"The secret of the power of thought is to fill the minds with things so good, and pure and holy that there will be no room for the other things, so that when the evil spirit comes, he will find no place by which he may enter."

Thus speke Rev. J. Addison Seibert, pastor of the Old Pirst church at Kansas City, in a sermon Sunday morning at St. Mary's Avenue Congregational church on "The Power of Thought." Mr. Seibert illustrated by relating the supposed experiences of air evil spirit which attempted to corrupt three persons, one after another, and was repulsed in each case. First he came to a young man olowing in a field, and seeing he was a man likely to become a leader in the world's affairs, approached him in bope of implanting in his mind an swil thought, which should finally be his own destruction of many of his comrades. Hearing the poung toan singing the words of a pasim, the evil spirit despaired of accomplishing snything, and passed on. Next he saw a girl walking down the road, in her band something the supposed was a school of deliver changes of the first leam. S; Junction City, %. Psalms Weapon Against Evil.

He passed the girl and the school house and came to the church, finding there what he thought was his best chance. In the manse by the side of the church, the old minister, who had served the same congregation for thirty years, lay dying. "I cannot hope to do much with his life so far spent," he said, "but if I can enly implant the seed of doubt in the dying hour, his people shall know of it, and I can undo all he has done in these thirty years," Finding his way unseen into the house, he saw the old man reading the Twenty-third psalm, "The Lord is my Shepherd."

"Then the evil spirit," said the speaker. "took a hurried flight far away from the school house, and entered the mind of an late was."

Lieutenant Colonel J. M. Banister of the medical department, accompanied by Mrs. Banister, left this week for the lakes of

"We do not need wiser thought," said Mr. Seibert, further, after telling the story of the railway and telegraph and other rapidly increasing modern conveniencesthe result of man's thought. "What we need is a deeper thought into the mysteries of Jesus. Our thought is wide enough now. It has widened out until, perhaps, it is flat. What we need now in thought is an anchorage of the soul in divine things, that when the storms come we shall not be swept away."

DEATH RECORD.

John Rowe Funeral. The body of the late John Rowe, whose death occurred at Omaha, arrived in the city at an early hour this morning and was taken direct from the train to the Boles undertaking pariors.

At 2 o'clock this afternoon the remains were taken to Unity hall, at which place services were conducted at 2:30 o'clock. The services were in charge of the local order of Elks and was a very impressive affair. The funeral discourse, being a splendid eulogy of the deceased, was delivered by Rev. Ned Lee.

The casket was literally buried beneath the numerous floral tributes. All the local plumbers, in addition to the Elks and numerous friends of the deceased, turned out in large numbers. Interment took place at Oakdale, the pallbearers being as follows: Charles Schick, J. C. Kohle, George Koester, Charles Cameron, G. T. Ahrens and Robert Clayton -- Davenport Demograt and Leader.

Captain Claude B. Sweezey, paymaster, from the headquarters office in Omaha, was here last week assisting in paying the troops assembled here in the camp of instruction. About \$50,000 was paid out on Saturday, which makes the largest amount ever distributed to a command at this point.

Captain Hansford Theikeld, Thirtieth infantry, has been on detached service at Fort Sheridan, Ill., attending the division rifle competition which was held at that point.

rifle competition which was held at that point.

The week has been one of the warmest in the memory of the oldest inhabitant, but in spite of the weather the work of instruction as mapped out by the commanding general, has been carried out according to schedule. The health of the command is excellent, about eighty being the number carried on sick report, the majority of these being minor cases. One case of typhoid has developed but this was contracted while on the march here. The week's instruction program has included the disposition of troops for security and information while on the march, and has been confined to troops and companies and battalions and squadrons. Next week troops will be instructed in regimental and brigade formations.

Cornerstone of Lutheran Church Laid at Twentieth and Burdette.

REV. J. E. HUMMON PREACHES SERMON

Rev. L. Grob. Pastor Under Whose Leadership the Congregation Has Prospered, Relates History of the Church.

In the presence of nearly every member of the congregation the cornerstone for the new St. Mark's Lutheran church was laid Sunday afternoon, the scorching sun apparently not interfering the least with zest nics; W. M. Condon, D. D. S. (Humphrey, in the proceedings. The pastor, Rev. L. Neb.), professor of crowns and bridges: Groh, who has had the charge ten years, was assisted by a number of other clergymen in the exercises, which were simple, The sermon was preached by Rev. J. E. Hummon of Kountze Memorial church.

St. Mark's church was organized August 1, 1886, and has been quarteded in a small frame structure at Twenty-first and Burdette streets since. The new edifice will dental anatomy; W. L. Ross, M. D., professor The plan was held up, it is stated, by the cost emoblete \$12,000. It will have a seating capacity of 300 and will be dedicated about Christmas time.

The cornerstone exercises were opened by music and scripture reading by Rev. professor of diseases of the antrum and M. C. Melick. Prayer was offered by Rev. phases and experiences. In his discourse Rev. Mr. Hummon said:

Rev. Mr. Hummon's Discourse. Christ himself is the chief cornerstone. In building it is important that we build well. Whether the structure is material or otherwise the supremely important thing is the foundation. This is as true gold filling. of spiritual structures. There must be a solid, unchangeable, inflexible foundation whether the house be physical, spiritual or mental

"We have met to lay the cornerstone of a new building, a material structure it is to 5 p. m., in the infirmary, which is open true, and yet a place for spiritual exercise and spiritual feeding-a house to which God's people will go for manna and for communion with him.

This cornerstone is meant to symbolize the invisible, spiritual cornerstones being laid in the hearts of men. As the cornerstone is the foundation so every Christian rests upon Jesus Christ, who is indispensable in the highest, noblest and best things of human character. Without Christ the Bible is meaningless, the world a wilderness and heaven itself becomes tarnished. Christ is absolutely essential to Christian life and character. Take Christ away and Christianity is impossible. Happy is the man who can say that his hope is based on Jesus Christ and Christ alone,

Unifying Force. "This foundation is a unifying force There may be differences of organization or administration but there is the same Lord. There may be differences of operation but it is the same Christ. If you are founded on the same Christ and believe In the same Jesus we are one in union with Christ.

The pastor then read the list of the usual articles placed in the stone and presided at the swinging of the stone in place with invocation and blessing. The dexology and benediction followed.

Rockefeller Favored the Deal.

It is understood Mr. Rockefeller preferred the latter proposition, but some of the other stockholders objected to the transfer of the road and favor the leasing proposition. It is understood that Rockefeller and some of his close associates will sell their stock on the above basis. The securing by the Harriman interests

known and most capable dentists of Omaha of a controlling interest in the St. Paul would involve the purchase of at least \$50,-000,000 of the stock, as there is a little over \$107,000,000 out. The Southern Pacific has in its treasury enough preferred to consummate the deal, as \$60,000,000 of preferred stock remains unissued.

The sale of the St. Paul to Harriman, is said, will do a great deal to clear up the western railroad atmosphere, as the road has been a bone of contention among rival magnates for a number of years. Some time ago J. J. Hill tried to get possession of it but was blocked, it is asserted, by the Rockefeller interests.

The original intent is said to have been to secure the road through the Union Pacific, but this was found to be in violation of the ederal interstate commerce act.

The acquisition of the road will make arge addition to the Harriman system. The Union Pacific operates 5,557 miles of road. the Southern Pacific 8,384 miles, the Illinois Central 4,374 miles and the St. Paul 6,911 niles, a total of 26,126 miles under Harri man's control.
