Change in Present Organization of the Army is Fossible.

Divisions as Departments Report Directly to War Depart-

WASHINGTON, Aug. 24.-The report of partment of the Pacific cetticising the present arrangements of divisions and departments of the army, has caused conbe the effect when congress takes up the subject again. It is said that the report emphasizes the point, several times made, that with six major generals of the line and fifteen brigadier generals of the line, great difficulty is found in finding places for them commensurate with their rank. One reason for creating four divisions was to give places for major generals, the departments being commanded by brigadiers. General Greely makes it appear that there is no necessity for such division commands, as the departments now report direct to teachers here tonight. The institute was the War department and the division commanders do not know what has been done. It is also said that extra staff officers are required who might well be dispensed with should the old department method be resumed. Under present conditions there are two major generals stationed at Governor's island. There is a major general and a brigadier general at San Francisco. Naturally it seems the duties are not such as to require two general officers at one place, with a full set of officers, such as are attached to every division and every department. There is an intimation that the in the present army organization.

HEARING FOR POLICE BOARD

Attorney General Tells Governor He Has the Power of Removal.

SOUTH OMAHA MEMBERS ON THE CARPET

Joseph Spelts to Be Given an Opportunity to Make Good on Charges He Has Been Making Concerning Board.

(From a Staff Correspondent.) LINCOLN, Aug. 24-(Special.)-The attorney general of the state having held that governor has the right to remove the South Omaha police board for cause, Governor Mickey has called a meeting of the board at the Millard hotel at 1 o'clock Saturday afternoon. At that time Joseph Spelts, who charged the board with allowng the saloons of South Omaha to cun oper, on Sundays, will have an opportunity to make good on his accusation. The governor has asked the legal department whether he has a right to remove the Omaha board, but the opinion has not yet been rendered. The opinion in South Omaha matter is as follows:

We have your communication requesting an opinion from this department relative to your powers as governor under a complaint filed with you against the members of the Board of Fire and Police Commissioners of the city of South Omaha, charging said board with failure to enforce a law of this state requiring the closing of saloons on Sunday.

of the Board of Fire and Police Commissioners of the city of South Omaha, charging said board with failure to enforce a law of this state requiring the closing of saloons on Sunday.

Section 53, chapter 13, article 2, compiled statutes, 1965, provides as follows:

"The governor may remove any of said commissioners for misconduct in office, or should they or any of them become disqual-lifed to act as such commissioners. Any citizen of the city may file with the governor written charges against any commissioner he may deem guilty of misconduct in office, and the governor, shall, within a reasonable time, investigate the same upon testimony to be produced before him, and shall make such finding of the truth or falsity of such charges as in his judgment such testimony warrants, and in case such charges are adjudged by him to be sustained by the evidence he shall at once remove the commissioner so found guilty and appoint another qualified to fill the vacancy thus caused. The governor when sitting to investigate charges preferred against a commissioner shall have full power and authority to compel the attendance of witnesses and the production of books and papers, and to administer oaths, and he may hold such meeting at the most convenient place in the state for the purpose of such investigation."

Under the statutes of Nebraska the chief of police and police officers of the city of South Omaha have the power and it is made their duty to arrest all offenders against the statutes of this state to sell intextenting liquot on Sunday (section 13, chapter 50). The chief of police of South Omaha is given supervision and control of the police force of the city subject to the orders of the Board of Fire and Police Commissioners for dereliction of duty (section 53). Thus the Hoard of Fire and Police Commissioners of the city of South Omaha is responsible for the enforcement of the law, it is the onindon of this department that if the Board of Fire and Police Commissioners of the city of South Omaha knowingly and wilfully per

Capital City Briefs.

Congressman Pollard and his political opponent, T. J. Doyle, will speak at the opening of the Havelock park at that thriving little city tomorrow afternoon. Mayor Anderson will deliver an address of welcome and others will make talks. Whether this is to be the opening of the congressional campaign is not stated. L. L. Lindsey, custodian of the old post-

office, has been appointed custodian of the new building. Mr. Lindsey has been exercising jurisdiction of the new building for some time, but it was not until today that his formal commission reached the city. Secretary Piper of the State Board of Charities and Corrections has prepared a schedule blank which he will send to every county in the state to get accurate information regarding the number of feebleminded, insane, crippled or dependent people and people afflicted with the dope habit. Mr. Piper expects to have collected some valuable information for the use of the next legislature.

Mrs. C. F. Harpham, a leading club woman of Lincoln, has been appointed a special police woman to look after those people who mistreat their horses. Mrs. Harpman made application for the appointment in order that she could bring to time this class of people. A special star will be furnished her unlike the usual kind worn by the policemen.

Charles A. Owens, Charles Dailey and Paul A. Palmer, charged with trying to work off a worthless \$1,000 check for \$150 on one Enos Hackman from Kansas, are in the county jail and Elmer Sides and the other police officers are overburdened with the congratulations of the people. Hackman said the men already had his money before he became suspicious and did not know anything was wrong until the police swooped down on the bunch. Hackman is 70 years old.

The Lincoln Commercial club is trying to land an Omaha shoe house and today an effort is being made to raise \$30,000 for that purpose. It is said all but \$3,000 has been subscribed. The new company is to be located in the building recently vacated by the Lincoln Drug company. The name of the Omaha company was not given.

Corn was showing the effects of the great heat and considerable sickness had developed among children and old persons, upon whom the continued hot weather was having a bad effect. Rain is still failing.

ARAPAHOD—This section of Nebraska was blessed with a fine rain early this morning, and while the ground was not dry, yet the past ten days of dry and very hot weather has been injurious to iste corn. This rain removes all doubts as to the best corn crop ever raised here, and with a fairly late freeze these will be a yield of from fifty to seventy-five bushels per acre. The yield of wheat is threshing out much better than expected.

Every Niece and Nephew of Uncle Sam

should be deeply interested in what he has said about soda crackers, because they are the one food with which all of them are familiar.

Uncle Sam has given out figures showing that soda crackers are richer in nutriment and body-building elements, properly proportioned, than any food made from flour.

This is saying much for common soda crackers, and much more for Uneeda Biscuit, because they are soda crackers of the best quality. They are baked bettermore scientifically. They are packed better-more cleanly. The damp, dust and odor proof package retains all the goodness and nutriment of the wheat, all the freshness of the best baking, all the purity of the cleanest bakeries.

Your Uncle Sam has shown what food he thinks best for his people. His people have shown that they think Uneeda Biscult the best of that food, nearly 400,000,000 packages having already been consumed.
