WOODMEN CANNOT GET MEN

Order Wants Only Male Clerks, but Market is Not Sufficient.

WOMEN KEPT ONLY FROM NECESSITY will begin to think of getting married

Sovereign Clerk Issues Instructions to Supplant Women with Men, but They Are Impossible of Fulfillment.

Officials in the accounting and statistical departments of the Woodmen of the World having considerable difficulty in enforcing a recent order of Sovereign Clerk John T. Vates that women clerks be replaced by men. The order, if carried out, would affect over forty young women, but the heads of the departments affected declare it will be practically impossible to make the change because competent men cannot be secured at reasonable salaries

to do the work. For several years the sovereign camps have recommended that the work of the head offices be done exclusively by members of the order. One reason for this is the belief that the order should favor its own members when it has work to be done. Another argument advanced for the change is that the details of the business of the order should be known only to members of the fraternity. As women cannot join the organization it was recommended that the young women be replaced as rapidly as possible by men who are

SHAFFER AND ROCK ISLAND

New Firm from Chicago Denies Partnership with Boycotted Road.

Manager Stream at Des Moines Proclaimed Certain Doctrines Inimical to Interests of Omaha.

C. D. Sturtevant, local representative of which has opened an office here, takes should have been decided upon at a time kind and useful life of the late ploneer. Island road, which is now under boycott by the local shipping interests. Mr. Sturtevant objects particularly to the assertion

To The Bee Friday morning Mr. Sturtevant said his company does not operate the Rock Island elevator, but operates through it, and that the road will accord the transfer privilege to any shipper. This is conceded to be true. At the same time, he said, he intended to ship his grain to Chicago by the Rock Island. This is precisely what the members of the Grain exchange are objecting to.

In speaking of this matter the grain men cite a little bit of history ... J. J. Stream of Chicago, manager of Shaffer & Co., attended the meeting of the Iowa Grain Dealers' association at Des Moines early in the summer and the twenty Omaha grain men who were present were struck by his adverse criticism of the Omaha market, which he characterized as artificial. Secretary McVann of the Omaha Grain exchange went on record with a speech in

Not So Easily Passed By.

Mr. Stream's later actions are not so asily passed by. He came to Omaha with Mr. Sturtevant to arrange for the opening of an office and it is said he openly boasted that, boycott or no boycott, he would get the business. He made no secret of the fact that he expected to send it over the

The fact that another company is shipping over the boycotted road, through the transfer elevator, is mentioned by Mr. Sturtevant. The grain men recognize this fact, and they are refusing to sel to this company also, unless allowed to bill their cars over another road.

The story that a local man told Mr. Sturtevant he would not sell Shaffer & Co. car of corn even if it bid 2 cents above the market, is admitted to be a mistake. The remark was made to another person and applied to anyone who wished to ship by the Rock Island.
