McKEEN MOTORS ARE POPULAR

In Service Long Enough to Have Established Permanent Place for Themselves.

The success of the McKeen motor cars is now assured by actual service, for since they have been in operation for some time, with a little loss of time as in the case of regular trains. No. 8 has been doing a phenomenal business between Lincoln and Beatrice and traveling men put themselves out to make the trip on these cars. Mr. McKeen has so arranged the engine that no smell of gasoline ever permeates the car and smoke is unknown and, of course, cinders are lacking.

With the circular windows, which give the passengers a perfect panorama of the scenery, and also perfect ventilation from the latest improved devices for ventilating the cars, the trip is surely a pleasure.

Orders are expected daily from Mr. Harriman to begin the immediate construction of many more of these cars, which have proven themselves the right thing in the right place. With the 20 horsepower engine which was built at the Union Pacific shops for No. 8 a trailer laden with mail and baggage is pulled with ease.

Mr. McKeen is away for a few weeks on his vacation and it is thought the construction of new cars will start as soon as he returns.

SHOOTS JOHN WIFF BEFORE CAPTURE
Latter, with Hired Man, Rans Down Outlaw, Blinds and Takes Him to Omaha Police.

While John Wiff, a gardener who lives about seven miles west of Omaha, on Leavenworth street, was marketing a load of vegetables Thursday morning John Smith of South Omaha found the Wiff house without occupants for the time being and proceeded to add to his wealth, which was already of stupendous proportions for a burglar. Wiff returned home about 11 a. m. and caught Smith in the act of making his second attempt at a window of the house and called on him to stop. Smith drew his .38-caliber revolver and started on a run, with Wiff in hot pursuit, calling on his hired man for assistance.

As soon as Smith saw that his pursuers were gaining on him, he turned and fired at Wiff, inflicting a glancing blow on the side of Wiff's head, but this did not deter the pursuers, so Smith fired again, hitting Wiff in the right hand and breaking the forefinger. Both Wiff and his hired man continued the chase and overpowered Smith, who was bound hand and foot, although he fought desperately to escape, as he is an exceedingly powerful man. Wiff, with an injured hand, and the hired man succeeded in securing Smith in the street and bringing him to the city.

WOMAN RUN INTO BY AUTO

Mrs. Albert Bailey is Knocked Several Different Ways by Fast-Speeding Machine.

Mrs. Albert Bailey, Seventh and Burt streets, was the victim in an automobile accident Thursday morning, but fortunately escaped with only slight injuries. While crossing the street toward the east at Sixteenth and Dodge streets a large automobile which was being driven northward at a high rate of speed struck Mrs. Bailey, throwing her for a distance of about twenty yards before the machine could be stopped. She was struck square in the middle of the automobile and witnesses said if she had been standing a distance of six inches either way she must surely have been thrown beneath the wheels. As it was the force of the impact threw her directly on the center of the machine, and she suffered only a few bruises. The driver of the auto was arrested, giving his name as John Doe, and gave bail for his appearance in court in the sum of \$25, but it is not thought likely he will appear for trial. Officer Crovel, who made the arrest, said the machine probably was going at the rate of thirty miles an hour through the crowds on Sixteenth street at the time, and that several other pedestrians had narrow escapes on the crossings.

The arresting officer forgot such little details as getting the name of the automobile owner and number of the machine. So the police are now guessing who "John Doe" may be.

RIOT OF NAMES IN COURT

Jawbreakers Furnished by Trial of Japanese on Charge of Shooting.

The trial of Hyakutsu Ishida, a Japanese laborer in one of the packing houses, for shooting with intent to kill was begun before Judge Sutton Thursday morning and is causing the court officials all kinds of grief owing to the jaw-breaking names of witnesses, who are all Japs. Here are some of the subjects of the minkado who have been summoned to testify: S. Shigem, T. Toguchi, Y. Murakami, I. Higuchi, T. Tsugi, Matsu Mukai, Supu Saiki, Ju Torao, U. Hiruzuka, Hideo Nakamura, H. Maluada. None of them can speak English and the testimony is all taken through an interpreter.

Ishida is charged with pulling two guns on a number of his countrymen at the old Good Shepherd home in South Omaha, which is used as a dormitory for Japanese laborers. The crowd scattered, but before they could get away Ishida discharged three or four of them with bullets. He also was wounded. The trouble is said to have been the result of a quarrel over a gambling game.

