Cornhuskers in Bad Shape and Worrying Over Game with Ames.

DEFEAT SEEMS LIKELY ON SATURDAY

Poster's Light Men in Uncertain Con dition, but Hope to Stave Off Crushing Blow from Heavy lownes.

LINCOLN, Neb., Oct. 17 .- (Special.) Speculation an to the outcome of next Saturday's conflict with the Ames Agriculturists is the absorbing topic this week in the camp of the cornhuskers. There is feat. In recent seasons the Ames aggregation has been fairly easy for the Cornheavier team, and one which also contains nore veteran players. Neither is Ames mation from lowa is that Coach Ristine, in addition to his tried foot ball warriors, as at least two or three young players, who are putting up a sensational game. Practice began at Ames two weeks earlier than at Nebraska, and the husky farmers have siready played four games in which they piled up no less than 199 points. No college eleven in the country has a record

college eleven in the country has a record equaling this, and it can be said truly that the Ames scoring machine, considering the handicap of the new rules, is a formidable proposition.

The Nebraska squad this year is by far the lightest in the history of the institutions. Coach Foster has tabulated the weights of his regulars and finds that the average is only 165 pounds, a figure nearly fifteen pounds below the Nebraska rule. Several of the players are practically inexperienced and, to add to Foster's wees, the squad now contains three or four cripples and it is doubtful if any of them will be able to participate next Saturday, Captain Mason, fullback, is one of the invalids, his chief ailment being an attack of rheumatain is out of the game for the remainder.

A measure of home has been insolved by

husky guard and also a colored boy, has not yet completed his examination, a requirement demanded by the faculty, but Taylor hopes to square his deficiences and get into action on the varsity eleven before the end of another week. Weller, tackle and halfbuck for two seasons, has been absent from the practice squad because industriously and has been given until the end of next week to don his foot ball suff. Neither Taylor nor Weller are possibilities for the Ames game, but their addition to Coach Poster's classes would help immediately in the preparations for Minnesota, Kausas and Chicago.

Foster is taking no chances of Ames getting wise to the new tactics his pupils are to use next Saturday, and the athletic field at the university has been deserted for practice purposes this week, the coach processing the content of the propagation of of

Ames Has Good Chance.

There is no gainsaying, however, just now that Ames has a good chance to take Nebraska's measure and to accomplish the Cornhuskers' defeat at home the first time since the memorable clash with Minnesota in 1900, when the Gophers were victorious by a score of 20 to 12.

The decision of the Nebraska board in the Johnson and Cotton cases has been a topic of decided interest. In discussing the decision in favor of Johnson, Dr. Lees, a nember of the board, said: "The decree of the board that Johnson

RIDS THE SYSTEM

The healthy color of the skin is given to it by the millions of little red corpuscles in the blood. These are the carriers of nourishment, health and strength to all parts of the body-in other words the very life of the blood. When the germs of Malaria get into this vital fluid they destroy these corpuscles and rob the blood of its rich, life-sustaining qualities, rendering it thin, weak and watery and unable to supply the system with the needed strength to resist disease. Then the symptoms of Malaria such as pale, sallow complexions, weak vitality, poor appetite, deranged digestion, a reneral "let down" condition of the system, and perhaps chills and slight lever, show that this insidious disease is gradually affecting the entire health. Malaria must be removed from the system through the circulation, and the medicine to accomplish this is S. S. S. It not only cleanses the blood of al! impure, unhealthy matter, but rids the system of Malaria, and restores the od to a strong, healthy condition. S. S. S., besides removing the germs of Malaria, builds up and gives tone and vigor to the entire system by its fine tonic effects. Malaria is a blood disease, and S. S. S. cures it because it is a perfect blood purifier. Book on the blood and any medical advice THE SWIFT SPECIFIC CO., ATLANTA, GA.

PLAYERS OFF RESERVATION LIST National Base Ball Commission Makes

CINCINNATI. Oct. 17.—The National Hase Ball commission decided today that in the future the names of players who have violated their contracts with major league clubs shall not be included in the reservation lists submitted to the commission and ordered that the names of the following players be stricken from the reservation list of National league clubs by the secretary of the commission:

Prom Brooklyn, Broderick, Owens, Reisling and Weigand; from Chicago, Sebring, from Philadeiphia, Ward.

Hereafter the above names will not be allowed on any reservation list until application has been made by the players for reinstatement and the same is granted by the National commission. New Rule.

II.—(Special Telegram.)—Despite the threatening weather the coursing meet at this place was well attended, the crowd being estimated at 1,550, and would have been twice as many had not rain threatened, but it cleared up and was an ideal afternoon for coursing. The rabbits were fine and contests fierce. The rabbits were fine and contests fierce. In the finals in the national derby Pat Raven was declared the winner with Charley Ross, a litter brother, as runner up, but how or why he won was with the ludge, as Charley Ross was regarded by spectators as well as dog owners as the winner. Another case was the decision that Counters Surprise lost out when she was not only the runner up, but made two of the three turns besides the kill.

The all-age stake, first round, was more satisfactory, as the dog owners and the public were better satisfied with the decisions.

Men employed in the building trades in Omaha are all busy and they will have all the work they can do this fall and winter, except when freezing weather prevents. In fact, the demand for men in most lines is greater than the supply and contractors are frequently much inconvenfenced by delay on this account.

The condition is the same all over the country. If it were otherwise Omaha would be overron with bricklayers and carpenters, for wages here are generally higher than in most of the cities of the Mirsouri and Mississippi valleys and considerably higher than in eastern cities. Only in some of the rapidly growing westand some of the California towns are wages very much better than in Omaha, and in these places the cost of living is said to be enough higher to balance the difference.
