Corn, Oats,

the demand from this source became greater and this started liberal covering by shorts which resulted in a well defined ad-vance. News of the day was favorable to the bulls. Primary receipts were 25 pir cent less than for the corresponding period a year ago and the price of cash wheat at Kansas City was up Mc to be per bushel. There was also some buying here, thought to have been for foreign ac-count and advices from New York claimed that exporters were buying wheat in that markel. There market closed strong with prices almost at the highest point of the day. December opened % to %c higher at "whet at 75%c. Clearances of wheat and four were equal to 584,700 bushels. The amount of breadstuff on ocean nassage decreased \$52,000 bushels. The visible sup-ity increased 1,284,000 bushels. Primary precipts were 1,510,600 bushels. Primary or 100 cars a year ago. Minne-applin. Builth and Chicago report receipts of 500 cars, against 533 cars last week and 1400 cars a year ago.

with 200 area against 833 cars last week and. 2400 cars a year ago. Trading in corn was quiet, but the tone of the market was firm. The buildsh in-fluences were firm cables, small local re-ceipts and strength of wheat. World's shipments were small and this had some effect. The smallness of trade was due to some extent to a scarcity of offerings. The market closed at 43%c, sold up to disguistic, and closed at 43%c. Local re-ceipts were 455 cars with 279 cars of con-tract grade. Dving to scattered selling of the May Sind December deliveries by cash houses, the oats market showed little response to the attength of wheat. An almost total absence of outside demand also tended to check any advance. The tons of the mar-ket was steady. December opened a shade to the higher at 34%c34%c. Local receipts were 458 cars. CATTLE-Receipts of cattle this morn-ing were very liberal, 343 cars being re-ported, which was about the same as one week ago and larger than two weeks ago by over 100 cars. The market as a whole was in very fair condition and generally satisfactory to sellers. There were no beef steers of any con-sequence in sight, either corn-feds or grassers. The fact was, considering the large receipts of other kinds of cattle, the beef supply was extremely meager. At the same time there was a fair de-mand and the market as a whole just about steady with the close of last week. For some reason or other buyers seemed to be especially eager for good cows and heifers and in spite of the fact that the receipts of that kind of cattle were very liberal the market might be described as steady to strong. It being Ak-Sar-Ben week, feeder spec-ulators were all anticipating a very large country demand and for that reason they were all free buyers of stockers and featers this morning. In spite of the fact that the receipts of that kind of cat-tle were large the market opened in good season and was fairly active on all de-sitable kinds. Prices generally remained about steady with last week, at least that was true of everything that could be con-sidered at all desirable. BEERF STEERS. St. Joseph Live Stock Market.
