be fined a cent a bushel for every bushel sold. That can't be done, a company has been discriminated against by the farmers. The farmers are closely allied and they discriminate against others more than they are discriminated against.

B. F. Rosenbaum, son of the man who had just testified, supplemented his father's testimony with more details, and the session was adjourned at that point.

A number of prominent Chicago Board of Trade members have been subpoenaed to the witness stand for tomorrow.

DEATH RECORD.

Rev. E. M. Buswell. BEATRICE, Neb., Oct. 15.—(Special Telegram.)—Rev. E. M. Buswell, one of the most prominent Christian Scientists of the United States, a student of Dr. C. C. Baker, G. Eddy of Boston and the head of the Christian Science church of Beatrice, died suddenly today. Years ago he established a church in this city and since that time has held annual meetings of Christian Scientists which have been attended by followers of the doctrine throughout the west and different parts of the United States. He served in the civil war, was 62 years of age, a pioneer of this section and leaves a widow. Funeral in this city at 2 o'clock Wednesday afternoon.

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them remedies of known composition.

By this bold step Dr. Pierce has shown that he is not afraid to subject them to the closest scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the favorite medicine for weak stomach, torpid liver or biliousness, and all catarrhal diseases wherever located, have printed upon it in plain English, a full and complete list of all the ingredients, but a small book has been compiled from the standard medical works of all the different schools of practice, containing numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines.

One of these little books will be sent free to any one sending address on postal card or letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, no narcotics, no agents or other poisonous or injurious agents, and that they are made from native medicinal roots of herbs, and every ingredient is the most valuable ingredients contained in the most valuable medicines known to man.

Dr. Pierce's Favorite Prescription for women, and debilitated women, were employed, long years ago, by the Indians for all ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Sassa-Weed." Our knowledge of the use of not a few of our most valuable native medicinal plants was gained from the Indians. As made up by the Indians, the state today endorses, the "Favorite Prescription" is a most efficient remedy for restoring all the wonderful functions, correcting disordered circulation, and restoring and preserving the health and bringing about a perfect state of health. Sold by all dealers in medicines.

BANKERS ARE AT ST. LOUIS.

Many Delegates with Wives Arrive to Attend American Association Meeting.

CUBA AND JAPAN ARE REPRESENTED.

Annual Convention Opens Tuesday and Will End Friday—Largest Convention for Town Since World's Fair.

ST. LOUIS, Oct. 15.—Hundreds of delegates, many of them accompanied by their wives, have arrived to attend the thirty-second annual convention of the American Bankers' association, which begins here tomorrow and will conclude on Friday.

The meeting is expected to be the largest convention that the city has entertained since the World's fair.

Among the prominent visiting financiers are Yellie Omo, superintendent of agencies of the Bank of America, and George C. Vaughan, president of the First National Bank of Cuba at Havana. Mr. Vaughan is an accredited delegate, representing Cuba.

Mr. Omo is investigating American systems of banking. Others here are G. S. Whitson, vice president of the National City bank, New York, and also the vice president of the association; Colonel James R. Branch of New York, secretary of the association, and William G. Fitzwilliam of New York, assistant secretary of the Columbia Trust company.

In conjunction with the convention program of entertainment, a banquet will be formulated for the delegates and it is anticipated that convention matters will not entirely absorb all the allotted time.

College Must Be on Sound Financial Basis, Says Count.

During the day Count Creighton spent a few minutes from the duties of hospitality for an interview with a reporter for "The Bee." He kindly faced questions of good nature as he received the congratulations of his numerous friends. He said: "For some time I have been thinking of putting Creighton college on a solid financial basis. The work there by the faculty is expanding year by year. There is nearly double the number of professors at the college now than there was ten years ago; and a large body of devoted men cannot live on air or promises. These men are doing an immense work for the state and country as they are willing to devote themselves to the good of others. I, for one, am pleased to be able to see that they shall not want a decent sustenance. I feel that I could not give to a better cause than to education of the youth of the state."

Count Creighton and his wife were of one mind in desiring to establish a free college, where those heretofore, as well as the more fortunate, could be educated without money and without price, a thorough and complete Christian education, such as would be given to the children of any walk of life. In its infancy this college was sufficiently provided for by the endowment left by its founder, but as its work and importance grew it became necessary to provide for its needs. Mr. Creighton, therefore, for a number of years he has been engaged in a study of the Christian endowment to him. But this day and this hour have increased this debt, for he saw the need of providing for the education and perpetuity of a work whose results have justified him. This is why he signifies that he will contribute \$400,000 to the college, by a princely gift whose magnitude will place the Creighton free college beyond the reach of any other institution of its kind in this country. He holds in his hand the deed for two pieces of property whose value approximates \$400,000. They are given for the specific purpose of supporting and maintaining Creighton college as a free institution, for the life of time.

Count Creighton, who is co-founder of Creighton university, in the name of the faculty and students, and in the name of the unborn generations which will profit by this beacon light of knowledge erected and maintained by the generosity of the Creighton family. May this institution live, may it flourish, may it endure, and may the author of this deed be permitted to see the fruition of his many benefactions and the fulfillment of his hopes, as well as to stand by the side of the charitable deeds, for the uplifting of mankind.
