of Session and Course Grains Pellow-Wet Weather and Onbles Are Factors.

Shorts were buyers this morning and cables did not reflect yesterday's American weakness, so that prices were strong from the start. Hesitating for a time late in the session, the market railed and closed in the session of the weather was wet both southwest and northwest. Cash demand was better and premiums advanced on northwestern strength, where receipts were smaller than last year.

Corn prices were firmer after an unchanged opening, and after running back and forth with wheat, closed about '4c above yesterday. Shorts were good buyers. Receipts were fairly large and cash demand slow.

Primary wheat receipts were 1.205,000 bushels and shipments of 465,000 bushels. Corn receipts were \$15,000 bushels and shipments of \$1500 bushels and shipments of \$1500 bushels. Clearances were \$4,000 bushels wheat, 37,605 barrels flour, 35,122 bushels corn and 19,210 bushels coats.

Liverpool closed unchanged on wheat and the start of the corn.

parreis flour, 25,125 bushels corn and 19,210 bushels cats.

Liverpool closed unchanged on wheat and 15,214 dower on corn.

Bradstreet says world's available supply wheat increased last week by 4,300,000 bushels for the same week last year.

Minneapolis wired: "Northwest is good, but it should take two or three days for receipts to pick up, as the rain has delayed the threshing and hauling. I do not think the movement will be heavy at present. There is a better feeling all round and the bears are not confident. We should see a further advance, which will probably help the milling business."

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Sept. 18.—A strong market for cash wheat and a light movement of the crop in the northwest caused a strong market in the local exchange today, the December option advancing 16the. Corn was 16the local exchange today, the December option advancing 16the. Corn was 16the local exchange today, the December option advancing 16the. Corn was 16the local lower.

The cash market for wheat was today reported strong from all sections and northwestern concerns reported that the receipts yesterday were almost nothing. In addition to this movement of the crop in the northwest today was again reported light. Because of these two facts commission houses bought actively at the opening and many pit traders who sold short yesterday on the break which took place at the close of the market covered anxiously. The result was the market was strong all day. About the only bearish news was an increase of over 4,00,000 bushels in the world's visible supply. Bear leaders contend that the wheat is ready to be rushed to market when cars can be procured, but this statement received little attention on the local board today. It

Estimated receipts for tomorrow: Wheat, 80 cars; corn, 325 cars; oats, 236 cars; hogs. 32,000 head.

Number of Rumors of Contest for Control-Close is Irregular.

change at Chicago fell to 25 cents discount.

The points of strength in the day's market were generally amongst industrials. Amalgamated continuing conspicious with reiterated rumors of a dividend increase. The railway equipment stocks enjoyed the benefit of the known urgent requirements of the railroads. Republic Steel was affected by the proposed increase in Tennessee Ceal stocks, in view of the belief in ultimate merger of the two companies. Minneapolis, St. Paul & Sault Ste Marie suffered from the disappointment of persistent close, that the dividend was to be increased at today's meeting of the directors. The market showed some relief when Reading yielded more than half its 6 point advance, but the closing was irregular.

WASHINGTON. Sept. 18.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve, shows: Available cash balance, \$216,715,168; gold coin and builton, \$110,785,514; gold certificates, \$39,207,230.

Weel Market.

BOSTON, Sept. 18.—WOOL—Market is generally quiet, but active in spots. The activity is marked in both worsted and clothing wools. Merchants are waiting for the anticipated heavy buying of the country's great consumers. Mantime prices are steady. There is a substantial aggregate of sales in territories. In pulled wools, A and B supers are still in moderate request, the former selling at 600020 and the latter at 50255c. Foreign grades are steady. Leading quotations follow: Kentucky, Indiana and Missouri combing to blood. 3565c; combing. HOGS—Receipts of hogs this morning were light, as was to be expected with railroads more or less disabled by the heavy rains of the last two days. In spite of the fact that there were no large runs reported from any market point, prices were lower all along the line.

Owing to the heavy rain the market was slow to open, buyers holding back until everything reported was in before starting out. When the trade was once under way, however, the movement was fairly active and the most of the hogs sold in reasonable season.

Prices were generally a big 5c lower and in some cases possibly as much as 100 lower. All kinds of hogs felt the decline, both light and heavy. The choice hogs sold up to \$6.30, as against \$6.35, the top yesterday. It is a noteworthy fact that good heavy hogs are gradually crawling upward and are selling considerably closer to good lights than was the case a short time ago. This is especially true of the medium weights weighing between 250 and 750 pounds. Thus a load of choice hogs averaging 257 sold as high as \$6.25 this morning.

The market closed very slow and weak with prices generally 100 lower than year. PARSLEY-Hothouse, per dos. bu PARSLEY—Hothouse, per dos. bunches, 50c.
