## PRICE LIST FOR COAL MEN

Printed Schedule Compiled by the South Omaha Exchange.

**FIRST DEPOSITION IN THE TRUST CASE**

Secretary Hall Presents Minutes Showing Subject of Retail Prices Was Discussed at Meetings of Exchange.

That the South Omaha Coal exchange publishes for the use of its members a printed schedule of coal prices, that its constitution contains a clause providing for the firing of members who violate the regulations of the exchange; that the constitution of the South Omaha exchange and that of the Omaha exchange are almost word for word alike and that the printed lists of retail prices for the two exchanges are the same in every essential detail were some of the things brought out Friday morning by County Attorney Sibbigh when he took the deposition of J. A. Hall, secretary of the South Omaha exchange, in the alleged coal trust injunction case.

Mr. Hall denied that the exchange had ever attempted to fix prices or that it had ever fined a member as long as he had been secretary for violation of any of the regulations. He said the printed schedule to his knowledge was not addressed to by all of the members, but was frequently violated.

Mr. Hall said each member of the exchange filed with the secretary a schedule of prices he intended to charge his customers. These schedules were discussed by the members and then the president and secretary would go over them and place on the published list the lowest price charged by any of the members for that particular grade of coal. He said this was done in order that members might know the lowest price their competitors were charging, giving them a chance to come down to the same price. He denied the exchange had anything to do with fixing the price, but the members individually might

## CONVENTION TO DAVENPORT

**Iowa City Captures Next Meeting of Brotherhood of America.**

**OMAHA SESSION COMES TO A CLOSE**

Detroit, Michigan, is Close Rival for the Honor, but Not Strong Enough for Hawkeye Town.

The fourth biennial national convention of the Brotherhood of America completed its work Friday afternoon by the selection of Davenport, Iowa, as the place of meeting for the biennial convention of 1908. Detroit was a strong competitor for the honor, but the friends of the Hawkeye city were too strong for the Wolverines and Davenport won out easily on the final test.

Friday's session was devoted to the consideration of the report of the law committee and the recommendations contained therein, the result being a number of changes in the by-laws, submission for the payment of assessments by the local secretaries on or before the 15th of each month and to take from the president, secretary and one member of the board of directors the right to pass upon claims during the vacation period preceding or following the regular meetings of the full board and auditing officers. These were the most essential features in the changes of the by-laws, the others being of a minor character relating to the government of local lodges, submission of reports, payments of dues to the grand and supreme lodges and providing for a reserve fund.

Thursday evening the visitors were given a trolley ride about the city, extending as far as Florence northward and Hanson park southward. The meeting throughout has been one of the most successful in the eight years' history of the order, as well as one of the most largely attended.

## NEW MANUFACTORY IN OMAHA

**Wilson Bed Spring Company Will Launch a New Plant in the City.**

The Wilson Bed Spring Manufacturing company is to be incorporated with a capital stock of \$15,000 to manufacture spiral and woven bed springs and cots in Omaha. The company has secured a three-year lease on the old Hartman warehouse at Twelfth and Izard streets, a building of one story and 60x132 feet. Two cars of machinery and stock have arrived and it is expected to have the factory in operation October 15. Fifteen employees will be needed at first and this number will be increased to fifty or sixty in due time.

Omaha people now get their bed springs from Chicago and St. Louis, as do the inhabitants of all the country between this city and the Rocky mountains. These two cities have no competitors in this part of the country in the bed spring business. The consumption in this territory is enormous, being 150 springs daily in Omaha alone.

The organization of the concern grew out of the purchase by H. A. Wilson of the Iowa Spring Bed Manufacturing company of Carson, Ia. The incorporators will be Mr. Wilson and W. G. McKee, who was manager of the Iowa company. The foreman will be James Cummings, lately employed by the Logan Bed Spring company of Pittsburg, Pa. In addition to its manufacturing enterprise the company will engage in the jobbing of iron beds and feather.

