Coney Island's Jamboree Attracts Half a Million Feople.

Food and Shelter Advancing at an Alarming Pace-Activities of the City's Army of Night Workers.

Coney Island wound up its season with a week's jamboree culminating in a succession of riots on Saturday night. Acts of rowdyism were common during the week, it the climax came Saturday night when

,000 people thronged the streets and rerts. Most of them were in a state of furmoll during the entire evening. Gangs of rowdles insulted men and women, restau-

rants and salcons were wrecked, confetti, mixed with pepper, was thrown into the eyes of visitors, women's dresses cut and several persons were injured by the roughs. Bo great was the disorder that the parade scheduled for the evening had to be called An attempt had been made to liken the Coney Island festival to the New Orleans Mardi Gras and many strangers had been attracted to the seaside resort with the expectation of witnessing scenes that have made the celebration in the southern city famous. As a matter of fact, the Coney Island show is gotten up by the merchants and saloon keepers of the island to attract the crowds and dollars at the end of the season. There is no real Mardi Gras spirit in the affair here. If it is

given again it probably will be visited by diminished crowds unless the presence of the militia or an increased police force in-

Rise in Cost of Living. Food and shelter in New York City are rising by leaps and bounds. Regarding the cost of "high living" one of the leading clubs gives some interesting figures, showing the cost of necessaries in August, 1965. and the same month this year. The prin-

emaple partridge, which sold last year at example partridges, which sold last year at

In milk the price has increased from cents a quart to 4% cents, this increase being partly due to the fact that the milk is pasteurized before being brought to the city. In groceries most of the articles have gone up in price, especially in imported canned vegetables, which, since the new customs regulations, are being purchased uncolored limost every other article used in the restaurant has increased. For example, charcoal used for brollers is now 80 cents a bag, where a few years ago it cost 40 cents.

In the line of fish and clams the following prices are quoted; Soft shell crabs,

11.25 a dozen, as against 75 cents a dozen; lobsters, 30 cents a pound, as against 23 a pound; Spanish mackerel, 40 cents,

TE HANUFACTURING CO.

A STRITTE MANUFACTURING C

The scap is now on sale in most of the large stores of the country, and through extensive advertising it is hoped to make it of mational and even universal use.

IS THERE PROFIT IN SOAP-MAKING?

WHY DOLLAR STOCK IS NOW 25 CENTS. Investors unfamiliar with the inside of large businesses often feel doubtful of a stock that sells below par, but there is nothing unusual in that. All fortunes are made by getting in at the beginning, when money is needed and the officers will give a bouus for ready cash. You could buy Proctor & Gamble stock at a very low price at time; to-day you pay over three times its face value. Scarcely a great manufacturing company can be named whose stock in the early

Increase in r in rents constant The metropolis has become a matter of study by Superintendent F. E. Bauer of the bureau of dependent children of the charl ties department. Recently a poor woman offered her brood of little ones to the city to take care of claiming that she could not pay for their housing any longer. The disintegration of families is not, perhaps an immediate sociological menace, but there is evidence of severe hardship being experienced among the humble, and in time city will have its housing problem to deal with.

In fixing rents, the landlords compute so much per room. Based on this, a table has been prepared, showing the increase of the average room rent since 1900. The average per room was in:

A plan has been put in operation that will give Denver one of the largest scap manufacturing establishments in the world. The business, the Geyserite Manufacturing Company, with a factory at Thiuty-dray and Blake, has been established for fifteen years, but owing to the death of the founder at a critical stage of the enterprise, and the luck of extensive capital to further it, the business went abend slowly, until a few months ago, when Denver capitalists, headed by Frank A. Joslin, purchased the interests. <image>
