## Beer Is Not An Alcoholic Drink

An eminent scientist says it cannot properly be called such.

In view of the increasing popularity of beer, it is interesting to note what the really eminent modern scientists say of it. There has been a great deal of prejudice against beer, but this prejudice, like many prejudices, is based on ignorance. Beer is not a "liquor," as it is frequently called by uninformed people, and it is not an intoxicant. Of course, it is possible to drink too much beer, just as it is possible to eat too much meat, but the proper use of beer is declared by eminent doctors to be beneficial to the health.

Dr. E. Struve of Berlin, a well-known scientific assy, "The specific characteristic of beer is not its alcoholic property. Modern techniques in beer brewing have a tendency to reduce the amount of alcohol in beer and to correspondingly increase the proportion of extracts. Owing to the small amount of alcohol in beer, the name 'beer' is not properly be called an alcoholic beverage."

Beer, for sixtieth years, has been the leader in all scientific developments in the art of brewing and today Pabst Blue Ribbon beer is the recognized superior of all beers. It is not the extracts (food elements) of which Dr. Struve speaks, absolutely pure and clean and low in its percentage of alcohol.

Pabst Blue Ribbon Beer is so rich in food elements because brewed only from Pabst's exclusive eight-day malt. This malt is grown from best selected barley and grown slowly in Nature's own way, thus retaining all the vital food strength of the barley. It gives Pabst Blue Ribbon the highest food value and makes it most nourishing. The very small percentage of alcohol in Pabst Blue Ribbon, only three and one-half per cent, serves to stimulate the digestive activity of the stomach and cannot be injurious to the health. Pabst Blue Ribbon, the most healthful beer, the highest of bottled beers, is the beer for the home.

## BRIGHT CARNIVAL PROSPECTS

Parade as Opening Most Attractive in History of the Enterprise.

**AUTOMOBILES DAINITLY DECORATED**  
 Boys and Girls' Pony Brigade Also Attracts Much Attention—Some of Industrial Features Are Unique.

If opening day indications come for anything the Council Bluffs fifth annual street fair and carnival promises to prove a record-breaker. All that is needed, it is conceded, to make it such is good weather, such as the powers in charge of the weather bureau provided yesterday. That the merchants, business men and the people generally of the city take an intense interest in these annual festivities was demonstrated by the big turnout in the parade yesterday morning, the event which heralds the opening of the street fair and carnival.

The parade was probably the largest and certainly one of the most interesting ever witnessed in the city, the civic, industrial and business interests of the city being fully represented. There was music galore, and many of the features of the long procession were particularly pretty, such as the automobiles and pony contingents. All of the autos were elaborately decorated with flowers and flags, the two large touring cars of J. V. Wilcox taking the lead in the matter of decoration, although the large car of Charles Test Stewart, with its load of eighteen little girls in their dainty white frocks, probably attracted as much if not more attention from the immense crowds which lined the streets on all sides. The boys' and girls' pony brigade, with the little animals tastefully bedecked with flowers and the carnival ribbons, was also a most attractive feature.

**The Prize Winners.**  
 Joe Smith of the firm of Joe Smith & Co. had a dainty touring car, which was a novelty, and attracted much attention, as did the float of H. H. Van Brunt, which received the first prize. The New Nonpareil company had 125 employees in line, all pulling a rope, labeled "the tow line for Council Bluffs." It received the first prize for the largest number of employees in line. Councilman Maloney received the first prize for the largest number of teams in line, securing it by having the Indian creek gang in the procession with about seventy teams, wagons and scrapers and about 25 men. This feature, while not an attractive one, was certainly unique and gave the public some idea of the work being done on the troublesome creek.

The Danish societies had about 30 men in line with white caps and red bands, while the Nebraska Telephone company had fifty men in line. The Citizens Gas and Electric company had a unique display—two poles with cross arms and an electric arc light suspended between them on the float. A tempting looking display was that of the Council Bluffs Grape Growers' Shipping association—a large wagon loaded with luscious looking white and red grapes.

