Sold in large sifting top cans at all grocers **10c**

Sent FREE on request, the helpful little booklet, "Hints for Housewives."

THE CUDAHY PACKING CO., O. D. C. Dept.  
South Omaha, Neb.

It is her business to see after the government property, and keep excursionists in order. She is reported to maintain perfect order and meet all requirements.

Miss Ida Pimoff, attorney and counselor at law, is the first woman lawyer to defend a prisoner in the Brooklyn courts. She made her first appearance last week, her client being a man accused of fraud in pretending that he could recover a stolen horse. Evidence was strongly against the accused, but Miss Pimoff by her cross-examination so tangled up the plaintiff that the court ordered acquittal.

It is said that the First Methodist church of Albion, Mich., is to be equipped with a new set of hats for its women's service can see for themselves whether or not their hats are on straight. This is because the hats which have been brought forward by some women who were requested to take off their hats on the occasion of the church service, could not be put them on straight when they left the church, without glasses to hold them in place.

The queen of mountaineers, Mrs. Bullock Workman, has added one more thrilling experience to her list of adventures by accompanying her husband on his great climb of 25,000 feet in Kashmir. Mrs. Workman is a woman of 35 years of age, 21,000 feet—higher than any other woman in the world.

The rarefied air at these heights is a new experience to her. She finds it distressing to sleep at night beyond an altitude of 15,000 feet, and she has experienced severe headache, breathing and she experiences severe headaches. But, curiously enough, the high altitude is not making her

The most famous expert in deciphering addresses in the dead letter office in Berlin is a woman, Mrs. Gertrude Schick. Her services are counted so valuable that she has twice been sent to Europe, for the purpose of recreation, so that her health may be maintained. She has held her post for twenty-five years; in her division she has supervised the work of 150 clerks. She has been so trained for her work that though her shelves are filled with city directories, she can find the address of any proportion of the streets in the leading cities, so that she is often able at a glance to find the result of the address of a misdirected letter. She is a fine linguist, as of course she must be. The amount of work she does in the dead letter office every year is astonishing. In one month this year the dead letter office took care of 1,000 postage stamps found in dead letters, and 1,000 postage stamps found in mail bags. The aggregate being \$5,228.66. In all 762,100 letters were received at the dead letter office during the period.
