WE OFFER YOU A PARTNERSHIP IN A NECESSITY.

The biggest money-making concern in the country is one that sells a household necessity—something to use, something to eat, something to wear—and when that article is held in practical monopoly the profits that come, once the article has been introduced, are enormous.

A MONOPOLY.

The soap has been established for fifteen years. This company is incorporated under the laws of the state of Colorado. It owns outright the patent of Geyserite soap, an extinct geyser near Orleans, Neb.

SUPPLY IS ENORMOUS.

Twenty-five per cent of every cake of Geyserite Soap is made of this soap. Hence we have not the expense of other manufacturers and we make a larger profit.

Why Dollar Stock Is There Profit In Is Now 25 Cents Soap-Making?

Investors unfamiliar with the inside of large businesses often feel doubtful of the value of a stock that sells below par, but there is nothing unusual in this.
