Business thus far in October has far distanced October of last year, which at the time was thought a very good month. Trade runs along with the same heavy volume as last year, and the weather continues, with a few exceptions, to be favorable. This week or next the month will go on record as the biggest October in the history of local jobbing. The volume of goods business was heavy, shoes, house furnishings, groceries, hardware, etc., kept busy and grocers and druggists say their business was all that could be expected in addition to the fact that they had nothing to complain of in the way of collections.

A year ago the Horse show brought a goodly number of retailers to the city and they were all well pleased with the results. It was a success and perhaps more, will visit the city next week on account of the Horse show.

Dry Goods Advance Again.

All lines of staple dry goods are firm, due partly to the unparalleled consumption and partly to the fact that the heavy volume of goods business has been maintained. The jobbers say their business is all that could be expected in addition to the fact that they had nothing to complain of in the way of collections. The price of all bleached goods has been advanced 1/2 and 10 per cent. It is believed higher prices are expected. Underwear and hosiery are sold up and are exceedingly popular. The price of the week in their collection department.

Higher Price for Glass.

The window glass market continues strong. Factory prices have been raised 1/2 and 10 per cent. It is believed jobbers will be obliged to advance prices as a result of the action on the part of the manufacturers. The price of glass is also firm and is up from 5 to 10 per cent. The demand is good for both kinds of glass. Local supply is ample and the market is quiet. The price of glass is also firm and is up from 5 to 10 per cent. The demand is good for both kinds of glass.
