GRAIN AND PRODUCE MARKET

Dull Trade Characterizes all Articles Through the Session.

WHEAT FIRM ON WEEK-END COVERING

Weather Conditions Very Favorable for Harvesting Crop—Corn Shorts Cover on Light Estimated Receipts—Oats Quiet.

OMAHA, Aug. 25, 1906.

Dullness was the leading characteristic of the grain markets today. Wheat was easy for a time, with a little selling by cash houses, but firmed later on week-end covering. Weather conditions throughout the spring wheat belt are all that could be desired, and it is only a question of time before receipts increase materially at Minneapolis and Duluth.

Light estimated corn receipts for Monday caused shorts to cover in September and operators came in on short May, resulting in a firm tone to the market and a strong closing.

Oats were quiet, acting rather easy early, but firming toward the close. The trade was without feature.

Primary wheat receipts were 547,000 bushels and shipments 448,000 bushels, against receipts last year of 740,000 bushels and shipments of 483,000 bushels. Corn receipts were 380,000 bushels and shipments 373,000 bushels, against receipts last year of 637,000 bushels and shipments of 869,000 bushels. Clearances were 587,000 bushels wheat, 49,473 barrels flour, 35,000 bushels corn and 156,000 bushels of oats.

Liverpool closed unchanged to ½d lower on wheat and ½@¾d lower on corn.

Broomhall estimates world's wheat shipments Monday at 9,600,000 bushels.

W. H. Bartlett says this regarding corn: "We call attention to the fact that there are one or two counties in Indiana; several counties in Illinois; two or three counties in north central Kansas and one, or possibly two in southern central Nebraska, where too much dry weather has cut the yield down to probably three-quarters of a corn crop; but these are isolated localities, while the balance of the great corn belt promises a bumper crop from north Dakota to the gulf. There is every prospect at the present time of our raising more corn than we did last year and we believe that the final government estimate will confirm this prediction."

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Aug. 25.—Decreased receipts as compared with the corresponding day last week caused a strong close in the wheat market today, the September delivery closing at a net gain of ¾@¾c. Corn and oats were practically unchanged. Provisions were a shade to 5c lower.

Trade in wheat was light all day, there being only a slight demand and few offerings. During the early part of the session sentiment favored lower prices because of the decrease of rain in the northwest and a prediction of increased world's shipments for Monday. A continued absence of export demand also exerted a depressing effect on prices. More animation was evident in the market during the last hour and considerable firmness was developed. Small primary receipts was the cause of the stronger tone. Total arrivals today at all primary points were 547,000 bushels, compared with 740,000 bushels for the corresponding day of last year. Damage reports from the southwest also created a more bullish feeling. The market closed strong with prices close to the highest point of the day. September opened ¼@¾c lower at 71¾c, sold off to 71c and then advanced to 71¾c. The close was at 71¾@¾c. December sold between 74½c and 74¾@¾c and closed at 74¾c, a net gain of ¼c. Clearances of wheat and flour were equal to 810,000 bushels. Minneapolis, Duluth and Chicago reported receipts of 190 cars against 375 cars last week and 240 cars a year ago.

Continued rain in Iowa and Illinois caused considerable profit-taking in the corn pit early in the day, which resulted in a weak market. Later, however, all of the loss was regained on covering by shorts. Damage reports from Kansas and an estimate of small local receipts on Monday also contributed to the stronger feeling. Trading on the whole was quiet. The market closed firm. September opened ⅞@¾c lower at 47⅞c to 47¼c, advanced to 48¼c and closed at 48¼c. December ranged between 43½c and 43¾@44c and closed at 43¾c. Local receipts were 198 cars with 128 cars of contract grade.

Oats were quiet and steady. The market was bearish early in the day by the easier tone of wheat and corn. When those markets became firmer oats followed them. September opened ¼c to ⅛@¼c lower at 29¼@29¾c to 29¼c, sold between 29¼c@29½c and closed at 29¾@29¼c. December sold between 30½@30¾c and closed at 30¾c. Local receipts were 226 cars.

Provisions were steady on a 5c advance in the price of live hogs. Shorts were active buyers of lard. At the close September pork was off 5c at $17.00. Lard was down 2½c at $9.77½. Ribs were a shade lower at $9.87½.

Estimated receipts for Monday: Wheat, 4 cars; corn, 146 cars; oats, 226 cars; hogs, 36,000 head.