The formation of the big parade was as follows:

- Mayor George H. Richmond, Chief Marshal, and Mounted Aides.
- Platoon of Police in command of Captain Cal Shaffer.
- Cavalry Band.
- Dodge Light Guard, Command of Lieutenant Peterson.
- City Councilmen and Other Officials in line.
- Danish Societies, 500 Strong.
- Brotherhood of Railway Carmen, 75 Strong.
- Nebraska Telephone Company, 50 Men in Line.
- Home-made Bread, a Specialty.
- Visitors Welcome.

If you are looking forward to your summer's outing you will need a few vacation necessities; if you are going camping with a small party you will want a few delicacies; if you are going to a picnic you will want your basket filled with "good things to eat." Sandwiches, olives, pickles, cakes, cheese, fruits, a cold bottle of ginger ale or root beer—in fact McAtee has everything necessary to fill a dainty lunch basket and the best the market affords.

**Fire Damages Liquor.**  
 Fire of unknown origin which was discovered shortly after midnight Sunday did considerable damage to the wholesale liquor store of L. Rosenfeld, at 219 South Main street, and the Bee Hive grocery, adjoining, owned by O. Hochman.

Smoke from the store aroused the tenants on the upper floor and they notified the fire department. Several of the families removed most of their belongings, fearing the blaze might communicate with the upper part of the building, but the firemen kept it well under control, although it was four hours before the flames were entirely extinguished. The fumes from the burning liquor impeded the work of the firemen, who were compelled to work in relays, being unable to withstand for any length of time the pungent odor.

Mr. Rosenfeld was unable to give his loss yesterday exactly, but said he believed it would be between \$2,000 and \$3,000, fully protected by insurance. Mr. Hochman was unable to estimate his loss on his grocery stock, which was badly damaged by smoke and water, as was the stock in his meat market. He carried \$2,000 insurance, but could not say whether this would cover his loss.

# As You Dealer For The BEER You Like

It is offered to the public today for the first time and from now on the public will be the judge.

We want every one who drinks bottled beer to give "Luxus" one trial—that is all we ask—one trial—then we are willing to take our chances on their regular patronage.

You know that there is as much difference in beers as there is in any other food product. You will notice that "Luxus" tastes different from all others. You will notice it tastes better. **And We Can Tell You Why.**

**Send For Our Book: "Luxus Beer"**  
 telling what it is made of, how it is made and why we can absolutely guarantee its uniformity of flavor, purity and wholesomeness. **There are many good reasons for its superiority and we want you to know them all.**

**Here are a few:** We use the finest hops grown in Bohemia, selected by our own experts and specially imported for "Luxus" Beer. The Malt is made from the best barley in the world—that grown in the Northwest. The Rice is imported from India where it is grown and then stored until it becomes perfectly conditioned, which cannot be accomplished in less than one year. The water used is from our wonderful Artesian Spring, the purest, healthiest, most sparkling of nature's waters. **And It's Made Just Right.** Not a sticky, heavy beer but a light, nutritious beverage of a pale amber color, something that you will enjoy with your meals as well as for refreshment.

**Try It Now—Today.** If your dealer cannot supply you, send your order direct to us. We will supply you promptly.

**Dope Causes Insanity.**  
 George Smith, said to be a dope fiend, was arrested by the police yesterday afternoon. He is said to be mentally deranged from the excessive use of drugs and will be taken before the commissioners for the insane today.

**Smith, by his strange actions, alarmed a number of residents on South First street, who notified the police.** When Detective Weir arrived on the scene he found Smith had climbed one of the large trees in front of the G. H. Jackson residence. Detective Weir, having had an unpleasant experience in climbing trees while picking cherries on his place which laid him up for months with a wrenched back from a fall, decided not to attempt to follow the fellow. After considerable argument Smith finally consented to crawl down. On July 5 he was sent to the county jail for thirty days for the theft of a grip which a woman left on the steps of the photoists while she went inside to mail a letter.

**Telephone Operator Shocked.**  
 FORT DODGE, Ia., Sept. 2.—(Special)—Abbie Radcliff, a telephone operator, received a serious, if not fatal, shock while at her duties on the board of the Corn Belt Telephone company here today. A live electric light wire became crossed with a telephone wire just as she made a connection on that circuit and the full current of about 50 volts entered her head through the receiver. She was unconscious four hours and since reviving has not been able to hear a word. It is feared that the drums of both ears have been entirely destroyed.

