Trade in All Lines Light and Range is Very Narrow.

PRICES UNCHANGED AFTER SLUGGISH DAY

Wheat Generally Under Close Previous Session-Exporters Not In Market, Saying Foreign Bids Are Being Reduced.

Wheat held in a very narrow range tolay. Prices were generally under last
hight's close, although at the end they
were triffe nigher. Cables were a little
lower as the weather was favorable for
lineshing and harvesting. Exports were
not in the market at an, saying foreign
liftle were being reduced, and there was
no prospects of any business soon. The
only satisfaction for the buils was the
fact the receipts were light in the northwast, where it was thought the movement
of spring wheat would be neavy this week.
Trude in the corn pit was at a standstill,
and the price range was very narrow, the
close being about the same as yesterday. Heccepts were smaller than
estimates, and estimates for tomorrow are
small, while the weather was favorable.
Tho trade is at present indisposed to go
strong either way.

Primary wheat receipts were 419,000 bushels and shipments 34,000 bushels, against
receipts last year of 697,000 bushels and
shipments of 371,000 bushels. Corn receipts
were 359,000 bushels and shipments of 100,000
bushels, against receipts last year of 640,000
bushels, against receipts were 410,000
bushels, ag OMAHA, Aug. 28, 1806.

CHICAGO	GF GF	LAIN	AND	PROVIS	IONS

Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, Aug. 28.—Clear weather in the northwest had a depressing effect on the local wheat market today, but fair demand by shorts caused a firm tone at the close, final quotations on the December delivery being up \(\frac{1}{2}c. \) Corn was also \(\frac{1}{2}c. \) higher. Oats were practically unchanged. Provisions were \(\frac{2}{2}c. \) to 12915c lower.

Sentiment in the wheat pit was bearish for the greater part of the day and the volume of trading was small. Lower cables and an absence of rain in the spring wheat country were the chief influences for lower prices. The feature of the market was the persistent liquidation of the September option by local holders. Country acceptances were light, but cash houses reported that the movement will in all probability show an increase. This encouraged additional sales. During the last fifteen minutes of trading the market became more animated, there being a good demand by shorts.

probability show an increase. This encouraged additional sales. During the last fifteen minutes of trading the market became more animated, there being a good demand by shorts. A decrease of 30 per cent in primary receipts for today as compared with the same day last year, was one reason for the improved demand. The close was firm, prices being at the high-est point of the day. December opened a shade to 4c lower at 74c to 744c, sold off to 73%c and then advanced to 74%c. Final quotations were at 74%. Clearances of wheat and flour were equal to 28,400 bu. The world's visible supply as shown by Bradstreets increased 3,000,000 bu. Primary receipts were 423,000 bu., compared with 607,000 bu. one year ago. Minneapolis, Duluth and Chicago reported receipts of 21% cars against 270 cars last week and 275 a year ago.

The corn market was inclined to be weak early in the day on selling by cash houses. Weather conditions are now considerable favorable for the maturity of the growing crop and this accounted, according to receiving houses, for a substantial increase in the amount of country acceptances. Local receipts today were larger than had been estimated, the total arrivals being 363 cars with 200 of contract grade. Late in the session a firmer tone developed on covering by shorts which was based upon the expectation of small local receipts tomorrow. The market closed firm. December opened unchanged to a shade higher at 45% 44c to 44c, sold off to 45% 47% and then advanced to 46% 46c.

Trading in oats was quiet and the tone of the market was easy. The probability of a liberal increase in the movement from the country was the chief depressing influence. There was considerable changing from September to the December delivery. December opened 4c lower at 20% and closed at 30% 2000 fc and closed at 20% 2000 fc and closed at 20% 2000 fc and closed at 20% 2000 fc and clo

NEW YORK STOCKS AND BONDS Market Opens Steady, but Soon Develops a Reactionary Tendency.

CALL AND TIME LOAN RATES RISE

Philadelphia Concerns Sends Leading Issues Down One to Three Points.

