some of the buyers of yesterday turned sellers.

Primary wheat receipts were 1,057,000 bushels and shipments 454,050 bushels and shipments 454,050 bushels, against receipts last year of 1,175,000 bushels. Corn receipts were 525,000 bushels and shipments 558,000 bushels and shipments of 433,000 bushels. Clearances were 515,000 bushels of bushels. Clearances were 515,000 bushels of wheat, 30,000 bushels of oats.

Liverpool closed 44,74a higher on wheat and unchanged to bid higher on corn. Proomhall estimates world's wheat shipments for Monday at 10,000,000 bushels. Exporters say bids for northern spring wheat are good, but they can't compete with northwest millers. Demand for Manitoba is good at increased limits.

CHICAGO GRAIN AND PROVISIONS

entures of the Trading and Closing Prices on Board of Trade.

Prices on Beard of Trade.

CHICAGO, Oct. 12.—Light receipts at the principal grain centers in the United States caused strength today in the local wheat market. At the close wheat for December delivery was up %c. Corn was up %c. Coats were off a shade. Provisions were 5677%c to 10c higher.

The wehat market was strong all day, bullish sentiment increasing as trading progressed. At the opening shorts and commission houses were active bidders and throughout the entire day demand continued urgent. Firm cables and continued light receipts in the northwest were the chief strengthening factors early in the session. Total arrivals today at Minneapolis and Duluth were 505 cars, compared with \$14 cars on the corresponding day last week. This was deemed significant in view of the extremely favorable weather for movement. During the last half of the day the market was further strengthened by the smallness of primary receipts, total arrivals today being 1.657,000 bushels, compared with 1.175,000 bushels the corresponding day one year ago. The market closed strong. December opened %2%c higher at 75%c to 145274%c, davanced to 75c and closed at 76%c. Clearances of wheat and

OMAHA, Oct. 13, 1996.

Supope sent builtish opinions on wheat the northwest, on light receipts, was fixed to buy. In consequence the local ract showed good buying of all months, echally May. Prices were 1996c above attrday.

Toolosional operations, influenced by the ivance in wheat, put corn up sharply. Terings were light and the buils made the bott of their opportunities. Weather control and there seems to be nothing to justify buying. The movement is rather free and the demand very moderate.

Receipts were liberal and prices did not fully sympathize with the movement in wheat. Early in the day there was some buying by scalpers, but the market did not take offerings very kindly. Eventually some of the buyers of yesterday turned sellers.

Primary wheat receipts were 1,657,000 bushels and shipments of 484,000 bushels. Cornected the state of the complete sellers are receipts last year of 1,173,000 bushels. Pelitical Uncertainties. LARGE INCREASE IN BANK RESERVE

Favorable Statement Fails to Stim ulate Speculation and Sluggishness Continues Until Session Ends.

NEW YORK, Oct. 13.—The tone of the stock market was heavy today and there was the same obsourity about the causes, as was the case yesterday. The gossip of the board room attributed it to political as was the case yesterday. The gossip of the board room attributed it to political uncertainties.

The added pressure after the appearance of the bank statement might seem to preclude the money situation as a motive for selling stocks, as the considerable addition to the surplus gives the index of a favorable statement, according to the method of professional stock market computation. The \$8,469,000 addition to cash reserves was considerably in excess of preliminary estimates. The excess was supposed to represent a correction of last week's discrepancy. The \$13,326,000 increase in loans was a somewhat formidable measure of the transfer of borrowings from foreign markets to this, which has been forced by the rise in foreign money rates. Account is taken also of the termination of the import movement of gold and of the completion of the deposit of the government funds designated for that purpose with the banks which haye furnished the means for the building up of the banking reserve up to this notice. have furnished the means for the building up of the banking reserve up to this point. The current of the domestic cash movement is still setting strongly from New York to the interior. Discounts rose again in London today and the Bank of England parted with \$3,800,000 more gold to Egypt. The foreign market is mostly

LONDON, Oct. 12.—Money was in quiet demand in the market today and supplies is were pientiful. Discounts were a shade easier. On the Stock exchange business was very light, but the undertone was firm. Glit-edged securities hardened fractionally, but home rails were depressed, owing to fears of further labor troubles. Foreigners were in scool demand, with Russians improving. Americans were inactive early in the day, but strengthened later on local support and closed at well over parily. Copper shares were casier. Japanese imperial sixes of 1904 closed at 100%.

PARIS, Oct. 12.—Prices on the Bourse today were weaker on realization, due to fears of dearer money. Russian imperial fours of 1904 closed at 71.45 and Russian bonds of 1904 at 484.90.

HOGS—When it was time for the market to open this morning there were hardly enough hogs is sight to really make a market. There were, however, some very urgent orders in hand and buyers were out in good season picking up the carly arrivals at prices fully 6c higher and in some cases fully loc higher than yesterday. The advance did not show so much con the top hogs as it did on the bottom partly because there was nothing especially choice in the way of light weights. As might be expected on a Saturday, the late arrivals did not sell to as good advantage as the early buyers not being as anxious for the hogs after the first orders were filled.

The present week opened on Monday with hogs selling a shade lower, but during the three days following prices gradually sid down hill, touching the low point of the week on Thursday, when the average of nill the sales was a strong the lower than the close of the previous week. Friday's market was a rifle stronger, while the advance noted today makes up most of the decline, so that the week closes with the average market not far from where it was on last Saturday. It might be noted in this connection, however, that while the average is practically the same, there has been some change in the prices paid for the different weights thus light hogs are not selling as high as a week ago, with heavy hogs a little higher. In other words, hours of different weights are now selling much closer together than they were last week.
