Wheat Shows Easiness at Times, but Undertone Firm.

SCARCELY ANY CHANGES IN PRICES

In Spite of Talk of Better Movement, Very Little Grain Comes on Market-Corn Extremely Weak Through Session.

OMAHA, Sept. 22, 1908.

Wheat showed a little casiness several times on profit-taking, but the firm undertone was maintained the greater part of the session. Remarkably little wheat has come on the market the last few days and the scarcity of offerings after a 4-cent take is significant. Minneapolls shows the latter of the moment how much spring wheat has been raised, as long as it does not come to the market. While the futures at Liverpool clessed from %d to %d lower, cash bids advanced %d.

The cash market was extremely weak. The September was sold freely and this induced liquidation in the more distant months. The Jones-Inglis report indicates a yield of \$61,000,000 bushels.

Oats were dragsy, but sustained by the buillish local sentiment. The cash market was from %c to be lower and there is every indication of a freer country movement, as the strength in the cash and in the current delivery have been the backbone in the recent advance.

Frimary wheat receipts were 970,000 bushels and shipments of 550,000 bushels, against receipts last year of 1,354,000 bushels and shipments of 550,000 bushels and shipments of 550,000 bushels of wheat, 20,000 bushels of of the corn and \$600 bushels of of the corn and \$600 bushels of otal.

Liverpool closed 1,300,000 bushels.

Liverpool closed 1,300,000 bushels.

Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, Sept. 22.—Weaker cash markets in the porthwest and the easier tone in coares grain continued a break in the price of wheat here today after the market had opened firm and active. At the close December wheat was unchanged to isc lower. Corn was down isc. Oats were off isc to isc. Provisions were 2/2c to lee higher. The market opened higher because of light receipts in the northwest and reports. The market opened higher because of light receipts in the northwest and reports. The market opened higher because of light receipts in the northwest and reports. The market opened by locusts. Under these influences December wheat advanced to 75/4c, but local traders sold actively on the buige and the market dragged somewhat until the close. Offerings, however, were scarce and prices railied quickly. Cables were reported heavy as the result of yesterday's market here. Minneapolis reported that cash houses in that market ware selling December wheat and also sent a report that northwestern shippers are storing wheat because of their inability to get cars. It was also declared that the firmness of wheat during the early part of the week had checked in some degree the demand for flour. These, together with the weakness of the coarse grains, had the effect of making traders continue to cover. firmness of wheat during the early part of the week had checked in some degree the demand for four. These, together with the weakness of the coarse grains, had the effect of making traders continue to cover. The close was steady. December wheat opened unchanged to he lower at 74%c, sold between 74%c and 75%c, and closed at 74%c. Clearances of wheat and flour were equal to 284,000 bushels. Primary receipts wore 279,000 bushels, against 1,354,000 bushels last year. Minneapolis, Duluth and Chicago reported receipts of 780 cars, against 741 dars last week and 1,000 cars a year ago. The carn market was quiet for the greater part of the day, tears that there is danger of a squeeze in September corn, keeping many brokers out of the market. The September option declined he, but the loss in other months was small. Local receipts today were somewhat larger than for several days past and the increase is expected to continue over Monday. December corn opened he to 42%c lower at 42%c 42%c to 42%c, sold between 42%dayac and 42%dayac. The close was easy and ke lower at 42%c 42%c to 42%c, sold between 42%dayac and 42%dayac. The close was easy and ke lower at 42%c 42%c to 42%c, sold between 42%dayac and 42%dayac and 42%dayac to 42%c lower at 43%c 42%c to 53%c and 33%dayac. The pressure from either side was not important. The primary movement continued liberal. December oats opened had to lower at 33%c and 53%dayac. Local receipts were 28 cars.

The provisions market viled higher on a small run of hogs and on an advance of 5c in the prices at the stock yards. There was excellent buying of lard throughout the day. Shipments of meats and lard were in fair quantity. At the close January pork was 16c higher at \$13.22%. Lard was up 2%c at \$7.80. Ribs were 250 cars, 160 cars; hogs. 160 head.

Bank Statement Fulfills the Brightest

Expectations of Speculators. MARKET FAILS TO RESPOND TO STIMULUS

Call and Time Loans Higher Because of Prospective Demands for Money-Close is Weak

and Lower.