STOTTS IN A NEW COMPANY

Withdraws from One Signal Concern to Start Another Under Arizona Law.

E. S. Stotts has withdrawn from active participation in the affairs of the Stotts-Logsdon Signal & Equipment company, though he still retains his stock and has organized the Stotts Signal company. This has been incorporated under the laws of Arizona in its business in Arizona and the incorporators are Elsa S. Stotts of Omaha, A. H. Lindley of Chicago, Baird Lindley of Des Moines, Lester Dickie of Omaha and R. A. Streeter of Council Bluffs.

The new company claims to have the best of others in that it has a patent on an intermediate block signal system, that is, one which allows two or more trains to go on a block at once, showing to each train the presence of the other and at the same time announcing the approach of a train from the opposite direction. The company has secured patents for its system in many States and expects to begin the manufacture of signal equipment within three weeks.

NO TRACE OF MAN'S FOLKS

Nothing Yet Known of Relatives of John Swanson, Killed at Freeport.

Even after diligent effort on the part of the police for the last few days no trace of the relatives of John Swanson, who was killed at Freeport, Ill., has been found. A telegram was received requesting that his relatives be notified of his death, but they are evidently not residents of the city as suggested.

SANITARY COW AT HOSPITAL

Bovine Treated with Tuberculin and Found to Be Free from Tuberculous.

Health Commissioner Council installed a sanitary cow at the Emergency hospital Thursday morning. Wednesday the bovine was tested with tuberculin for tuberculosis and found in perfect health. Wednesday afternoon an attendant was sent from the hospital to the Ramacottini barn for the cow, but apparently the cow was in such perfect health that she refused to give the hospital man a hearing. Dr. Scott was summoned to help, but the animal dismissed the doctor with one kick. The cow was taken to the hospital in a wagon. Thursday morning Dr. H. G. Strauss of the hospital telephoned Dr. Ramacottini that the cow had an evil mind and was disposed to tear down rather than build up.

EXTRA TABLES FOR BANQUET

More Room Necessary at McKinley Club Because of Great Demand.

The demand for plates for the McKinley Club dinner for the evening at O'Brien's is so large the officers of the club have been forced to ask for extra tables. Additional plates have been provided, but it is believed the demand will be larger than the places available. After the dinner a dozen or more local orators will be turned loose for two minutes speeches.

FARNAM PAVING PUT OFF

Not to Be Undertaken This Year, but Early Next Spring is the Plan.

Owing to the lateness of the season it is not probable the repaving of Farnam street from Thirtieth to Eighteenth will be accomplished this year, but will be one of the first improvements next spring. City Engineer Bosenwaler thinks there is a bare possibility the work will be done this year.

WHO DONE BROKE DAT LOCK?

Question That is Just Now Agitating Members of the Omaha Grain Exchange.

"Who broke de lock on de chicken house?" Instead of chicken house put exchange room and you have the question that is being asked about the Grain Exchange. In the dark hours of Wednesday night someone forced open the big double doors of the exchange room and broke the lock. Was it some Ak-Sap-Ben visitor who was unable to find a place to sleep in the hotel? Was it some grain-man in the Board of Trade building who was shy on chairs and sought to replenish his office furniture? These two explanations are given, but no one knows save the guilty person. Of this all are satisfied, if the culprit wanted chairs he was disappointed, for the chairs were locked in the secretary's office.

T. P. A. ROOM AT HOSPITAL

Woman's Auxiliary of Post A Starts Fund for that Purpose.

For the purpose of endowing a room in some Omaha hospital for the use of traveling men a fund is to be raised by the Woman's Auxiliary of Post A, Travelers' Protective association. The auxiliary will meet October 11 at a Kensington at the home of Mrs. Worthington, 6022 Farnam street, to perfect arrangements for an entertainment, the proceeds of which will be used as a nest egg for the fund. The organization has a membership of sixty-eight.

INNOCENT VICTIM IS SHOT

Fellow Gets Bullets in Leg from Fusillade of Two Colored Citizens.

Rivers Mackey and John Pearl, colored, celebrated the festive season Thursday afternoon at Twelfth and Dodge streets by exchanging revolver shots directed toward each other. The noise of the fusillade attracted the police, who managed to catch Mackey. Pearl wanted to see the automobile parade, so he ran away and is still fugitive. Neither of the duellists was hurt. Mackey resides at 1625 North Twenty-first street.

