AIRSHIP GOES UP THURSDAY

Great Aerial Vessel Will Ascend Day After Carnival Opens.

KNABENSHUE WILL BE HERE MONDAY

Famous Navigator Wires that He Will Arrive in Ample Time to Arrange His First Flight.

Weather permitting, the airship, which is to be a stellar attraction at the fall festivities, will be sent up next Thursday afternoon, or several days earlier than was first announced. The ship is to leave Milwaukee Saturday night and come in a special baggage car on a Northwestern passenger train, arriving here Sunday. Roy Knabenshue has wired Doc Breed that he will be here Monday to have everything in readiness for the flight Thursday.

Indications for enormous crowds are so encouraging that a change in the original plans at the grounds has been made and more space has been given to "North America," the pride of the Parker company in the way of exhibitions. This gives a history of the country, of the pioneer days and shows the Indians and the cowpunchers in their native costumes. The "Skiddoo" is said to be a wonder. Never in the history of the reign of King Ak-Sar-Ben has there been such a demand for space on the show grounds. Director of Concessions Doc Breed lies awake nights trying to find additional space for those clamoring for a chance to exhibit on the grounds. This does not apply to shows, but to merchants who want booths where they may show their wares to the visiting thousands. The hotels already are receiving orders for reservations for the fair and every indication points to larger crowds than ever. The crops of the state are assured and every one has plenty of money to spend and they are coming to Omaha for a good time. Omaha has learned how to show it to them.

Although the response to the invitations to take part in the industrial and flower parades are quite liberal, still Gould Dietz as chairman of the parade committee for the knights, is not satisfied, but wishes more in the hope that the parades this fall with their new arrangements will be the banner of any that have passed.

Eight-Pound Bull Grows Bear. Yummy, a full grown bear, weighing but eight pounds, is one of the interesting features of the animal circus of the Parker company, which will be here for Ak-Sar-Ben. Yummy is not a freak. He is a representative of one of the rarest families of bear in the world. Last year a representative of the Parker animal circus was in New York looking for animals. Climbing aboard a tramp steamer entering port he was shown the little bear by a Portuguese sailor. The animal man knew his business. He instantly realized that this was the chance of a lifetime to secure a prize. The small bruin was bought and christened at once. Yummy is a member of the Sun bear family. They come from the wildest reaches of the island of Borneo. A Sun bear never grows much larger than a house cat. This little fellow lives almost entirely on sweets. In their native state the Sun bears constantly seek bee trees owing to their appetite for honey. Yummy can stretch his tongue out almost the length of his body if sipping or honey is held near him. He and Jocko, the young ape, are chained close to each other. They play by the hour, but frequently become angry. When a fight is pulled off they make so much noise they often disturb the big African lions. Yummy has a peculiar big African lion. He becomes enraged if the chain about his neck is jerked. Otherwise he is a pet.

When a fight is pulled off they make so much noise they often disturb the big African lions. Yummy has a peculiar big African lion. He becomes enraged if the chain about his neck is jerked. Otherwise he is a pet.

HAWAIIAN BAND RETAINED

The Royal Hawaiian band, which will close its engagement at the Auditorium Sunday night, has been secured for the Ak-Sar-Ben parades and ball. The band will not play in Lincoln the coming week, but will return to Omaha to take part in the night parade of October 3 and the day parade of October 5. It will also be one of the bands to play at the annual ball on the night of October 2.

TAX CASE COMES UP MONDAY

Union Pacific Attorneys Too Busy to Discuss Settlement Until That Day.

Owing to a press of business in the office of John N. Baldwin, general solicitor for the Union Pacific, J. P. Breen, special counsel for the city, was unable to meet Mr. Baldwin Saturday, as expected, concerning a settlement of 1903 city taxes. With the overtures already made by the Burlington, Northwestern and Belt line (Missouri Pacific) agent the disputed taxes, amounting to \$28,000, the city's counsel is hopeful for an early settlement of the disputed taxes which have been in the courts since 1903.

ROADS GIVE NO COIN TO KING

Railways Say New Rate Law Precludes Their Contributing to Ak-Sar-Ben.

JUVENILES ARE TAKEN UP

Two Brothers Who Start Car that Kills Yardman Placed in Detention Home.

Frank and Charles Gurda, brothers, who were recently arrested for setting loose a car in one of the railway freight yards, thereby causing the death of one of the employes of the yards, were ordered sent to the detention school by Judge Sutton Saturday morning.

Charles Burkett, a youth of 12 years, was taken before the juvenile court Saturday morning on the charge of fighting. The case has been continued until the next sitting of the court.

AUTO'S VICTIM IS IMPROVING

Messenger Boy Run Over by Machine Better---General Cowin Calls on Him.

Saturday morning the house physician at the Omaha General hospital said Joe Nightingale, who was injured Friday afternoon by the automobile of General Cowin, was considerably improved. It is said he suffered no internal injuries, but he is suffering considerably from bruises. General Cowin called at the hospital Friday afternoon to inquire as to the extent of the boy's injuries and expressed his regret that his machine caused the accident, although the chauffeur was not at fault.

MANY MORE NEW CITIZENS

Thirty Petition District Clerk Brandywell for Naturalization Papers Saturday Morning.

The naturalization mill at the office of District Clerk Brandywell is still doing a thriving business. About thirty new citizens were before the district clerk Saturday morning petitioning that they may be invested with the full rights of American citizenship. The applicants were largely Bohemians, with a considerable sprinkling of Germans and Poles.

