Returns to Hospital and Prisoners Taken Back to Cells-Case is to

Be Tried as Soon as Possible.

Peter Kreesemnou had so far recovered from the shock of his recent wounds that he was able to come to the city jail yesrday and identify the four men who rere under arrest there for the crime of Sunday night. He had no difficulty in pointing them out among the crowd and he said they were all in the party which attacked him. Their names are John Poloviw, Alex Butkus, Peter Wasgis and Walt Wiskal. His face was almost completely covered with bandages and his lips puffed from blows, and the inflammation of his wounds gave him a grotesque appearance. His coat was in shreds, showing a score of knife stabs. The four men attempted to argue with him in their own language, but they were interrupted by the officers and hustled back to their cells. As the case stands at present they will be tried for assault with deadly weapons with intent to wound and kill. An effort will be made to push this case forward as rapidly as possible, so that it may come up early in the first term of court. After identifying his assailants Kressemnou was returned to the South Omaha hospital. He appeared rather weak and sore, but otherwise in good shape.

Golf at Country Club.

The last golf tournament to determine the championship of the club will be played off Saturday and Sunday at the South Omaha Country club. Last Saturday and Sunday a preliminary round was played and the entries were made. The roll is a long one. The contestants paired off and will play eighteen holes.

Friday evening will also be the last social dance at the club house this year. These dances during the summer have been most popular and have become one of the standard amusements at the club. The floor is exceptionally fine. The young people will give a minstrel show October 12.

With the completion of the new oar line past the club several improvements are contemplated. A depot is to be built at the car line, where the club visitors may find rest and shelter while waiting for cars. Then a three-foot walk is to be constructed from the depot across the field to the club house. This walk will be constructed of in all probability, as it is estimated that the cost would be less than other material.

Clerk Busy on Sewer Business. The city clerk was employed yesterday with the execution of district sewer bonds to pay the cost of improvements in district No. 113. The amount of the issue is \$340. Ten bonds are issued, one payable each year. They were purchased by George Parks & Company, plumbing contractors, who did the work in the district. The cost of the improvements will be assessed against the property owners in the district named in the form of special taxes. The clerk was also making duplicates of the bids of the general sewer contractors and of their bonds and contracts.

Probation Officer Active. Probation Officer Carver of Omaha was in South Omaha yesterday looking up the cases of absentees from the public schools. While the trnant officers report that in the case of the pupils enrolled at present in the public schools trusney is rare; yet the probation officer has a list of more than fifty children of school age, whose names

Naturally the fault does not lie with the children in the the cases, but with the parents. ut half of the children are in idleness and perhaps as many more are at work at various employments in the city. The cases will be looked into and where there is no valid excuse the children will be compelled to attend school.

Work on Missouri Avenue. The city engineer reports that the work satisfactorily. Pdving brick is being deivered there every day and grading will be resumed this morning. If fair weather continues for the rest of the week the conorete gang will be put on next Monday. One of the concrete mixers is on the ground already. The engineer stated that he had called on Contractor Murphy and found nothing to hinder the rapid progress of the work in the attitude of the contractor. The sewer contractors, Offerman Brothers, who are putting in the storm sewer on our avenue, are rushing their work as rapidly as possible to keep ahead of contractors for the paving and curbing. The storm sewer must be completed fore the pavement is put down that the street may be ready for the first heavy rains. Otherwise the paving would undoubtedly be undermined.