NEW YORK, Aug. 28.—For the first time since the Fucilio dividends became a matter of published dividends became a matter of published manner. Instead of the "wide openings" and "new high records" so familiar in the past fornight, trading opening in the past fornight, trading opening in the past fornight, trading opening in moderate volume but prices soon developed a reactionary tendency. This seeming change of sentiment was ascribed to a variety of calsess, chief among them to a variety of calses, chief among them any reported "deals" to materialise. Local monetary conditions showed no improvement. Indeed, if anything, were worse, the banks thus far showing a loss to the subtreasury of over \$2,08,(60, Cali monetary conditions showed no improvement. Indeed, if anything, were worse, the banks thus far showing a loss to the subtreasury of over \$2,08,(60, Cali monetary conditions showed no improvement. Indeed, if anything, were worse, the banks thus far showing a loss to the subtreasury of over \$2,08,(60, Cali monetary conditions showed no improvement. Another batch of Australian gold was ensaged during the day. It is believed that things are tending toward that directon. Another batch of Australian gold was ensaged during the day. It is believed that things are making to induce Secretary. Shaw to renew his "anticipation" order of last spring, but that official, who was for gold imports, expert opinion is that things are making to induce Secretary. Shaw to renew his "anticipation" order of last spring, but that official, who was considerable of a mention of his attitude in the matter. Exchange weakened further to 64,10 early his period, the market sarged, but toward noon the trading increased under the active lead of Atchison. St. Paul and Amalgamated. Copper. Atchison steven server part of this period, the market sagged, but toward noon the trading increased under the active lead of Atchison. St. Paul and Amalgamated. Copper. Atchison steven before it became thought to be provided to a pew high record and board ro

of last spring, but that efficial, who was in town today has thus far given no intimation of his attitude in the matter. Exchange weakened further to 64.10 early in the day.

The market bore strong evidence of pressure in many quarters, among the early weak issues being United States Steel. Smelting and Reading. On the other hand Canadian Pacific was pronouncedly strong, advancing over four points in the last hour. During the greater part of this period, the market sagged, but toward noon the trading increased under the active lead of Atchison. St. Paul and Amalgamated Copper. Atchison sdvanced to a new high record and board room gossip held that not only would the dividend be increased to 5 per cent, but there was talk of an issue of new stock at par. Neither of these rumors, it may be said, was confirmed in official quarters. The movement in sugar, one of yesterday's features, flattened out even before it became known that the regular dividends should be declared.

Early in the afternoon, when the market was exhibiting its strongest tone, heavy seiling of Reading and Union Pacific started a downward movement which soon took in the entire list. The cause of the selling was considerable of a mystery until it became known that a Philadelphia trust company was in difficulties. Reports as to the magnitude of the institution's liabilities and its attendant effect were of a character to excite great alarm and the great occasion was utilised to advantage by the shorts. Prices declined from one to \$1/4 points, with only partial recoveries in most issues. Much of the selling of Reading and Connect states a while as well as other stocks was believed to be for account of the embarrassed Philadelphia company or interests lalentified therewith. The market was a feature. Americans, the Harriman issues excepted closed strong at that center and buying of our stocks, chiefly Atchison falls and contents. Were probably 6,000 shares on balance.

Bonds were easy. Total sales par value, 25,000 shares on balance.

Bonds were easy. T

medium grades, combing and clothing. 240 28c; light fine 1862; heavy fine, 14217c; tub washed, 324084c. Coffee Market.

NEW YORK, Aug. E.—COFFEE—Market for coffee futures opened weak at unchanged prices to a decline of twenty points under local liquidation and selling by houses with Brazilian connections. Trading was active and the market ruled weak and unsettled until the end of the season. Brazilian markets were slightly lower and late cables from Havre were weak, although Europe was a moderate buyer in the local market. Full receipts, market weak in Brazil and absence of any definite information as to the valorization plan seemed to be discouraging speculative longs. The close was about 5 points up from the lowest on coverings, but while steady is tone was 15625 points net lower. Sales were reported of 118,760 bags, including September, at 2596 500; Detober, 2502 550; December, 6566,750; January, 6750; March, 6569, 6566; May, 8756,56; June, 7,600; July, 8,306, 7,100. Spot Rio, nominal; No. 7 invoice, 5%c. Evaporated Apples and Dried Fraits.

Evaporated Apples and Dried Praits.

NEY YORK, Aug. 23.—EVAPORATED APPLES—Market continues quiet with buyers showing little disposition to operate for future delivery in the expectation probably of lower prices. The spot market is nominal.

CALIFORNIA DRIED FRUITS—Prunes are unchanged on spot with California's 100 180 1 100

HOGS—As was the case yesterday morning, it was the light hogs that were in the best demand, and buyers of that kind were out early and the trade was fairly active. The prices paid were about the same as those which prevailed yesterday, good light hogs seiling largely at \$5.50,000. The top today, however, was is higher than anything brought yesterday, a lancy load selling up to \$5.10.

Heavy hogs were mostly is lower and in extrame cases as much as \$50,000 lower than yesterday, and slow at the decline. They sold around \$5.50,000, with the mixed loads largely at \$5.50,000, with the mixed loads largely at \$5.50,000. It was late before the trade was really under way. The market was at no time very active, and it was well along toward mid-day before anything like a clearance was effected.

The market closed slow and weak at the lowest point of the day. At the close all kinds of hogs were lower, with heavy hogs suffering the most, that kind being in many cases fully 100 lower.
