Elevators Not Only Work Let by the Board Delecting Authority.

CONSTRUCTION ON PORCHES STOPPED

Debate League Composed of Five Leading Western Universities, Including Nebraska, is Formed.

(From a Staff Correspondent.)

LINCOLN, Sept. 24.—(Special.)—Since the publication of facts regarding the letting of the contract to construct food elevators at the asylum at Hastings, Chairman Eaton of the State Board of Public Lands and Buildings has wakened up to the fact that it is the duty of the board to let these contracts and not to turn them over to the superintendent. This morning Mr. Eaton telephoned to Dr. Kern, the asylum superintendent, to stop the work of constructing porches at the institution. This another contract which, it is said, was delegated to Dr. Kern.

The food elevator contract is still under investigation and though Chairman Eaton said he knew nothing of the matter, it has developed that he knew all about it. Secretary of State Galusha went to Hastings this morning and he could not be seen to deny the statement of Eaton that he had not been authorized to let Dr. Kern to let the contract to Earl Wescott. Eaton denied positively that the board had authorized Galusha to write the letter, but from the letter itself and information received from other sources, it is believed Chairman Eaton knew every detail of the matter.

It is understood if the food elevators are paid for out of the appropriation for maintenance the asylum will report a deficiency to the next legislature, should a deficiency be reported Governor Mickey will, in all probability, ask for a legislative investigation into some of the contracts let by the board.

Colored Boy Gets Wild. J. G. Barnes, colored, 23½ and woolly this afternoon and landed in the police station. He is an elevator operator and during the afternoon, business being slack, he went to a pawnshop and bought a revolver. Then, when the clerk refused to sell him cartridges, he pulled one out of his pocket and threatened the clerk with putting the cartridge in the weapon, but did not shoot there. He then struck out on the street yelling and brandishing his pistol, which finally he fired off. Elmer Sides, a policeman, gave chase and eluded the colored led to jail. The boy is thought to have become suddenly insane. He is 13 years old.

College Debating League. Arrangements for the Five-College Debating association, of which Nebraska forms a part, have been practically completed, according to the reports received by Secretary Fog of the State university.

The universities represented in this area, Nebraska, Minnesota, Wisconsin, Iowa and Illinois. The schedule has been arranged for debate this winter so far as place is concerned, but the date has not yet been determined. Most of the universities favor February 15, but as this falls on a charter day at Nebraska, it is thought to be a little opportunity for such a date here. Members of the faculty from each of the colleges have been working on the constitution and bylaws of the association during the summer and this work is completed. Each university will have two teams, one of which will stay at home to meet its opponent and one will go abroad. The debates between the teams will be held on the same night and all will discuss the same question. Wisconsin will visit Nebraska.

Nine successive victories in the last four years have forced recognition from the other colleges in the middle west. Nebraska has triumphed over Colorado, Kansas, Missouri, Iowa and Washington university. These victories now entitle the university to an opportunity to try conclusions with larger institutions and this opportunity comes this winter. Kansas will defeat three times and Nebraska took on Missouri after it was satisfactorily shown that Kansas was outclassed. After Missouri Washington university was tackled in 1903 and met with the same result that the other colleges had experienced. Prof. M. M. Pogg has been largely instrumental in bringing the debating

More Beer, Less Drunkenness

Positive Proof That Beer is a Means to Temperance.

An interesting and practical temperance lesson may be drawn by our readers from the increased consumption of beer in this country and a corresponding decrease in drunkenness. Really sincere temperance workers are learning to differentiate between malt liquor and spirits. One may take some public utterances of celebrated public leaders as an example. They urge the substitution of beer for stronger liquors as the real means to temperance and sobriety.

In some of the states where the practical, progressive temperance movement has met we find the people giving consideration to a law that makes the license much less for selling beer than spirits. This shows the tendency of the times is favorable to beer. The recent report of the Internal Revenue department shows 100,000,000 more gallons of beer drunk than in any previous year and statistics are quoted showing a decrease in drunkenness in the states that is very satisfactory to those who are not only earnest but practical in their labors for temperate habits in our people.

As a distinct aid to temperance as well as a wholesome, refreshing beverage Pabst Blue Ribbon Beer leads all others. One reason for its great popularity is the fact that doctors recommend it because of its absolute cleanliness, purity, age and strength. It is the most nutritious beer brewed because made from Pabst exclusive eight day malt which retains its greatest degree the food value of the barley. This Pabst exclusive eight-day process malt doubles the cost but it makes Pabst Blue Ribbon Beer the superior of all American beers and accounts for its great popularity.
