CRAIN AND PRODUCE MARKET

Wheat Prices See-Saw, Closing with Considerable Loss.

DUE TO LACK OF DEMAND FROM SHORTS

Bids Are Cent and Half Out of Line and Export Business is Nil-Corn Loses About Three-Quarters Cent.

Wheat prices veered back and forth, being generally lower and closing 142% under yesterday's close. Rains in the northwest and firmer Liverpool cables influenced a firm opening, but owing to the fact that shorts had covered freely on yesterday's Russian news, trade was light, and prices dropped off. Numerous interests found they had oversold themselves and prices railied at the close.

Receipts were small again this morning and cash prices were better. Bids for export were reported 1½0 out of line, and trade in that quarter was a standstill. There was so much corn for sale this morning, after general rains in the corn belt last night, that prices went off about 1/2 in the first hour, deterred futures suffering most heavily. OMAHA, August 24,1805.

ac in the first hour, deferred futures suffering most heavily.

Receipts were a little larger this morning and cash trade was slow.

Primary wheat receipts were 477,000 bushels and shipments 355,000 bushels, against receipts last year of 643,000 bushels and shipments of 463,000 bushels. Corn receipts were 424,000 bushels and shipments 600,000 bushels, against receipts last year of 479,000 bushels, against receipts last year of 479,000 bushels and shipments of 423,000 bushels. Clearances were 165,000 bushels wheat, 2,450 barrels flour, 10,000 bushels corn and 2,000 bushels casts.

barrels four, 10,000 bushels corn and 2,000 buhels cats.
Liverpool closed 14d higher on wheat and 14004d higher on corn.
Argentina wheat shipments were 1,200,000 bushels, where only 800,000 bushels were expected.
Pfarrius, the New York exporter, wired: "Of course the Russian ukase turns out to have been an invention. According to best authorities, who own land and elevators, the Manitoba crop is expected to be 10 per cent larger than last year, 10 per cent more land having been planted. No export business possible."

CHICAGO GHAIN AND PROVISIONS

Features of the Trading and Closing
Prices on Board of Trade.
CHICAGO, Aug. 24.—An estimated gain of 19 per cent in the wheat yield of Canada was the chief reason for weakness in life wheat market hese today. At the close in September delivery was off 4c. Corn was down \$40.95c. Oats showed a loss of 4.09c. The wheat market was inclined to be weak all day, but in the early part of the session prices were held fairly steady by the firmness of Liverpool cables. Toward the noon hour the market became weak on selling caused by the absence of export demand and excellent reports of the londition of the spring crop. Advices regarding the Canadian crop were especially pittinistic, one report claiming the total yield of wheat for the Dominion would show a gain of 19 per cent over that of garding the Canadian crop were especially populinistic, one report claiming the total yield of wheat for the Dominion would show a gain of 10 per cent over that of last year. Late in the day, however, a large part of the loss was regained on covering by shorts. Damage reports from the southwest, where wheat was reported to be sprouting in shocks, were instrumental in creating a steadler undertone. There was much changing during the day from the September delivery to the December option and trading in the latter month snowed a liberal increase. The market closed easy. September opened a shade to the higher at 11/4/11/5/c to 11/5/c, sold off to 0/5/c and closed at 71/5/c. December ranged between 73% c and 74% c and closed at 74% c. Clearances of wheat and flour were equal to 210,000 bu. Exports for the week, as shown by Bradstreets, were equal to 3,200,500 bu. Primary receipts were 47,000 bu, compared with 643,000 bu, for the corresponding day a year ago. Minneapolis, Dulath and Chicago reported receipts of 191 cars, against 295 cars last week and 233 cars, against 295 cars last week and 234 cars, against 295 cars last week and 237 cars, against 295 cars last week and 238 cars, against 295 cars last week and

contract grade.

Outs were weak on selling by cash houses, liberal local receipts and an increased primary movement. September opened a shade lower to a shade higher at 29%c to 29%c, sold off to 28%c and closed at 29%c. December sold between 30%c and 31c and closed at 30%c. Local receipts were 239 cars.

Buying of lard by packers was the fea-ture of trading in provisions. Because of this demand lard made a substantial ad-vance. Other products were about steady. At the close September lard was up 22½c at \$8.90. Pork was unchanged at \$17.00. Ribs were 22,000 higher at \$8.574,000. Estimated receipts for tomorrow: Wheat, \$1 cars; corn, 15 cars; oats, 27 cars; hogs, 17,000 head.

NEW YORK STOCKS AND BONDS Harriman Issues Are Again the Leading

Feature of Market. NEW HIGH RECORD FOR UNION PACIFIC

of Increased Dividend in United States Steel Sends that Issue Up-Money is Firmer.

NEW TORK, Aug. 24.—In the main, to-day's stock market was largely a repetition of the previous days. Pretty much the same stocks were used as market leaders and for the greater part of the day the same degree of irregularity prevalled. To round out the analogy, trading was almost in the same proportions.

