The laws of nature and heredity are fixed and invariable. Parents who are related by the ties of blood, or who have a consumptive tendency, or family blood taint, are sure to transmit it to their children in the form of Scrofula. Swollen glands, brittle bones, weak eyes, hip disease, pale, waxy complexions, emaciated bodies, running sores and ulcers, and general weak constitutions are the principal ways in which the disease is manifested. Those who have inherited this blighting trouble may succeed in holding it in check during young, vigorous life; but after a spell of sickness, or when the system has begun to weaken and lose its natural vitality, the ravages of the disease will become manifest and sometimes run into Consumption. S. S. S. goes down into the circulation and forces out the scrofulous deposits. kills the germs and completely cures the disease. It changes the quality of the blood by removing all impurities and poisons and supplying this vital fluid with rich, health-sustaining qualities. S. S. S. is a purely vegetable medicine and is especially adapted to systems which have been weakened and poorly nourished by scrofulous blood. Literature on Scrofula and medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Except in a few sections, where mind weather last winter left unsold stocks on hand, supplies of goods are not excessive. Hence a continuance of the active reorder trade is likely, weather conditions allow-ing. Perhaps the most active branch of wholesaling and jobbing is that of cotton goods, which are in heavy demand, with slow deliveries still complained of. There is allos a better tone to woolen goods, worsteds leading as heretofore. Prices are steady as a whole and the high range of all quotations does not seem as yet to be reflected in reduced sales. In general dis-tiributive lines the reports are almost uni-formly favorable. Industries return re-ports of great activity, the iron and steel, metal working, coke, cotton, other tex-tiles, furniture, carpets, and indeed, prac-tically all lines are published. Exceptions are found in shoes, which have not been as well ordered as a year ago for fall and winter, though exceess on last spring s account makes a net gain for the year as a whole. There is complaint that low prices of-Denver Seattle and the home team is prepared to put up a strong game, with the expectation of win-ning. Charles E. Möyer has been selected to act as referee. The Omaha High school has quite a number of new plays and ex-pects to use them. Coach Charles Brome and Mr. Bernstein expect the Omaha High school to win. Mempl ort Worth Richmond

## THE RELIABLE SPECIALISTS PROFIT BY EXPERIENCES OF OTHERS

DOCTORS FOR MEN

When you are sick and suffering with a disease that is sapping your life away you should not experiment with free treatment propositions or incom-petent doctors or specialists. It is then you need the very best, the most skillful and successful treatment. Come to the State Medical Institute, where you are sure to get the best.

you are sure to get the best. Don't wait until your whole system is polluted with disease, or until your nervous system is tottering under the strain, and you become a physical and mental wreck, unfit for work, study, business or marriage. With special dis-eases and weaknesses you cannot afford to delay. You must conquer them at once by the right treatment or they will fill your whole hit with failure, mis-ease and work.

ery and woe. Uncertain, improper or half-way treatment can only do harm. The worst cases we have treated were those that had been improperly treated before coming to us, some having been mained for hife by bungling surgical proced-ure. We cure by restoring and preserving important organs. We do not ad-vocate their mutilation or destruction in an effort to make quick cure. Every afflicted man owes it to himself, his family and to the future generation to get cured safely and thoroughly. We will make a thoroughly, searching and scientific examination of your all-ments, an examination that will disclose your true physical condition, without a knowledge of which you are grouping in the dark. We want all alling men to feel that they can come to this institution freely for an examination of their condition without being bound by any obligation whatever to take treatment unless they desire.

we cure safely and thoroughly.

Members of Both Teams Confident of

Victory.

LINCOLN, Oct. 19.-(Special Telegram)-Nebraska university and Iowa State college Nebraska university and Iowa State college at Ames are to meet tomorrow on Ne-braska field in the first practical test of the new rules in the west between teams evenly matched as to weight and represen-tatives of this section. The Ames aggies reached Lincoln tonight in trim for the conflict and fairly confident of victory. A stiff signal drill this afternoon put the final touches on the Cornhuskers' prepara-tions. Coach Foster has coached his proteges to the minute and if the Corn-huskers are beaten it will bring both shock and strates to the Nebraska camp. Cap-
