It Conter with New York Chamber of Commerce and Draft a Bill to Be Submitted to Congress.

ST. LOUIS, Mo., Oct. 19.—The concluding day's session of the thirty-second annual convention of the American Bankers' association was marked by a series of discussions, multiplicity of moves and complexity of counter moves that at times occasioned absolute confusion when the subject of a currency reform plan was introduced. From the time that the opening speeches had begun, until today's session, the delegates had looked forward to, and, at times, impatiently clamored for the introduction of the currency topic, and when it was brought forward today the convention was ready and eager to struggle with it. And struggle it did for over an hour, finally culminating its efforts in the adoption of a resolution introduced by William George of Aurora, Ill., to refer the consideration and formation of a currency reform plan to a committee to be appointed by the executive committee, which shall confer with the New York Chamber of Commerce committee and submit a plan for enactment into a law by congress.

CONVENTION IN AN UPROAR

The moment the reading of the committee's report was concluded the convention was in an uproar. Resolutions were offered to adopt the report on a whole, another to refer it to a committee to execute it without recommendation, another to consider the sections on seriatim, and all the while delegates wildly clamored to discuss the subject and give expression to individually formulated plans. An hour's discussion was held, and the adoption of the resolution ended the matter.
