Married Women

Every woman cevets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided,

however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. OUR LETTER SOX.

in Open Letter to Dr. George L. Miller O'NEILL Neb. Bept 11.- Dear Loctor: In the Bee of Sunday you addressed on open letter to Edgar Howard on the question of public ownership. It is evident that the letter is not intended merely as a communication to Judge Howard, but as an assault upon those who favor the pub-lic ownership of railways. So believing. and having been an advocate of this great principle long before either Judge Howard or Mr. Bryan, I take the liberty to reply to you, using the same means of publicity that you have used.

The only thought which you suggest, and that might cause real democrats to hesitate, is that Jefferson's ideas are opposed to public ownership. Jefferson's opposition would indeed be quite potent with democrats. We recognize him as the great democrat of the mineteenth century, just dinances the telephone committee was ir- as we recognize Bryan as the great democrat of the twentieth century. But Doctor, you cannot possibly quote Jefferson against the public ownership of railroads, for there was not a railroad in the United lated \$100,000 if granted a franchise. this principle that I have stated. I will furnish you the proof. The trouble is, Doctor, that those so-called democrats who oppose public ownership, don't know what Jefferson did teach, or knowing it, purposely conceal it. They never practice what Jefferson practiced. They hate and despise Jefferson's ideas. No man who believes in the teachings of Jefferson can or dinance for the establishment of a rock will oppose public ownership. Every Jefpile at such place and time as may be fersonian democrat in the nation will stand decided on by the council. The ordinance with Bryan, who is only advocating the

I ter first came up through a complaint from do not intend to go into all of them. That Rasmus Peterson, who complained that would take a letter that would fill many the building being erected interfered with newspapers. But before the discussion is over during the next two years, the defenders of the present system will have all these arguments dinned into their ears; for Bryan has aroused, by this great issue, the young men of the country as Jefferson aroused them a century ago. There are countries in Europe-many of them-which own and operate their own railroads. Let us contrast their exercise of power with that of the dukes of the steel railed highways, who manage our modern railroads. In 1896 every man in the United States object in telling a falsehood to aid Bryan. who would agree to vote for William Me-Kinley was given the opportunity to have a free ride, a free bed, free meals and a free drunk if he would take a trip to visit street; from the trusts; from the privately McKinley at Canton, O. These were accepted by men from all parts of the United States. The railroads furnished it all. The purpose was to stir up enthusiasm and secure votes for McKinley and the modern system. Has any government in Europe ever exercised such power as this to aid any political party?

These same railroads took millions from their treasuries in 1896 and used it to de feat William J. Bryan. This was not their own money. It was money wrung by them in extortionate freight and passenger charges from the people of the country. It was wrung alike from the friends and foes of Bryan. But it was used against Bryan. Would any government dare take money from the railroad treasury under government ownership and use it to further the candidacy of any presidential candidate? Yet this money was acquired by these railroads by exercising national power in interstate commerce and state sovereignty in state commerce. For be it remembered. Doctor, that no rallroad company can inter-state authority.

I do not claim that the railroads were the only sinners in that campaign. trusts and money combines were in with them. But I am pointing out to you, Doctor, that they exercised a despotic and corrupt power that never has been exercised and never will be exercised by any railroads owned by any government on earth. In Douglas county, in which you live, Doctor, what did the railroads other combines do? They desired to beat Bryan and likewise to elect a legislative ticket subservient to the corporations. What did they do, Doctor? Would you and others like you, who favor private

forth five million dollars more for corrup-

The states, Doctor, which they bought with

Catarrh cannot be washed away with sprays, inhalations and such treat ment, nor can it be smoked out with medicated tobacco, eigarettes, etc. When you attempt to cure Catarrh with such things you are wasting time and allowing the impurities and poisons in the blood, which produce the disease, to get so firmly rooted as to become not only a disgusting trouble, but a very dangerous one. The annoying symptoms of ringing noises in the ears, "hawking and spitting," headaches, mucus dropping back into the throat, impairment of the senses of taste and smell, and a feeling of general debility, prove that there is a deep-seated cause for Catarrh. This cause is a polluted and unhealthy condition of the blood, and the disease cannot be cured until this is removed. The only way to get rid of Catarrh permanently is to purify the blood, and S. S. S. is the ideal remedy for this purpose. It soon clears the system of all impurities, purges the blood of all catarrhal matter and poisons, and effectually checks the progress of this disgusting and far-reaching disease. S. S. S. puts the blood in perfect order, and as this pure, healthy blood goes to every nook and corner of the body Catarrh is permanently cured.