 LOGAN, Ia., Sept. 2.—(Special)—The forty-eighth annual meeting of the Harrison County Agricultural society will be held at the fair grounds near Missouri Valley on October 1, 2, 3 and 4. The first two days will be entry days and the last two will be

race days. This is the county fair and always draws a big crowd.

**Iowa Murder and Suicide.**  
 DAVENPORT, Ia., Sept. 3.—Henry Drenn, living near Argo, twelve miles from Davenport, shot and killed Grace Reed last night, severely wounded Sam Moore, a successful rival, and then put the muzzle of a rifle in his mouth and blew off the top of his own head.

**WOMAN IN CLUB AND CHARITY**  
 More and more each year are club women all over the country giving their time and their means to the aid of education both to individuals and institutions. There are scores of clubs maintaining scholarships for ambitious girls and women who would otherwise be unable to continue their education, while several educational institutions for others than women are beneficiaries of the generosity of clubs or federations of their state or neighborhood.

The South Carolina federation maintains a number of scholarships. The Texas Federation supports twenty-three. New Hampshire federation controls a \$50 fund in addition to five annual scholarships granted by the New Hampshire college. The young women aided are pledged to a period of teaching in the public schools of the state.

The Wisconsin federation has raised \$10,000 as an endowment fund to support a chair of domestic science for the preparation of teachers in that branch of the work. Milwaukee's Downer college accepted the fund and so became the first college in the state to furnish a normal course in domestic science.

The Michigan clubs have united in securing the "Lucinda Stone Memorial Scholarship Fund," a \$5,000 memorial to one of the pioneer club women of the country. Several Massachusetts clubs have given individual scholarships to Maryville college in Tennessee and the State federation has also done settlement work among the Tennessee mountaineers. In June, 1926, Miss West, a graduate of Maryville, and another young woman undergraduate of Maryville, went out into one of the remote districts of the Tennessee mountains called Happy Valley. They opened their work in two rooms of one of the few frame houses in the valley and did much helpful work among the people for two months. The work was resumed again this summer. The Cantabria club of Cambridge, Mass., maintains a \$5,000 scholarship at Radcliff. Until it was destroyed by fire last year the Model school in North Georgia was one of the prides of the Massachusetts federation, which supported it. A few weeks ago the school at Rabun Gap, Ga., received \$2,000 from the Daughters of the Confederacy of Georgia for a dormitory for girls. And these are only a few of the things that club women are doing for education. Almost every state is doing something as a federation or is helping through its individual clubs.

The August Bulletin of the Woman's Municipal League of New York is devoted largely to a consideration of the work for clean streets. Some of the methods advocated for street cleaning are not only unusual, but practical, and have been followed with much success in a number of cities. The ideas of women regarding municipal housekeeping are too often ridiculed as impractical because they have never been tried. This is especially true of various plans for street cleaning that they have advocated and in many cases the women have been compelled to put their plans into use themselves and pay for the experiment before being able to get the authorities to give them serious consideration. In the majority of cases where this has been allowed it has proven successful and in many places the women's plans have been adopted permanently.

 Will Says He Will Prosecute Men Responsible for Trust Company Failure.

**PHILADELPHIA, Sept. 3.**—District Attorney Bell, with the aid of three assistants, today began an investigation of the affairs of the Real Estate Trust company, which failed last week. In his preliminary examination with Receiver Earle Mr. Bell said he found sufficient evidence to cause several arrests, but he prefers to make a complete and independent investigation of the company's affairs before obtaining warrants.

Mr. Bell said he holds that any officer or director who had knowledge of Hipple's irregular transactions and took no action is criminally liable. All of the directors who will talk of the failure deny they had any knowledge of the true condition of affairs.

Receiver Earle is still at work attempting to unravel the tangled affairs of the company. It is believed the company will never resume business and that the percentage of money the depositors will receive will not be as large as was at first expected.

**Strike Breakers at Oakland.**  
 SAN FRANCISCO, Sept. 3.—It is rumored here that a body of strike breaker, numbering several hundred men, has arrived at Oakland Pier, awaiting transportation to this city. The striking carmen are on the alert and the ferry building is surrounded with pickets.