## REGRET FOR TWO PIONEERS

**Resolutions Adopted by Society for Edward Rosewater and Dr. H. N. Link.**

At the regular monthly meeting of the Douglas County Pioneers association in the Public Library building Thursday afternoon, resolutions were adopted expressing the deep regret of the society over the death of Edward Rosewater of Omaha and Dr. H. N. Link of Millard. The resolutions were adopted by a standing vote upon the motion of Dr. Frederick Renner of Omaha. Judge Kennedy was chairman of the committee on resolutions. The attendance at the meeting was very large, many women being present.

**XRAY Stove Polish**

The brightest thing in store for your stove. It cleans, shines and polishes. It is safe for all surfaces. It is sold everywhere. **FREE SAMPLE** Write for it. Address Dept. 5, Lambert, Co. & Co., Agts., 11 Hudson St., N. Y.

**The Cough of Consumption**

Your doctor will tell you that fresh air and good food are the real cures for consumption. But often the cough is very hard. Hence, we suggest that you ask your doctor about Ayer's Cherry Pectoral. We publish the formulae of G. C. Ayer, Co., of all our preparations. Lowell, Mass.

## NO CONCESSIONS FOR OMAHA

**Answer of Hamilton and Claibough to Council on Gas Ordinance Proposition.**

Chairman Funkhouser of the city council lighting committee said Thursday morning he and the other members of the committee have had an extended conference with Messrs. Hamilton and Claibough, who are, incidentally, president and vice president, respectively, of the Omaha Gas company, was fruitless. Mr. Hamilton said he and associates had nothing further to offer the city of Omaha in the way of gas ordinances or concessions.

"Mr. Hamilton told me," said Mr. Funkhouser, "that if another company got into Omaha it would be case of one going into receivership; the one with the most money would win out."

The gas ordinance recently offered by F. T. Hamilton, G. W. Claibough and Thomas Dolan, virtually the Omaha Gas company, was of such a tenor that the lighting committee would not even bring it before the council except in an informal manner that the councilmen might know what was being done by the committee.

"The situation now resolves itself into the Omaha Gas company standing pat, offering a proposition which gives no general relief," stated Mr. Funkhouser.

Mr. Funkhouser is now working on a proposition which will at least compel the Omaha Gas company to furnish gas of a required quality, the test to be made by the city chemist, as is now being done in many of the larger cities.

Councilman Funkhouser believes the matter of gas inspection should be divorced from politics and a thoroughly competent man charged with the duty of seeing that the people receive from the gas company what they pay for.

An invitation extended to Messrs. Hamilton and Claibough to meet with the council at one of the general committee meetings has not been accepted, although it was offered some weeks ago.

## S.S.S. FOR THE BLOOD

The demand for S. S. S. has steadily increased since it was first placed on the market until it is now recognized as the greatest of all blood purifiers. It has won its way to success because **IT CURES ITSELF**, and there are few homes where "S. S. S. for the blood" is not a household saying. As the blood is the very life of the body, nourishing and supplying strength to every part, disease in some form is sure to follow when it becomes contaminated. Eczema, Acne, Tetter, Boils, Pimples and the various skin affections are due to an over-acid and impure blood-supply. Rheumatism, Catarrh, Scrofula, Chronic Sores and Ulcers, Contagious Blood Poison, etc., are all deep-seated blood diseases and will continue to grow worse and more dangerous as long as the impurities and poisons which produce them remain in the blood. In all blood disorders S. S. S. has proven itself a perfect remedy, and well earned the right to be called the greatest of all blood purifiers. It goes down into the circulation and forces out all poisons, impurities, humors, and unhealthy matter, and makes this life stream rich, pure and health-sustaining. S. S. S. reaches inherited blood taints and so enriches the circulation that diseases of years standing are permanently cured. It contains no harmful minerals and is nature's real blood purifier. Book on the blood and medical advice free.

**THE SWIFT SPECIFIC CO., ATLANTA, GA.**