NEW YORK, Sept. 22.—The bank statement today fulfilled the brightest expectations and belied some forecasts from the usually accepted experts that had threatened a poor showing. But in spite of the improvement indicated in the banking position, the stack market showed little inclination to throw off its ichargy. The course of the time maney and mercantile paper markets towards the end of the week was regarded as a better index of the stock market to entrust resources to the stock market operations.

The amount of resources at the command of the banks must supply the extraordinary dues about October I and it is supposed that growing difficulties will be snoountered in securing additional gold abroad for been fit of New York. The \$7,622,290 loan expansion of the week shows the continued demand for large credits in apile of the straint upon stock market activity which has been in evidence throughout the week authorities showed authorities allowed astonishing discrepancy in the item of the week's cash move fact, and the straint upon stock market activity which has been in evidence throughout the week. Estimates made yesterday by the socapital authorities allowed authorities allowed astonishing discrepancy in the item of the week's cash move over \$1,000,000 by the banks to a lossy those institutions of over \$2,000,000. The same of the selling. The market closed weak at considerable not losses.

There was a confident hope amongst steamers during the week.

There was a confident hope amongst steamers during the week.

There was a confident hope amongs steamers during the week.

There was a confident hope amongs appointment of this hope prompted some of the selling. The market closed weak at considerable not losses.

They further ask that as a customer you make inquiries at least every month, so as to have their standing always up to date.

OFFORTUNITIES

Tou buy a piece of real estate and sell it for 50 per cent advance and you have made a good deal. In stocks you buy a good stock or sell a weak one and there is acarcely a trade that will not show from 50 to 200 per cent profit, sometimes within ten days. The same is largely true of grain trades. You must, however, be the judge as to the time of clasing the transaction.

In 1894 Achison sold at \$2.00 per share. It has since sold for \$110 and is now selling for \$107. In 1898 Union Pacific sold at \$124 per share. It has since sold for \$110 and is now selling for \$107. In 1898 Union Pacific sold at \$124 per share. It has since sold at \$125 per share. Union Pacific sold in July at \$140 in forty days it had advanced to \$195. Had you bought but fifty shares of Atchison, say at \$10, and put on a small margin of \$150 you would have made \$5,000, besides dividends of \$200 per year. Had you bought fifty shares of Union Pacific at \$140 last July from the CELLA COMMISSION CO. on a margin of \$150, you could cash it today for \$188, making a profit of \$2,400, besides receiving a cash dividend of \$250.

These opportunities are continually occurring and, unlike real estate, you have a market and the cash at a minute's notice. If you have a stock which is listed on the Exchange you have a quick asset. A bank will lend you 90 per cent of its value by simply depositing it as security. No deeds, no abstracts, no mortgages to make.

MARGUE

Tou can buy as low as ten shares of stock and 1,000 bushels of grain. You can buy as large an amount of either as you wish—there is no limit. You will get it at a minute's notice.

The margins on stocks range from 2 to 3 per cent, or \$20 to \$30 per ten shares, or \$200 to \$300 per 100 shares. On grain, 1e per bushel, or \$10 for each 1,000 bushels.

Commission on stocks, 4; on grain, 4. Margins may be deposited when the trades are made or you may make a deposit with the bank or with the Omaha correspondents. Some customers have over \$50,000 deposited with the company.

the company.

No interest is charged on deals closed within ten days; only 4 per cent on long time trades.

throughout.

Moreover, prices on desirable tinds of feeders have shown very little change comparing the close of the week with last week's close. As a matter of fact, prices strengthened up very materially during the first half of the week. On Thursday, when South Omaha had more sheep than all other markets combined, the high prices of Tuesday and Wednesday were shaded somewhat, so that the market on the good kinds drepped back to about where it was at the close of the previous week. Common and medium kinds of lambs and medium to fair ewes are some lower at the close of the week. This is especially true of light undesirable lambs, especially those on the runt order.

It is not surprising that common to medium kinds of lambs should have sold off at this point as a heavy decline has taken place at Chicago. The Chicago Drover's Journal of Friday says of the lamb market at that point:

"Again buyers had things their own way with the medium to good grades of native lambs and bought such at prices 16255 lower, considering the severity of the sort demanded today. Prices for such were easily the lowest of the week and show 46256c decline from the range here late last week, or a break of 50251.00, from high time here early last week.