FAIL IN IDENTIFYING MOSS

Indications He is Not the Man Wanted for Chasing Girls Near Riverview.

The efforts of residents in the neighborhood of Thirtieth street and the Boulevard to identify James Moss, colored, arrested Tuesday as the negro who chased young girls in the vicinity on several occasions, proved unsuccessful Wednesday, when a few persons called at the city jail to look at Moss.

One description of the man says he is rather light, and although Moss is quite dark he conforms in every other way, and he was therefore held. The efforts to find the right man are still in progress unabated, while the people at the scenes of the following operations go about armed and looking for unmaking colored men.

Chief of Detectives Savage is satisfied that Moss is not the badly wanted mulatto and in court Thursday morning Moss was released. Moss said it had been an exciting few days for him, as he did not know what the officers were trying to do to him or what he was wanted for, as he had just arrived from Minneapolis on a side door Pullman when arrested and was surely going to hike right back as soon as he could sight a choo-choo.

HARDWARE FAIR IN OMAHA

First Exposition of Kind Here Will Be Held Next February at the Auditorium.

A hardware exposition, the first thing of its kind in Omaha, will be held in the Auditorium February 4, 5, 6 and 7. Manufacturers from New York to San Francisco will exhibit their product.

The exhibit will be given by the Nebraska Retail Hardware Dealers' association, which will hold its annual convention in Omaha February 4 to 7. While the association has never undertaken anything on such a large scale, its officers rather expect to have trouble in finding enough space in the Auditorium for exhibitors, instead of having difficulty in securing exhibits. The secretary has opened a correspondence with hundreds of manufacturers.

Fifty Years' Blacksmith.

Hixbrack, adjoining the famous Appomattox, where the gallant Lee surrendered to the famous Grant, is the home of Samuel R. Worley, now 55 years of age, and actively engaged in horseshoeing, who often relates how he stud horses of unolists and confederates from 1860 to 1866, making the shoes and fitting them. Mr. Worley says: "I have been shoeing horses for about thirty years, and Chamberlain's Pain Balm has given me great relief from lame back and rheumatism, which advancing years and hard work brought, and it is the best liniment I ever used." When troubled with rheumatic pain or soreness in the muscles give Pain Balm a trial and you are certain to be pleased with the prompt relief which it affords.

Building Permits.

The following building permits have been issued: James Congrove, brick triple building, Twenty-third and Capitol avenue, \$2,000; Standard Distributing and Drilling company, \$2,000 addition to mill house at Fourth and Pierce; O. B. L. Herdick, \$5,000 dwelling at Twenty-third and Decatur.

GOVERNOR PENFOLD

Is Ak-Sar-Ben's busiest Knight, and well does he betar his honors.

We are Omaha's busiest tailors. We are the busiest and the biggest, too; because we make high class clothing at popular prices. There is satisfaction and profit, too, in dealing with a big house.

We carry the largest and best assorted stock of woollens in the city. We employ two expert cutters, two expert salesmen, sixty competent enough, conscientious enough to give every order individual attention.

MACFARLANE OWNS THE TRUNK

Actor Wires that Property Stolen and Pawned Belonged to Him.

George MacFarlane, one of the singers with the "Girl and Bandit" company, which played in Omaha last week, has telegraphed from Kansas City that the trunk which was found a few days ago by Detectives Mitchell and Shepard in a lumber yard near Union station was his property and contained theatrical clothes to the value of \$50. Nearly all the clothes have been found in pawnshops by Detectives Davis and will be returned to their owner, together with the trunk, which is in a sadly dilapidated condition.

NEWS FOR THE ARMY.

Colonel John Van R. Hoff, chief surgeon of the Department of the Missouri, departed Wednesday evening for Washington, D. C. Mrs. Hoff accompanied him. It is thought at army headquarters that Brigadier General Wint and staff will return to Omaha from Newport News, Va., by the close of the present month. The two battalions of the Thirtieth United States infantry arrived Wednesday at Fort Davis from Lawrence, Mo. The command consists of regimental headquarters, field staff and band of Companies A, B, C, D, E, F, G and H. The G and H are stationed in the Department of Texas at Fort Logan H. Root, Arkansas and Reno, Oklahoma. No part of this regiment is under orders to proceed to Cuba. The last name will Garrison their respective posts during the winter.