ROADS GIVE NO COIN TO KING

Railways Say New Rate Law Precludes Their Contributing to Ak-Sar-Ben.

THINGS NOT AS IN SWEET LONG AGO

Under Last Act of Congress Cannot Do What They Did in Those Good Old Halcyon Days.

Whether the railroads are sincere or not, who shall say? The railroads say it is the fault of the new law and the poor, down-trodden people are prone to believe the hardships are deliberately imposed on them for the purpose of making the law popularly obnoxious. The fact is that when a citizen asks from a railroad company a favor, no matter how slight, and a favor which might have been as common as dirt before August 23 and which from custom had come to be looked upon as matter of fact and right, he now meets unceremonious refusal. "Oh, no," they say, "we would be liable under the law if we should do that."

King Sanson XII's power is scorned by these corporations and they refuse him the tribute they have always paid. The board of governors of Ak-Sar-Ben still lack \$3,000 for the annual festivities, but the railroads will not give a cent.

POSTAL CLERKS PAY TRIBUTE

Adopt Cordial Resolutions on Death of Their Old Friend, Edward Rosewater.

This resolution was unanimously adopted by the Omaha branch of the railway postal clerks at Friday night's meeting: "Whereas, it has pleased the Ruler of the universe to call from his earthly labors the Hon. Edward Rosewater, and "Whereas, the interest that was taken by Mr. Rosewater in the postal service of his country was always active and his knowledge of the same comprehensive, and "Whereas, the desire of Mr. Rosewater to better the condition of the railway postal clerk was evidenced on every possible occasion, therefore, be it "Resolved, That we, the members of the Omaha branch of the railway postal clerks, feel a special sense of personal loss in his death, and that the community has lost an active and public spirited citizen; and be it further, "Resolved, That copies of these resolutions be spread upon the records of the Omaha branch and furnished the daily press of this city for publication.

SORENSEN'S AK-SAR-BEN PAPER

Special Number of the Examiner a Good Indication of Prosperity.

Al Sorenson is almost as proud of his paper, the Examiner, this week as if he had really been elected to the senate. As a matter of fact, it is such a number as any senator might be proud of. Forty-four pages, filled from liver to liver with choice reading matter and brimming with large, well displayed advertisements. It is not only an excellent indication of prosperity, but of the hustling ability of its publisher. The edition is unique, in that the Ak-Sar-Ben color scheme of red, green and yellow has been adopted. Only the yellow in the paper is like that in its editor---mighty faint.

REGRET AT HOFF'S LEAVING

Friends Sorry He Has Been Ordered from Omaha to the Philippines.

The information conveyed in the press dispatches from Washington Saturday morning that Colonel John Van R. Hoff, chief surgeon of the Department of the Missouri, had been ordered to the Philippines is received with sincere regret at army headquarters here and among Colonel Hoff's many Omaha friends. The formal orders announcing his transfer to the Philippines have not yet been received at army headquarters, nor is it known who will be named as his successor at Omaha.

YETTER ON BOAT QUESTION

Will Respond to Public Opinion and Study Matter of River Transportation.

GOOD THING FOR OMAHA IF FEASIBLE

Can Ship Grain to Gulf and Bring Back Other Goods at One-Fifth the Railroad Rate.

As soon as his Ak-Sar-Ben duties are over Chairman Will Yetter of the trade extension committee of the Commercial club will place before his committee for investigation and consideration the question of a freight boat and barge line on the Missouri river from Omaha to St. Louis. Mr. Yetter has received so many inquiries as to the advisability of such a project and so many suggestions from Omaha shippers and those of other towns along the river that he feels it is up to the Commercial club to learn if river transportation is feasible.

"The plan is feasible," said Mr. Yetter, "we can ship our grain to the gulf and bring back other goods at about one-fifth what the railroads are charging us. We can ship by water route most of the merchandise that now comes by rail from the Atlantic seaboard, and can get it here much cheaper. The greater part of the dry goods, groceries, hardware and wall paper that comes from the coast is ordered by the jobbers months ahead of the time they actually need it, and they could easily afford to let it take its time by water."

RAILWAY ENLARGES PLANT

Street Car Company Will Put in New Dynamo for an Alternating Current.

The Omaha & Council Bluffs Street Railway company is asking for bids for a new large dynamo for generating an alternating current to be used on the Omaha service. The present power is a direct current of 500 volts and the company plans to put in a new dynamo for an alternating current to carry power to outlying districts. The company says an alternating current of 2,600 volts can be carried to the outlying lines much more cheaply than the direct current. A converter will be used at the ends of the line to cut this high voltage to 500, when it will be put on the trolley line as direct current.

BEVERIDGE WANTED IN WEST

Indiana Senator Will Be Asked to Help in Nebraska Campaign This Fall.

Senator Millard, Congressman Kennedy are endeavoring to secure Senator Beveridge of Indiana for several addresses during the coming campaign in this state. An effort will be made to have Senator Beveridge make at least one address in Omaha during the campaign and the indications are these efforts will be successful.

MAN GETS OUT ON HIS LOOKS

Prisoner Seventy-Eight Years of Age Arrested on Charge of Assault and Battery.

Isaac Bracon of the Diamond lodging house was arrested Friday afternoon by Officer Bloom on the charge of assault and battery upon one of the employes of the lodging house. Bracon is 78 years young and proved that in spite of his age he was still able to take care of his end of a stick argument. In police court Saturday morning Bracon's appearance was in favor of him, as he could not convince Judge Alt-stadt that he was capable of putting up a fight, and he was therefore discharged.
