Extreme Dulluess Continues the Leading Feature of Eusiness.

TRADE VERY LIGHT AND PRICES DRAG

Wheat Closes About Half Cent Lower on Local Exchange-Corn Unchanged in Spite of Large Decrease in Receipts.

OMAHA, September E. 1904.

Trade was of an extremely light character in all lines. Local prices were off at the start and ran all day at about the same figures, closing about 1/2c lower than yesterday. Small railies were occasional. Receipts were smaller than last year and the cash demand was fair, but clearances were flarge. From the northwest there was talk of a better flour demand.

Shorts in corn were surprised this morning by a falling off in receipts of 300 cars. This imparted a strong tone for a time, but the close showed figures unchanged from yesterday. Cash prices were up on account of the lighter receipts.

Primary wheat receipts were 80,000 bushels and shipments 595,000 bushels, against receipts last year of 1,215,000 bushels and shipments of 274,000 bushels. Corn receipts were 1,041,000 bushels and shipments of 274,000 bushels. Corn receipts were 1,041,000 bushels and shipments of 346,000 bushels were 1,041,000 bushels and shipments of 346,000 bushels were 1,041,000 bushels and shipments of 346,000 bushels wheat, 30,401 bushels cats.

Liverpeol closed unchanged to 1/4d lower on wheat and 1/46/4d higher on corn.

Omaha buyers are paying equal to 7/4c Chicago for No. 2 hard winter wheat there, or about 1/4c better than the Chicago December basis. The wheat is largely going to mills in the spring wheat country. "Steady buying of Kansas and Nebraska wheat to come to Minneapolis. This will not only eliminate the shortage in the northwest, but it will increase northwest receipts when it comes." This report is from a leading bear in the northwest. What will the winter wheat mills and exporters do while Minneapolis is stealing all the wheat in the southwest? asks the trade.

There is some congestion in North Dakota and elevator people complain of lack of transportation, because they are anxious to get the wheat in to take advantage of the high premiums. The elevators in Minnesota and South Dakota are said to be practically empty.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, Sept. 28.—Lack of demand was chiefly responsible for moderate weakness today in the local wheat market. At the close wheat for December delivery was off 4.0 4.0. Corn was up 4.6. Oats were a shade higher. Provisions were unchanged to 2½c lower.

Trading in the wheat pit was quiet all day and the tone of the market was casy. The principal influence was the situation in the northwest. News regarding the spring was t crop was connicting and this accounted to a large extent for the apathy among traders. A report from Minneapolis claimed that less wheat had been threshed in Minnesota than in any of the last twenty years. Receipts at Minneapolis and Duluth continue small. According to a message from Winnipeg, however, the movement in Canada is boing greatly hampered by car shortage and that tooks at country stations are piling up fast. The market received some sup-

Catton Market.

Current of the Market is Generally Sluggish and Listless.

GENERAL DECLINE AFTER SLIGHT ADVANCE Prospective Tightness in Money Still the Leading Feature of the News-Bonds Are

Irregular.

NEW YORK, Sept. 26.—Price movements were divided by considerable intervals of time in the day's stock market and for the most of the day the current was sluggism and listens, with a disposition to cling about last night's level. When there was any show of mobility movements were exceedingly vaciliating and uncertain, the level of prices showing the same tendency to return to last night's level. At one time during the day there was a fair average or gains scattered through the list, but from that leyel prices plunged to a general decline. It was difficult to trace the factors in all these movements. A general air of doubt and of waiting for enlightenment was perceptible in the neighborhood of the Stock exchange.

A large amount of attention was given to the political party conventions at Buffalo and Saratoga, and traders in stocks were likely to be influenced in their operations by their interpretation of events as making for or against the growth of "socialistic tendencies towards capital." There was some further special pressure against the New York public utilities on a supposition that the welfare of these corporations is being shaped by the political campaign. An early call money rate of 6 per cent also proved a discouragement to speculative sentiment, as it was supposed that it marked the beginning of the pinch of the preparations for the October settlements. This lear was disproved by the inter developments, the call loan rate falling back before the active money lending of the day was concluded. Not only was the call money market undisturbed, but an appreciably easier tone prevailed for time ioans, and additional supplies were offered in that market. There has been some money withheld from the call loan market waiting for about 18,000,000, and the completion of arrangements for the payment of 18,000,000 in return of one prevailed for time ioans, and additional engagement of the money lending proportions or thindre. The foreign exchange market rate above the official rate tomorrow. Money continues to move

Totals. 6,029

CATTLE—Receipts of cattle were large gain this morning, 314 fresh cars being reported in the yards. This is the heaviest way for a Wednesday so far this year. 48

More than that, the total receipts for the heed days this week are the largest for the year form the table at the heaviest for the parted from the table at the heaviest for the largest for the parted from the table at the heaviest for the largest for largest for the largest for largest for largest for the largest for large 

hand a good many cattle sold as much as loc lower.

Speculators had a good many feeders which they had been forced to carry over from yesterday and day before, the country demand having proven disappointingly light. Therefore, they were prepared to buy fresh cattle at considerably lower prices than yesterday. Fortunately for owners, there were not very many feeders among the day's receipts and it was due to that fact that the market did not show so much change. Such feeders as buyers happened to want were, perhaps, steady, but the general feeling was lower. Everyone is anticipating a large attendance of feeder buyers next week on account of the attractions offered during the Ak-Sar-Ben festivities.

Representative sales:

BEEF STRERS. Sheep Steady to Lower.

CRICAGO, Sept. 28.—CATTLE—Receipts. about 29,000 head. Market for best strong; others steady but slow.
