CASE PASSED UPON UNDER OLD LAW

Commission's Powers Under That Act Are Inadequate to Enforce Ruling.

This Case, Like the Other, Had Been Passed Upon by the Commission, but Its Orders Have Been Ignored.

(From a Staff Correspondent.) WASHINGTON, Aug. 20 .- (Special Telegram.)-The Cattle Raisers' association of Texas has filed a petition for an order of minission fixing rates on cattle from the southwest markets and northern ranges in accordance with a decision rendered a year ago that the rates to the exterabout \$7 per car are too high. Toportance of the case can be better portance of the case can be better portance of the case can be better stood when it is considered that it amb deligible rates held to be unlawful were put in effect March 5, 1908, so that probably the unfust part of the rate collected, as held by the commission, has amounted to between \$4,000,000 and \$5,000,000 already and is

steadily increasing at the rate of \$100,000 S. H. Cowan, attorney for the Texas association and other western live stock associations, presented the application to the commissioners of interstate commerce, being the first one to ask for the exercise of the rate-making power. His contention is that there has already been a full hearing on the complaint under section 13 of the original interstate commerce act and that all the commission has to do now is to offer full opportunity for the presentation of further evidence which either party may demand and then decide the case upon the whole evidence, old and new, and fix the rate. There are many important cases heretofore decided by the commission which may be dealt with similarly.

After Terminal Charges. Mr. Cowan also presented a similar application for further proceedings in the matter of the live stock terminal delivery charge at Chicago, which the commission has decided to be unlawful and ordered the carriers to cease and desist collecting it. The order was not obeyed and now the cattle men and other live stock men, through the Cattle Raisers' association of

Financed School for Women Another enterprise in which the dead president was financially interested was liscovered today, when it became known that he was one of the incorporators of Miss Wright's Select School for Ladies, at Bryn Mawr, the suburb in which Hipple had his summer residence. The other in corporators were his son, F. Wharton Hipple, and Miss Wright. The latter, five years ago, began teaching school at Bryn Mawr. She made the acquaintance of Mr Hipple's daughter, now dead, and Mr. Hipple displayed a friendly interest in her. Last year Miss Wright purchased a large stone building at Bryn Mawr at a cost, it is said, of \$80,000 and established her select school. Miss Wright said today that Mr. Bulgarian post at Sujuk and the guard on Hipple visited the institution two or three times a week. His last visit was made according to Miss Wright, on Thursday afternoon of last week, the day before he shot and killed himself.

In an interview today Receiver Earle reiterated his opposition to a permanent receivership for the trust company. This proceeding, he declared, would deprive the concern of its trust funds, which are among the most valuable assets. If all of Promoter Segal's enterprises are as valuable as his sugar refinery, he said, their operation by the depositors would be more fruitful of results than any other method. and he believed through such a plan the depositors would receive dollar for dollar

ULTIMATUM TO THE PACKERS Secretary Wilson Tells Them Labels Must Specifically Describe Contents of Packages.

WASHINGTON, Aug. 30 .- Nothing short of the placing on meat products of labels which will not deceive the public was the ultimatum which Secretary Wilson delivered to forty representatives of various packing houses here today. Hereafter, if the packers want their goods accepted for interstate shipment, the packages must bear labels more specific than those used hitherto. It will not do, for instance, to state merely that a package contains sausage. The label must distinctly describe the article and plainly show that the sausage is made entirely of pork, or pork and beef combined, or of other ingredients. The elimination of certain advertising features on the labels will also be insisted upon.

The packers were particularly solicitous regarding the meat products already put up and held in stock, but Secretary Wilson assured them it was not his intention to open every package, but to select a certain percentage, and if they were found as represented he would authorize labels for the lot, certifying that it had met the requirements of the law.

In administering the law Secretary Wilson said he would apply common sense and that it was not his intention to be hypercritical or to impose any unnecessary hardships on the packers. Further conferences will continue tomorrow.
