light, many traders awalang the publication of the government cup report, which was scheduled for 1 p. m. After the close of the local exchange. At the close of the market wheat was down helpide. Com was unchanged. Oats were up holes and provisions logilije lower.

Early in the day the wheat market was depressed because of the large northwestern movement, lower cables and heavy shipments from Eursia. Later, however, it was unnoupsed that the Russian spring wheat crop was 2 per cent less than the crop of last year and this put some backbone into the market. Trade slackened considerably during the last part of the session and the close was barely steady. December opened at 71% 11% c. clearances of wheat and flour were equal to 22,100 bu. Primary receipts were 1,205,000 bu., against 1,210,000 bu. last year. Minneapolis, Duluth and Chicago reported receipts of 765 cars, against a holiday last week and 716 cars a year ago. Corn was easier at the opening chiefly because of large local and primary receipts, prices being off 140% c. Weaker cables, lower prices for cash corn and small clearances counted strongly against an advance in prices. Offerings became scarce on the decline and prices recovered somewhat, a fear of possible frost in Nebraska siding the advance. December corn opened at 15% 11%, soid between 11% and 17% 12% c and 1000 during he cause of only soid the service of the day, the chief, causes being an increase of only 8,000 bu. in the visible supply, the firmness of cash oats and the belief that the warm weather, which is making a record corn corn poned at 15% 11%, soid between 11% and 17% 12% c and 1000 during the market. December oats opened at 30% 630% c, sold between 30% c and 31% c and 1000 during the market. December oats opened at 30% 630% c, sold between 30% c and 31% c and 1000 during the market. December oats opened at 30% 630% c, sold between 30% c and 31% c and 1000 during the market. December oats opened at 30% 630% c, sold between 30% c and 31% c and 1000 during the market. December oats ope

Week

NEW YORK, Sept. 10.—The strength in today's market was spotty and intermittent element, who pointment the strength in today's market was spotty and intermittent element, who pointment the strength in today's market was spotty and intermittent element, who pointment the strength in today's market was spotty and intermittent element, who pointment to the strength in today was redeated to as a basis of the strength in the strength in the strength in today was moderate and the ranks of the strength of the strength in today was moderate and the ranks of the strength of the strength in today was moderate and the ranks of the strength in the strength in the strength of the strength in the strength in

part with any of their present large holdings.

The southern group, both in the railroad and industrial list, were prominent amongst the strong stocks of the day, but they did not hold well after the appearance of the government cotton crop report. The large increase in earnings in the Atchison annual report strengthened confidence in a coming dividend increase and speculative guessers were liberal in their surmises of the extent of the increase, drawing an analogy from the Union Pacific dividend. The late rise in call money added to the unsettlement and helped to make the closing irregular.

ment and helped to make the closing irregular.

Bonds were irregular. Total sales, par value, \$2,786,000. United States bonds were unchanged on call.

The following was the range of prices on the New York Stock exchange:
