When you buy comforters look on the inside. Don't buy old rags sewed up.

Rescue Work at Hong Kong

British Troops Join Others in Clearing Away Debris and Removing Dead.

HONG KONG, Sept. 21.—Practically all the Baluchistan troops and 800 of the West Kent regiment are co-operating today in clearing the wreckage of the recent typhoon. Prodigious efforts are being made in the recovery of dead bodies, which are being carried out in carriages. Many scavengers are being overcome by the terrible stench arising. Constable Munday, who is superintending the work, collapsed and he has been removed to a hospital.

Forecast of the Weather

CRISIS ON IN CUBA

(Continued from First Page.)

this morning, the Associated Press correspondent reported the rebel forces at Guantanamo and continued with them until they were encamped. The discipline of the force is fair. The revolutionists appropriate all chickens, pigs horses and kill cattle whenever the commissary requires fresh meat.

Wills and Exchange at Out.

Some Omaha coal men want Walter Willis' testimony of the existence of a coal trust through means of the Omaha Coal Dealers' exchange considered in the light of the fact that Mr. Willis resigned from the exchange at the latter's request. They seem to think this fact would have its bearing on Mr. Willis' feelings toward the exchange and his willingness to testify before an Interstate Commerce commissioner.

Part Comes from Officers of Combine

Coal Men Deny Walter Willis' Testimony and Say He Was Dismissed by His Exchange as Secretary.

"We have better evidence of the existence of a coal trust than that brought out at the hearing before Commissioner Prouty," declared County Attorney Slaubaugh Friday morning. Judge Slaubaugh said he did not care to go into the details of the evidence now nor disclose his informant, but he said part of the testimony came from officers of the combine. He said he has a large amount of evidence that was not touched on at the hearing before Commissioner Prouty to confirm the theory there is an illegal combination among the coal men. The coal trust case will probably be the first one taken up before the grand jury when it meets a week from next Monday.

County Attorney Says His Evidence of Coal Trust Beats Prouty's

"I wish I were flinging the price of Sheridan coal. I would make it 50 cents a ton higher. The dealers are making too small profit," said Victor White, when asked about the testimony of the secretary and former secretary of the Omaha Coal Dealers' exchange before Interstate Commerce Commissioner Prouty Thursday.

Not Advisable to Criticize.

"It is not advisable to talk in public regarding testimony which has been given on the witness stand, therefore I have nothing to say," said George G. Squire, "Can you say anything?" he asked, turning to his partner, Charles K. Coutant.

"I continued to drink it for years until I grew to be a man, and then I found it was stomach trouble, nervous headaches, poor circulation, was unable to do a full day's work, took medicine for this, that and the other thing, without the least benefit. In fact I only weighed 116 when I was 23.

SCOPE OF RECENT ORDER

Interior and Treasury Departments Must Operate Under Eight-Hour Law.

WESTERN IRRIGATION WORK IS AFFECTED

Samuel Gompers Says Recent Order is Result of Reports Sent to President by Frank Morrison.

WASHINGTON, Sept. 21.—When President Roosevelt issued his orders some time ago regarding the observation of the eight-hour law in the interior and treasury departments, but were not directed to the other departments. It is understood that the order issued Wednesday is meant to meet conditions that have arisen in other departments—notably, the interior department, which has been the scene of reclamation work in the arid land regions of the west. Complaint was made that the eight-hour law was not being observed on this work. The public buildings erected under the treasury department are also public works where the eight-hour law must be enforced.