The movement took in a number of specialities not especially prominent in the recent activity, such as National Lead and international Pump, but a fresh upward movement in the Pacinics—the Harriman issues—was again the most prominent feature. These stocks, together with United States Steel common, which early distinguished itself by scoring a new high record for the movement, the Hill issues, Amaiga mated Copper, Atchison, Et. Paul and Reading comprised the bulk of the business. In fact sales of steel and copper overshadowed all else in the first hour. Fears of a furry in call loans, which opened at 5 per cent, seemed to vanish in the early afternoon when prices were at their highest. Fore casts showing bank losses for the west approximating \$5,00,000 were received with apparent inaliference, in spite of the obaparent indifference, in spite of the chart of the first hours. The pronouncement of the secretary of the treasury that present conditions call for no The normal present conditions call for no The representative of the secretary of the treasury that present conditions call for no The normal stock was again industriously circulated, while veiled suggestions of a further distribution in Union Pacific were given as the reason for the membrane such a further distribution in Union Pacific were given as the reason for the new movement in that issue. This stock was used as the market leader in the early afternoon rise, but trading soon fell off to more moderate volume and the effort to sustain the market was for a time abandoned. The market gathered fresh impetus in the lisat hour when call money fell to more moderate volume and the effort to sustain the market would have a defeit to more moderate volume and th

a commodations the rate was equivalent to per cent.

To per cent.

Bonds were irregular. Total sales par value \$2,165,000. United States bonds were all unchanged on call.

Wool Market.

BOSTON, Aug. 21.—WOOL—The Commercial Builetin will say tomorrow of the wool situation: Although the largest factors in the wool market have not yet started important operations, the medium and smaller mills are buying combing and clothing wool in lots ranging from 50,000 to 100,000 pounds. Consumers, who had been holding off, are receiving no encouragement from merchants in regard to obtaining lower prices, for today's basis of values will be sustained as far as possible. Even though full present rates may be paid, the profits to dealers will not be large. All staple wools from quarter blood up are in a strong position. Among the territory transactions are fine and fine medium tutah and Wyoming at 236724the, or 68476c scoured; several hundred bags of fine and fine medium Idaho, in original bags, at 236724c, or 58676c clean; original bags, at 23674c, or 58676c clean; original bags of fine Montana at Inc and medium at 28c, the clean cost of which is about 10c. Half-blood staples are moving at 76671c. Fine staple is worth 75676c and fine medium \$670c. Fine clothing is quoted at 76671c; fine medium, 66767c; half blood, 67 671c; three-eighths and quarter blood, 67 671c; three-eighths and quarter blood, 67 671c; three-eighths and quarter blood, 67 671c; three-eighths and subtract and the province of the former grade. Ohio stock, 35c is quoted, while the latter is selling at 33% 680c. The shipmonts of wool from Boston to date from December E. 1866, according to the same authority, are 18.91,230 pounds, against 150,874.641 pounds at the same time last year.

ST. LOUIS, Aug. 24.—WOOL Steady; medium grades, combing and clothing, 246 28c; light fine, 18922c; heavy fine, 14971c; tub washed, 22628c; heavy fine, 14971c; tub washed, 2262

Coffee Market.

NEW YORK, Aug. 24.—COFFEE—Market for coffee futures opened steady at unchanged prices to a decline of 5 points, which was lower than due on the steady European cables. At first, prices showed little movement, with trading largely in the way of switching from near to late months, but business for fresh account was a little more active later and prices worked up on covering and bull support, which was probably encouraged by further reports of unfavorable condition of trees and the confidence expressed by some trade interests in the valorization plan. The market closed steady net unchanged to 10 points higher. Sales for the day were reported of 114,000 bags, including September, 6.55@6.70c; October, 6.80c; December, 6.90@6.95c; February, 7.67.05c; March, 7.10.@7.20c; May, 7.20.@7.30c; July, 7.36.@7.45c. Spot Rio, steady; No. 7 Rio, 8%c. Coffee Market.

Evaporated Apples and Dried Fruits. NEW YORK, Aug. M.—EVAPORATED APPLES—Market quiet. Supplies for No-vember delivery are quoted at 5%c. But little business is reported for future delittle business is reported for future de-livery.

CALIFORNIA DRIED FRUITS—Prunes for future delivery are said to be a little easier, but the spot market continues firm. California 70s to 80s are quoted at 74.00 84c and Oregon 20s to 40s at 74.0046c. Apri-cots are without fresh feature, choice be-ing quoted at 16c; extra choice, 17c; fancy, 18.00c. Peaches are unchanged, with choice quoted at 10%. (File: extra choice, 11 (File: fancy, 116.13c; extra fancy, 120.1246c. Raisins are unchanged, with loose mus-catel quoted at 65.07c; seeded raisins, 60 8c; London layers, nominal.

BAN FRANCISCO, Aug. 24.—The gross earnings of the Southern and Union Pacific roads and of the Santa Fe for July and the first two weeks of August show an increase in the overland traffic, also in the state and coast business of the Santa Fe and Southern Pacific, all of which, in the opinion of the officials, reveals remarkable business vitality of San Francisco in particular and California in general.
