Large Crowds Attend. MITCHELL, S. D., Sept. 29 .- (Special Telegram.)-The corn palace closed tonight after six days of the best entertainment and the largest crowds in a good many years. Saturday was looked on as a light day, but the palace building was practically filled in the afternoon and an audience of nearly equal proportions was present at the last concert tonight. When the Kilties played their last selection the band arose and played the "Star Spangled Banner" and great enthusiasm prevailed in the audience. Fort-five young women, dressed in white, representing the states of the union. with South Dakota at the head and Mitchell at the end, marched upon the stage and presented the band with boquets. The weather throughout the week has been of an ideal character, which has brought imnense crowds to the palace every day. Hundreds of visitors from the east attended the palace and visited the grand display of agricultural products and carried away with them the best impressions of South Dakota's productiveness.

Wilson, but this was erroneous and all firms which have not obtained inspection must suffer after Monday next.

Between July 1 and the present time the Department of Agriculture has appointed 1.000 meat inspectors, 25 per cent of whom are veterinarians. Before July 1 there were only 783 inspectors in the employ of the government. Several hundred additional men will be required to meet the demands upon the government for inspection. Before July 1 there was government inspection in 183 packing houses, and 400 houses are now under government supervision.

Secretary Wilson said tonight that many of these houses have made extensive improvements and spoke highly of the sanitary condition of many of the establishments. Of the 153 places which had inspection under the old law, twenty-seven have been refused inspection under the many law because of their unsanitary condition. #### BEVERIDGE IN MINNEAPOLIS

Constor from Indiana Discusses the Issues of Congre sional Campaign.

REPUBLICANS WILL AMEND TARIFF

Advanced that the Occupation of Cubn This Time Will Be Permanont.

MINNEAPOLIS, Sept. 29 .- United States

Senator Albert J. Beveridge of InaW apolis spoke to a large crowd at Auditorium tonight. He reviewed policies of the republican party in genera and the present administration in particular. Senator Beveridge said in part:

There has got to be some tariff changes. We are protectionists, we republicans, and not we republicans alone, but practically the whole American people. Protection of American industry has become an American principle. No free trader could destroy it if he would. Our expenses are so immense that the revenue drawn from our tariff could not possibly be reduced without bankrupting the freuzury. And that tariff, absolutely necessary to the working of the government, ought to be so adjusted as to protect American labor and encourage American industry.

But no tariff schedule is immortal. When conditions change the tariff schedule that was adjusted to that condition ought also to change. General revision is foolists and impossible. Even a bad tariff, when stable is better than a general change, and our present tariff is not a fad tariff. It is the best adjustment of tariff schedules ever devised. But some of those schedules should be revised and they should be changed in the high side of our prosperity when business can passity adjust trelf to the change and not in some period of approaching financial depression when the slightest change would disturb all business.

These changes should be made by the Senator Beveridge said in part: turb all business.

These changes should be made by the party that made the law and my friends of the protective principle and not by the party that resisted the law and are endines of the protective principle.

Yesterday men said, let us treat the saw have treated the Philippines. Will man says that today? What man does not foresee that all we have accomplished in the Philippines we must soon begin to accomplish in Cuba?

American government of Cuba is the traditional policy of the American people. It began before the republic was founded. The American colonists petitioned the English king to let them take Cuba and gave as their reasons the very same causes that have inspired American statesmen to desire the same thing ever since, the very game causes that bre operating today.

Occupation to Be Permanent. What We Did in Cuba.

Occupation to He Permanent.

This time American occupation of Caba will be permanent. The American people will stand no further trifling. They have let sincere sentimentalist play with their destiny long enough. American occupation of Cuba and American restoration of law and order means the shedding of American blood, and that blood now to be given to bring civilization back to Cuba is the price the American people must and the baseness of schemeing politicians who have cloaked their baseness in the robes of a pretended sanctity.

And now the American people will tast these false teachers aside and move to ward, clear-syed, stoud-hearted and fur of faith to the doing of the work God by been calling them to do. Occupation to Be Permanent.
