NOTHING BUT A POKER GAME

That is What Certain Democrats Say of the Dahliman Democracy. ASSERT MAYOR DOES NOT KNOW FACTS Howell and His Crowd, These Men Declare, Merely Want New Cloak for Their Gambling Operations.

Harsh things with reference to some of the leaders in the new Dahliman Democracy club are being said by Jacksonian club members who were responsible for the ousting of gambling from the Jacksonian club rooms two years ago. These declare that the new club for its prime purpose has the establishment of a poker game, with a nice little kitty and private rake-off, and that the mayor's name and prestige are being used as a guaranty of the integrity of the organization.

Several of the men who are doing the talking are genuine friends of Mayor Dahliman, and they say he does not clearly understand the objects of Ed Howell, Louis J. Platt, John Reagan and others who founded the Dahliman Democracy.

It was regarded very significant that the first and only meeting of the Dahliman Democracy up to date was held in Charley Lytle's gambling rooms on the second floor at 25 South Fifteenth street. Platt asserted that these headquarters were only "temporary," but a statement made recently by Lytle does not point that way. A friend said to him:

"Lytle lets the cat out. Charley, how is it that you are letting these fellows into your game? 'I can't run unless I give them a percentage.' Lytle is reported to have replied, laconically:

Present Jacksonian club leaders have no difficulty in recalling that when a new regime was installed, after the exposure of the game and kitty in a suit for damages in the district court to recover money alleged to be lost by a victim, Ed Howell made an alluring proposition. This offer was to the effect that Howell, and possibly his partners, would pay all the rent and expenses of the club and \$5 a month besides if he was permitted to run the 'game' there. The Jacksonian club had been occupying two whole floors of a down town business block, but the younger and reform element in control turned down the Howell proposal, gave up the old headquarters and moved into ones very much smaller and cheaper across the street. They say they have kept gambling, except little individual games for small stakes, out of the club rooms to date.

Click for Gambling. The situation as seen from a Jacksonian club standpoint was outlined by a prominent young democrat as follows: "We believe the Dahliman democracy is intended simply as a cloak for the gambling operations of the men who ran the gambling at the old Jacksonian club. You will remember the Dahliman democracy was organized while the mayor was away on a Commercial club excursion. Its avowed purpose is to support him and, of course, he could not have been other than flattered." At the same time, I know he had very little knowledge about the organization and since that time has not got into very close alliance with it. I hate to see him being used as a cat paw for a bunch of fellows who want to make a profit out of gambling operations and seek in this way to semi-legalize their traffic, but I think this is just what is taking place. For my part, I do not think the mayor is in on the mercenary side of the proposition, to be perfectly fair to him, but I do not hesitate to charge that some of his alleged political friends are co-operating in this confidence.

Have to See Mayor Dressed. These are the men who believe in Dahliman and have been hoping the best thing for
