Every old sore exists because of a polluted condition of the blood. This vital fluid is infected with some germ or old taint, or perhaps has been left in an unhealthy condition from a long spell of sickness, or the trouble may be inherited. The poisonous germs and matter with which the blood is saturated force an outlet on the face, arms, legs or other part of the body and form a sore or ulcer. This being continually fed by a polluted blood supply, grows red and angry, festers and eats into the surrounding flesh until it becomes what is very aptly termed an "old sore." The relief produced by external treatment is only temporary. The only treatment that can do any real good is a blood purifier that goes to the very root of the trouble and removes the cause, and for this purpose nothing equals S. S. S. It drives out from the circulation all morbid matter and germs, even reaching down to hereditary taints, and by cleansing the blood heals old sores permanently. S. S. S. not only removes all taints and poisons from the blood but builds it up by supplying it with the rich, health-sustaining properties it needs to keep the system in health. S. S. S. makes pure blood and a sore must heal if the blood is pure and healthy. Book on Sores and Ulcers and medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.
