## estimates on the crop and picking up other NEBRASKA CROP ENORMOUS Information.

Grain, Hay and Tubers Turn Out Great Yields This Year.

CORN OVER TWO HUNDRED FIFTY MILLION

Estimates of Union Pacific and Bur lington Practically Agree-State Never in So Prosperous Condition.

The passenger department of the Union Pacific has finished a complete crop estimate for Nebraska and the pamphlets will out of the printers' hands in a few days for distribution. The estimate of the Union Pacific is made from reports from Ild correspondents in the state and is considered very accurate. This estimate gives the corn crop as 253,947,957 bushess and the estimate of Industrial Commissioner Manus of the Burlington, obtained from entirely different sources and finished on the same day, gives 1,000,000 bushels ican than the Union Pacific estimate. This is regard as a remarkable coincidence and shows the care with which these are made when it is considered the whole state of

Nebraska is reckoned on. This is the summary of the acreage and total yields of Nebraska crops for 1986;

1. 1997.50		Acreage.	Total Y	teld.
