## GRAIN AND PRODUCE MARKET

Bear Forces 1 ave Pest of Fight in All Fits.

WHEAT HALF CENT BELOW PREVIOUS DAY

Cables Low, Export Bids Again Re duced and Northwestern Receipts Increase-Favorable Crop Reports Make Corn Weak,

OMAHA, Sept. 5, 1966.

Opening prices in wheat were a fraction lower on sales by elevator interests. December shorts were good buyers and the market advanced about 4c, only to recede as the session advanced and close about 4c below yesterday. Trade was very light. Cables were lower, and the lack of cash demand offset in influence of small receipts. Expert bids also were reduced. Northwestern receipts showed signs of increasing and the market there was weak.

The bears had the best of it in corn. due the favorable condition of the crop, and prices were about 3c lower on deferred futures, though unchanged on September. Receipts overran the estimates, and cash houses say the run will be better before the end of the week. Interest is lacking, however, and the bears show little disposition to follow up their advantage. OMAHA, Sept. 5, 1906.

Primary wheat receipts were 513,000 Primary wheat receipts were 513,000 bushels nushels and shipments 391,000 bushels. Ingainst receipts were 391,000 bushels and shipments 563,000 bushels and shipments 563,000 bushels and shipments of 968,000 bushels and shipments of 482,000. Clearances were 80,000 bushels wheat, 34,222 barrels four, 123,000 bushels corn, and 12,000 bushels cats.

Liverpool closed 4605d lower on wheat and 3605d lower on corn.

W. H. Bartlett of Chicago sent out the following message or outs: "The last three

W. H. Bartlett of Chicago sent out the following message on oats: "The last three days we have received 605 cars of oats in this market. The average carload of oats at the present time is 1,700 bushels, so that our total receipts for the three days amount to more than a million bushels of oats. Demand for oats continues very moderate, while there is every indication of an increased northwest movement. We believe oats are a sale on every hard spot." Local range of options:

Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CRICAGO, Sept. 5.—The continuance of excellent harvesting weather in the northwest had a weakening effect today on the local wheat market. The December delivery closed at a net loss of Mc. Cornwistons were 24,05c higher.

Trading in the wheat market was not active and sentiment was bearish nearly all day. Pit traders were sellers throughout the greater part of the session and there was also considerable selling by cash interests. There was nothing especially bearish in the news of the day, but the greater part of the day, but the greater part of the sellint was apparently due to the fear of a m rial increase in the movement of wheat from the northwest. A decline at Liverpool aided the bears, forcing prices lower. The market closed wask and almost at the lowest point of the day. December opened 4,0 % lower closed weak and almost at the lowest point of the day. December opened \( \frac{1}{2}\) \( \frac{1}{2}\) c lower at \( \frac{1}{2}\) to \( 73\) \( \frac{1}{2}\) c, sold up to \( 73\) \( \frac{1}{2}\) \( \frac{1}{2}\) \( \frac{1}{2}\) and declined to \( 72\) \( \frac{1}{2}\) c. The close was at \( 72\) \( \frac{1}{2}\) c. Clearances of wheat and flour were equal to \( \frac{234}{2}\) (000 bu. The world's visible aupply, as shown by Bradstreets, increased \( 57\) (000 bu. Primary receipts were \( 62\) (000 bu., compared with \( 56\) 4000 bu. for the corresponding \( 43\) Tast year. Minneapolis, Duluth and Chicago reported receipts of \( 61\) cars against lob cars last week and \( 436\) cars one year ago.

Lower cables, lower liberal receipts and excellent weather conditions induced free selling of corn and resulted in moderate weakness. Pit traders and commission houses were the principal sellers early in the day, but later the cash interests gave the market fair support. The close was weak. December opened 160% lower at 43%, and 43% and closed at 42%, 442% c. Local receipts were 438, cars, with 304 of contract grade.

Outs were affected by the weakness of wheat and corn, the market ruling rather weak all day. Cash houses were fair sellers of the December and May delivery. December opened 160% at 40% lower at 31% 31%, sold off to 30%, 63% and closed at the lowest point. Local receipts were 290 cars. Notwithstanding a 5616c decline in the price of live hogs, provisions held steady all day. Short and local packers were the chief buyers, the demand being mainly for January products. At the close January park was 2% chigher at 31.21%.

Estimated receipts for tomorrow: Wheat, 39 cars; oorn, 318 cars, oats, 158 cars; hogs, 30.000 head.

The leading futures ranged as follows: cars one year ago.

Lower cables, lower liberal receipts and excellent weather conditions induced free
