OMAHA, Oct. 9, 1906. Wheat did weil today, opening firm and novancing \$\frac{1}{2}c. Trade its still very light and the range of prices senall. Laverpool was strong, but as that market yesterday failed to respond to American cables, this had little effect. Cash demand locally was better and the price steady. Export business was slow.

The corn market was inactive and prices were unchanged. Receipts are moderate and the demand fair. Weather was good for maturing the crop and news generally is bearish. Primary wheat receipts were 1,503,000 bu. Primary wheat receipts were 1.203,000 bu. and shipments 50,000 bu. and shipments of 50,000 bu. and shipments of 500,000 bu. Corn receipts were 550,000 bu. Corn receipts were 550,000 bu. and shipments of 500,000 bu. Corn receipts last year of 431,000 bu. and shipments of 481,000 bu. Clearanges were 294,000 bu. of wheat, 271,000 bu. of corn and flour and wheat equal to 43,000 bu.

Liverpool closed 140,000 bu.

Liverpool closed 140,000 bu.

Liverpool closed 140,000 bu.

Minneapolis wired: "Movement of wheat and unchanged to 30 higher on corn.

Minneapolis wired: "Movement of wheat in country is very light. The Minnesota crop is going to be very disappointing; in first place it was not as large as estimated and rains have damaged it seriously since barvest. There will be very little if any contract."

 CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing Prices on Board of Trade. CHICAGO, Oct. 9.—A slight advance in the price of wheat in Liverpool and the im-proved cash and export demand caused firm tone today in the local wheat marproved cash and export demand caused in firm tone today in the local wheat market. At the close wheat for December was up ic. Corn was ic higher. Oats were up a shade and provisions were 1960 12% to 156917% o higher.

The wheat market was firm all day. At the opening there was some covering by shorts, who were influenced by an advance in curb prices at Minneapolis and by higher prices at Liverpool. Commission houses were moderate buyers. Throughout the day offerings came largely from bears, who sold for short account, there being little long wheat for sale. Reports from the Pacific coast indicated a more active demand for export and this strengthened the local market. Another bullish factor was the improved demand for cash wheat at the principal grain centers, accompanied by an advance at Kansas City of ic a bushel. The total volume of business was not large. The market closed firm with prices at the highest point of the day. December opened 1401/4 higher, at 74% 674% c, sold off to 74% 674% c and then advanced to 74% 674% c. Final quotations were at 14% c. Clearances of wheat and flour were equal to 418,500 bushels. The world's visible supply, according to Bradstreet's, increased \$500.000 bushels. The world's visible supply, according to Bradstreet's, increased \$,500,000 bushels. Primary receipts were 1,26,000 bushels, compared with 1,25,000 bushels for the corresponding day last year. Minneapolis, Duluth and Chicago reported receipts of 1,045 cars, against 1,183 cars last week and 850 cars one year ago.

Trading in the corn pit was only moderately active and prices ruled steady. Early in the day sentiment was inclined to be bearish, because of the selling of the May delivery by a leading commission house. Local receipts today were somewhat under the estimated amount and tomorrow's arrivals are placed at only 157 cars. This had a steadying effect on the market and the firmness of wheat was also an influence. The market closed steady. December opened a shade lower at 42%0 42%c, sold off to 42%c and then advanced to 42%c. The close was at 42%c. Local receipts were 345 cars, with 220 cars of contract grade.

Oats showed considerable firmness, although prices made only a slight advance. Notwithstanding favorable weather in the Oats showed considerable firmness, although prices made only a slight advance. Notwithstanding favorable weather in the northwest for the movement of the crop, receipts at Minneapolis today were only 33 cars, against 90 cars for the same day last year. This fact had considerable effect upon the market. Pit traders and commission houses were the principal buyers, while the selling was mostly by cash houses. December opened the lower at \$4460, sold between \$4460446 and closed at \$4460446. Local receipts were \$65 cars. The feature of trading in provisions was buying of October lard and ribs by shorts. There was also fair buying of the January products by investors. Selling was mainly by local longs. The market was firm for the greater part of the day. At the close January pork was up 1551746 at \$13.72458.10. Ribs were 1021346 higher at \$7.424.

Estimated receipts for tomorrow: Wheat, 5 cars; corn, 157 cars; oats, 212 cars; hoga 25,000 head. 3,000 head.

CATTLE—Receipts this morning were quite liberal, but still somewhat smaller than a week ago. The receipts for the two weeks show a failing off of aimost 5,000 head as compared with the two days of last week. The smaller receipts have put the market into a good strong position.

Beef steers this morning opened a little slow, as buyers were inclined to wait for late trains before taking hold very freely. Still the market was just about steady and by midday pretty much everything in sight that was at all desirable was disposed of. The market for the two days this week has been in very good condition considering the fact that there has been an easier tendency at other selling points.

Buyers had an idea that they could set

been an easier tendency at other selling points.

Buyers had an idea that they could get their cow stuff a little lower this morning and first bids were made in accordance with that belief. A little later as it became apparent that the demand was good, the trade became fully steady on all desirable kinds at least.

There were quite a good many stockers and feeders carried over in the hands of speculators yesterday and most regular buyers started out this morning hidding easier prices. As was the case, however, with some other kinds of cattle it did not seem an easy matter to get prices down and desirable feeders so I in practically the same notches as yesterday. Common and undesirable kinds were slow and rather hard to move, but that is the case almost every day.

Timber Land Loans

We will mail on request, complete information about a per cent sortal first mortgage bonds, secured by timber lands. These bonds are secured (at less than 50 per cent of actual cash market value) by standing timber; issued by various large well established lumber companies of highest credit and mercantile rating.

We have made a specialty of timber loans and bonds for several years. No default has ever occurred. There is no better security, real or personal, than timber lands. Their market value has increased every year as timber becomes more scarce. We have sold a great many issues of timber bonds, aggregating several million dollars, to banks and private investors. It may pay you to investigate in a form of investment. Also investigate us. The bonds are due from one year up to fifteen years; \$1,000 each; yield 6 per cent. No other bonds as good pay 6 per cent. 6 per cent.
