Minneapolis, Duluth-and Chicago reported receipts of 820 cars, against no cars last week and 919 cars a year ago.

Corn was a trifle caster because of the weakness of wheat. There was almost some setting as a result of increased local secupts. Commission houses were the principal sellers. Huying was scattered. The market closed steady. December opened unchanged at 13c, sold off to 42%c and closed at 12 cast. Local receipts were 37 cars, with 301 of contract grade.

Light offerings helped to maintain moderate firminess in the casts market, despite the weakness of wheat. The support came thichy trom cash interests. December opened a shade higher at 342,23%c, sold between 343,43%c, cand 34%c, and closed at 154,25%c, Local receipts were 37 cars. LONDON, Oct. 5.—The rates for money were easier in the market today, owing o large dividend and government distribuwere easier in the market today, owing to large dividend and government distributions. Discounts were lower in sympathy. Prices on the Stock exchange continue steady, but the easier money rates have not expanded business, which was extremely dull with the exception of home rails, where fair investment purchases were noticeable. Consols declined in the afternoon owing to continued gold exports. Among foreigners Russians were the weak spot on the pessmistic statement of the Russian minister of finance. Americans developed irregularity, with pronounced weakness in Canadian Pacific but the active issues hardened fractionally in the forenoon on local support. Later the New York advices encouraged the market and prices moved up firmly, especially United States steel, and closed firm at a fraction below the best quotations of the day. Copper shares were in good demand in sympathy with the price of the metal. Japanese imperial sixes of 1804 closed at 1805, ex-int.

PARIS, Oct. 5.—Prices on the Bourse today declined heavily at the opening owing to the fall in Russians following yesterday's a publication of Finance Minister Kokovsoff's report to Premier Stolypin, expressing the condition of the Russian treasury. The market railled later, but prices closed heavy, Russian imperial fours closed at 180,90 and Russian bonds of 1804 at 485,00.

The supply of beef steers was very light and there was nothing choice included among the receipts. Such cattle as there were sold in about the same notches as yesterday, the market being without noteworthy change in any direction. The market for the week is a little stronger.

The supply of cows and helfers was also small and they, too, sold at steady prices. The market as a whole was without any noteworthy feature of interest. Everything in sight in the morning changed hands very readily and the trade came to an end at an early hour for the want of more stuff to sell.

A considerable proportion of the receipts consisted of stockers and feeders. The arrivals this week of that kind of cattle have been quite liberal, and while the country has bought freely speculators still had quite a good many cattle on hand this morning that were carried over from yesterday. They were in consequence cautious this morning and the feeder trade as a whole was slow. Good feeding cattle have sold as high this week as any time and the common to medium grades have been gradually working lower.
