most of the auvance, closing %c above yesterday. The weather was ideal for harvest, Minneapoils reported new wheat arriving, with a poor wash demand, and the demand for cash stuff in the southwest was also poor. Despite higher cables, foreign bids was poor. The volume of trade was light. Corn was firm early in sympathy with wheat, but later September lost %c, that option being sold freely by elevator interests. Cash corn is not in heavy demand and acceptances are larger than they have been running. Deferred options lost also, December closing ic down from yesterday.

Primary wheat receipts were \$84,000 OMAHA, Aug. 17, 1906.

also, December closing ic down from pesterday.

Primary wheat receipts were \$8,000 bushels and shipments 22,000 bushels against receipts last year of \$8,000 bushels. Corn receipts were 40,000 bushels and shipments of 46,000 bushels and shipments of \$60,000 bushels and shipments of \$60,000 bushels, against receipts last year of \$60,000 bushels. Clearances were \$51,000 bushels wheat, 1,638 barriers four, 394 bushels corn, and 2,715 bushels wheat.

Liverpool closed \$60,900 higher on wheat, and \$60 higher on corn.

The modern milier, out today, says:

The movement of winter wheat continues simall, as farmers are too busy to hauf to market. Numerons farmers refuse to saccept present market prices and will hold their grain. Plowing for all crops has begun.

Pfarrius of New York wired: "Liverpool.

Plarrius of New York wired: "Liverpool, like last week, caught a few shorts and savanced option prices. We on this side any too much attention to the small Liverpool option trade. In cash wheat they do not come up and London is deplorably dull. Continent sends very poor wheat limits." Local range of options:

 CHICAGO GRAIN AND PROVISIONS

Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, Aug. 17.—Firm cables and decreased shipments from Argentina caused strength today in the local wheat market. At the close wheat for September delivery was up 160%. Corn was off 16. Oats showed a loss of 16. Provisions were 156 to 27% lower.

The wheat market opened strong on a live, deniand by shorts and commission houses. A sharp advance in the price of wheat at Liverpool came as a surprise to the majority of pit traders, many of whom had sold shore the previous session and is an attempt to cover the short sales prices were forced up materially, the September delivery showing a gain of 16 to 16 on hillial transactions. The strength of the Liverpool market was said to have been sa steempt to cover the short sales prices were forced up materially, the September celivery showing a gain of Mc to Mc

The disposition of the day's receipts was as follows, each buyer purchasing the number of head indicated:

Cattle, Hogs. Sheep

5,376

CATTLE—Receipts of cattle were extremely light today, there not being enough of anything to make a market, in fact it seemed like a Saturday or a noliday lather than a Friday in the yards today. As usual when there is so little stuff in sight, the market was dull and without interesting features. Still the offerings sold in fair season. Aside from a few odds and enus the receipts consisted almost entirely of corn-fed cattle, which sold principally at \$5.00gs.50.

There have been too many corn-fed cattle all this week for the good of the market and not enough of other kinds to kill out with them. The general feeling is that had there been more grassers here the corn cattle would have sold more readily, at least, if at no better prices. As it is, corn-fed cattle are selling now about where they were a week ago, any advance that may have been made during the first two days of the week having been practically all lost.

Cows and heifers under the inducence of moderate receipts and good demand have steadily tended upward and are now lighter than one week ago, or 15550c higher than the low time two weeks ago.

Stockers and feeders have been light all the week and they have shown some little improvement so far as buying from first hands was concerned. It might be safe to call the general market logibe higher than a week ago. The fact is, however, that the country has not been inclined to put on and speculators today had a good many of the cattle purchased early in the week still on hand, with the prospect that they would have to sell them lower today and tomorrow in order to get rid of them.

Representative sales:

soid a triffe better than yesterday, but the improvement if any, was not enough to talk about. On the other band, it was very certain that heavy packers were no more than steady and the trade was slow and dull. In fact the general market was at no time very active.

It is very apparent that packers are determined that the market shall not get away from them and they can be depended upon to use every effort to maintain the advantage which they have secure in the matter of prices during the last two weeks or more. The feeling among buyers that hogs are too high exists, which means that they will miss no opportunity to force values to a lower basis.
