market held up very well in apite of the fact that all other market points were re-porting large runs with prices anywhere from weak to 10c lower. Good beef steers, both corn-feds and rangers, were very scarce and there was absolutely nothing that could be quoted choice. It would be safe to quote the general beef market as steady to strong and fairly active. Cow and heifers were at least steady. On the opening sellers who happened to have desirable kinds which were espe-cially wanted by packers reported that they got a little stronger prices, in fact now and then you could find a salesman who would quote good cows strong to 100 higher. It was evident, however, that most buyers did not care to pay any bet-ter than steady prices and the later sales were largely on that basis. Good feeders seemed to be in active de-mand and the market opened with that kind in good request at strong prices. Medium to common grades were a little slow, but the fact that speculators were pretty well sold out Saturday and that the receipts today were light helped to make them sell a little more freely than they would have done under other conditions. Representatives sales: BEEF STEEMS.

Cotton Market. New York, Oct. &-COTTON-Spot market closed quiet. 15 points lower: midd-ling uplands. 10.6c: middling guif. 10.900; a.e. B.T. LOUIS. Oct. &-COTTON-Steady: 10.400; 10.400; 20.400 2 Streers...1553 4.60 If steers....1220 2.91 2 steers...1320 4.60 HOGS-As was the case Saturday there were hardly enough hogs in sight to make a market. When the trade opened trains were only twenty-five loads reported in with no one knew how many back. There was no important change in the market, prices being just about steady with the close of last week. All the early ar-rivals changed hands very readily in spite of the fact that there were hardly enough hogs to make a killing for any one pack-ing house. Shippers will observe that quality is cutting a good deal more flaure than was the case some little time ago, less at-tention being paid to weights. In other words, choice heavy and medium weight hogs are selling very much closer to light weights than they were. However, the choice light hogs are atill at the top, with the rough and heavy loads at the bottom. Representative nales:
