American Residents Preparing to Press Their Campaign for Annexation.

ISLE OF PINES TO THE FRONT

PROVISIONAL GOVERNMENT WILL NOT ACT

Temporary Governor May He Appointed, but Entire Matter Will Be Referred to the State Department.

HAVANA, Oct. 11 .- The provisional government will have nothing to do with the question of the sovereignty of the Isle of Pines or with the separation of the government of the Island from the rest of Cuba. The authorities already have declared that the island of Pines belongs to Cuba, and has embodied that affirming in the treaty conceding the sovereignty of the Island to Cuba, and this treaty is now pending ratification in the American senate. The entire matter being one for the adjudication of the State department, the provisional government, which is wholly under the War department, will not mix therein.

The mode of government of the Isle of Pines as part of Cuba may be altered or amended, but the desire of Americans in the Isle of Pines for territorial or municipal government as part of the United States cannot be conceded by any act on the part of the provisional government of Cuba, or the War depart-

May Get Temporary Governor. The president of the American association of the lake of Pines has not yet interviewed Governer Taft on this matter, but the most that is likely to be gained will be the placing of an American military officer as temporary governor of the island in lieu of the present Cuban mayor, with whom the relations of the American residents has not been pleasant.

The American residents of the Isle have adopted unanimously a resolution exoperating Secretary of State Root and General Wood of all blame in connection with the turning over of the island of Cuba, and they feel that this step ought to open the way to negotiations for making the island American property.

They consider the present conditions of hang fire indefinitely in the United States Washington denying the story. senate. Governor Taft has decided that the pay of the Cuban senators and congressmen be stopped with October 1, when the Palma government ceased. He will decree the congress to be in fecess until the question of its status is settled.

Reception at Palace. Mrs. Taft and Mrs. Bacon held a reception this afternoon in the main salon of the palace. It was attended by several hundred Cubans and others, including most all of the army and navy officers here. The nunicipal band played in the park opposite the palace during the reception, which was informal and enjoyable. Governor Taft gave a dinner in the pal

ace to the naval officers tonight. The Louisiana will leave here Saturday afternoon for Norfolk via Key West with Governor Taft and his party on board. The Louisiana will be accompanied by the battleship Virginia, with General Funston on board. The battleship New Jersey and the cruiser Minneapolis will sail for the north tomorrow, followed shortly by the cruiser Newark. The cruiser Brooklyn and the battleship Texas will remain here.

ers at the home of General Castillo last night was not for the sole purpose of bidding each other farewall, as the partici-pants alleged. Castillo addressed his sassoclates, urging them that Governor Taft be called on to declare his attitude toward the men who were responsible for overturning the Palma government and declared that the provisional government would have made slow progress but for the assistance of the rebels. Therefore, he argued. Mr. Taft should show his gratitude by ousting the moderates from office and substituting for them men who had fought for good government. In spite of the fact that he was the host, Castillo did not obtain support for his demand. Generals Ferrara and Asbert made patriorie speeches, saying that they fought for their country and not for spoils. This sentiment was generally endorsed and Castillo was voted down. Several speeches were Saturday. then made applauding Governor Taft, President Roosevelt and the United States for their generous course toward Cuba. The provisional government is unable to make an accurate estimate of the conflict-

ing reports regarding last night's meeting at the residence of General Castillo. The Associated Press learned today or the highest authority that the vacancy of the office of vice governor of the Philippine islands cannot await the conclusio of the duties here of Governor Magoon, who is to succeed Mr. Taft as provisional governor of Cuba. This is a great disappoint ment to Mr. Taft, who desired that Mr. Magoon take up his work soon in the Philippines. It is believed that an appointment as vice governor of the Philippines will be made immediately on Mr. Taft's

eturn to Washington. Diplomat as Well as Soldier. WASHINGTON, D. C., Oct. 11 .- The deall of General Franklin J. Belk to command the American military forces in Cuba was made directly by the president and the reason for that order, as stated y competent authority nere, was that by his administration as military governor of the province of Batangas, one of the most turbulent of the Philippine subdivisions, ust after the crisis had been reached in the Aguinaldo rebellion, General Bell showed such a combination of the best qualities of the soldier and the diplomatist that his selection was deemed expedient to undertake similar duties in Cuba. It is further stated that General Funston has fulfilled his entire mission to the Valentine, clear utisfaction of the War department in securing the surrender of the arms of the

revolutionists without the loss of blood, and that it never was intended that he should remain in Cuba in a semi-military

Man Burned in Stable. ABERDEEN, S. D., Oct. II .- (Special.)-Sheriff Anderson has gone to James, a few miles east of here, to investigate a mysterious fire, in which an unidentified man lost his life. A stable on the Spratt farm burned down last night and this morning the charred body of a man was found in the ruins. The features and body are badly disfigured that identification will was a stranger who arrived at James last night. A man visited several farms trying to secure lodging, and, failing, it is thought he sought shelter in the stable. How the fire started is not known, unless the man dropped a lighted match among the loose straw and was overcome by the smoke.

Sergeant in Trouble. CHEYENNE, Wyo., Oct. 11 .- (Special.)-James Rice, sergeant of the Elevent Infantry, Fort Russell, was today returned from Omaha under a military guard and must stand trial for desertion and forgery. It is alleged that Rice, who was chief clerk to Major, J. B. Blatsford, command-ing the Second battalion, forged the major's signature to an order on the Union Pacific for transportation from Cheyenne to Reading, Pa., and left the post without leave. Rice had been an exemplary soldier, and the officers and men of the Eleventh cannot understand his action.

### CURRENT LITERATURE.

Where the Green Cleads Sings," the mitial poem in the "Rhymes of Robert Rexdule," appeared originally in Munsey's Magazine under the title "From Out Bohemia." The second poem, "Unattained," was first printed in Leslie's Magazine. This little volume of tuneful verse is published by Fleming H. Revell company.

In the October World's Work Isaac F. Marcosson tells of "The Beginning of Reform in Packingtown." The article is the result of a first-hand investigation of the new conditions in the beef packing industry in Chicago. It shows how the great packing houses have begun to clean up. and gives a comprehensive explanation of the working of the new government inspection rules. In "Labor in Politics," M. G. Cunniff gives a vivid picture of the labor campaign in which President Samuel Gompers of the American Federation of Labor is endeavoring to overthrow the "enemies of labor." The usual financial article answers the question, "Is It Safe to Invest in Southern Pacific Stock?" The departments of the "March of Events," the "New Science of Business" and "Among the World's Workers" maintain their usual high standard. The whole number is one of unusual interest and value.

Birch, who, on account of long absence RUMOR STRIKES UNION PACIFIC abroad, has contributed nothing to St Nicholas for several years.

There is an element of novelty, often amounting to surprise, in the contents of the October Century. The article on "The Human Side of the Czar" in perhaps, of most general interest. This is a personal narrative, by Mrs. Amalia Kussner Coudert, of her experiences in the palace while painting the portrait of the Russian emperor-the political character of the world low most in the public eye. Reproductions of her miniatures of the imperial family add to the attractiveness of the sketch

The "Keramic Studio-The Magazine for the Potter and Decorator," for October, is chiefly edited by Miss Mabel Dibble of Chicago. It is the second of the series of "Personally Conducted Tours" of the most prominent decorators. Other contributors are Sarah Reid McLaughlin, Hattie V. stove ever placed on the market. Our method of removing ashes shown by cut No. 1, is perfectly clean and overcomes the many objections to the ash pan used in other stoves. The elbow draft casting with its upward slant allows the empty coalhod to be set under the draft so that no ashes or coals can be spilled on the floor. Our patented dustless ash cover shown by illustration is furnished free with Nos. 122, 152, 182 and 196 stoves. It keeps down every particle of dust

in removing ashes, a feature that will be appreciated by every tidy housekeeper Ash pans when used in other stoves are too small to hold a full 24 hours' accumulation of ashes. They are usually over-filled when removed, and the ashes in the bottom of the stove are dragged out on to the

Cole's Original Hot Blast is the cleanest | iliar with the ash pan method, and have, no doubt, gone through the process many times of spreading a newspaper or cloth under your stove every time the over-filled pan is removed.

The ash pan is not only dirty, but is a great evil in stove construction. It adds a door and joints which can be made only temporarily air-tight by the use of stove putty. These joints open after a few weeks' use, rendering ash pan stoves worthless as fire keepers, and makes them fuel-eaters rather than fuel-savers. The ash pan and the shield for guiding ashes into the pan, also prevent base heat.

Our method is the only clean way. The whisk broom, turkey wing and dust cloth are dispensed with. There are no joints to leak air, base heat is not retarded and Cole's Hot Blast is the cleanest stove, the best floor heater in the bottom of the stove are dragged out on to the and the only stove in the world which can be curpet, as shown by cut No. 2.
