Receipts Smaller in Northwest and Cash Demand Botter - Wet Weather Causes Advance in Corn.

OMAHA, Oct. 23, 1998.
The wheat market was strong today, closing at the top noich, %c above yesterday, a good many traders went short yesterday, as as ilverpoid early snowed a irm tone, they covered this morning. The opening was unchanged, but prices were bid up and remained drou throughout the day. That the continential markets were lower was offset by the buillah tenor of the greekly crop summary of the European bountries.

was offset by the buillan tenor of the preckly crop summary of the European countries.

Receipts were considerably smaller in the northwest than a year ago and the cash demand was a little better. Bradstreets weekly world's visible supply report showed a smaller increase than a year ago.

Wet weather and predictions of a continuance of it gave a stronger tone to corn and prices were advanced the Frimary receipts were about twice as large as last year. Cash prices were unchanged.

Primary wheat receipts were 1,229,000 bu. and shipments 35,000 bu. against receipts last year of 1,25000 and shipments of 556,000 bu. Corn receipts were \$24,00 bu., and shipments \$35,00 bu., against receipts has year of 11,500 bu., against receipts has year of 11,500 bu., and shipments of 356,000 bu. Clearances were \$25,000 bu. wheat, \$25000 bu. Clearances were \$25,000 bu. wheat, \$25000 bu.

Liverpool closed unchanged on wheat and \$354,000 bu. Clearances were \$25,000 bu. The car shortage as a factor is becoming more apparent every day. Dealers are refusing orders from the coast for the present or until conditions become such that they can be sure of their grain being shipped to its destination in quick time. The congestion cost is still unrelieved and west of Chicago, particularly in the northwest, the situation at different towns throughout the northwest.

Peatures of the Trading and Closing Prices on Board of Trade.

CHICAGO, Oct. 22.—Small receipts in the northwest and a comparatively small increase in the world's visible supply of breadstuffs caused strength in the wheat market here today. At the close December wheat was up 'sc. Corn and oats were each up 'sc. Provisions were unchanged to fic lower.

Despite a slight decline in the price of wheat at Liverpool the market here opened dirm and as the session advanced sentinent became still more builism, the market closing strong, with prices close to the highest point of the day. The feature of trading was active covering by shorts. At the opening the market was affected by the small movement in the spring wheat country also aided the buillah sentiment, it being claimed that wer weather will greatly retards the free massages as the new-crop. Later in the day the market was further retrengthened by the publication of Braderestests, report on the world's available Later in the day the market was further strengthened by the publication of Bradstrets' report on the world's available stocks of wheat and flour. This showed an increase for the week of only 3.05,600 bushels, compared with an increase of 7,672,000 bushels for the carresponding week one year ago. A report from New York claiming that exporters there were buying wheat for December and May delivery added to the late strength of the market. December opened a shade to 160 to 180 and then advanced to 180 c. Final quotations were at 734,673%c. Clearances of wheat and flour work equal to 316,900 bushels. Primary receips were 1,229,000 bushels. Primary receips were 1,229,000 bushels, against 1,805,000 bushels for the corresponding day one year ago. Minneapolis, Duluth and Chicago reported receipts of 371 cars, against 1,005 cars has week and 1,076 cars one year ago.

Trading in the corn pit was dull because of lack of offering, but the tone of the market was firm because of wet weather in various sections of the corn belt. Shorts and pit traders were the principal bidders. The market closed firm, with prices at the highest point of the day. December append the higher at 425474c, advanced to 434c, where it closed firm. Local receipts were 22 cars, with 212 of contract

ceipts were 22 cars, with 22 of contract hands.

Wet weather and an increase of only picture was a state of the visible supply, compared with an increase of 3,722,000 bushels for the corresponding time a year ago, caused strength in the oals market. Shorts were the chief buyers. December opened a shade to his higher at 224 to 324,200 kg, advanced to 334,00 and closed at the highest point. Local receipts were 271 cars.

Provisions were inclined to weakness because of a 520 cecipit in the price of live hogs. Profit taking by a leading long was a feature of the market. There was also considerable selling by commission houses. At the close January pork was off seat 12,524, Land was unchanged at 2,234, Ribs were a shade lower at 57,434, Estimated receipts for tomorrow: Wheat, 33 cars; corn, 135 cars; oats, 270 cars; hogs. 31,000 bead.

LONDON, Oct. 23.—Money was in good demand in the market today and rates were firm. Discounts were slightly easier. While must bushness on the Stock exchange was restricted to the arrangement of the settle-woment, the recent more cheerful feeling was strengthened by the announcement of Secretary Shaw's plan for the relief of the firmoney market. Conseig and kindred subject securities were marked up under more confident investment purchases, but they eased later, owing to realizations on a further shipment of gold to Egypt. For it eigners benefited by Paris support. Americans were inclined to weakness. There has been been parity early in the day, but Secretary Shaw's statement caused renewed buth support and prices the picked up half a point immediately and ruled steady at noon. New York failed to respond to this advance and in the afternoon sent casier prices, whereupon the market sagged and closed weak. Japanese imperial is of 1904 closed at 100%.

BERLIN, Oct. 23.—Trading on the Bourse today opened steady and later became very firm on better advices from London and New York regarding the monetary situation. Russian imperial is closed at 72.00 and Russian bonds of 1904 at 464.

SHEEP-When the market opened this morning only four cars were in sight, one double-seek of killers and three of feeder lambs. Only seven cars were reported back no one knowing when they would arrive. The light receipts, as a matter of course, are the result of the severe storms in the west, which have temporarily at Eleast shut off the supply. There are quite a number of sheep scattered along at the different feeding attaines on the relipond lines, but so far as can be issued not senough to prevent there being an absolute generaty is the supply until the railroad lines in the storm district are again in a good working order. There was some talk hamong sheep men this morning that the

severe storm in the range would undoubtedly turn many thousands of sheep back that would otherwise have been forwarded to market. In other words, a good many anticipate that the receipts for he remainder of the mounth will be lighter at all points than would have been the case had milder weather continued.

The few killers on sale this morning brought very strong prices. Just how much higher is a difficult matter to say, but they were certainly high enough to sait anyone. Heavy sweet of good quality wild up to \$5.50, the best price paid for sweet in a long time. The lambs brought \$7.50, which was also higher than has been paid for inmbs at this point in some fittle time. There were not enough feeders here to excite any interest among buyers. The few loads were drenched after being exposed to continued rainfall juring transit to the yards and, as noted yesteriar, buyers have scruples against paying lamb prices for water. Hance the trade was without any special interest of any kind whatever.

FOR THE PARTY AND THE PARTY OF the deliars of anyone who cares to enter on the venture. Here is his letter to The Bee:

WHITE PIGEON, Mich., Oct. 22.—To the Editor of The Bee: After much serious meditation I have decided to ask the assistance of your influential and worthy paper.

I feel that it is only for the want of meeting the right party that I am handicapped in going ahead, and know that providing the facts were made known to the public, some one would make a bearty response to aid. I am a young inventor of commanding appearance and sociable nature, combined with a far seeing mind and practical ideas as to the want of the people in this fast age, but am compelled to let my greatest ideas lay dermant for isok of capital to market same.

I have made preparations here to start the manufacture of an electric range or stove that possesses merits beyond the understanding or ordinary individuals.

It has undergone a practical and thorough test and proved its worth.
It cooks, roants, bakes and frys everything imaginable for the human desire.

The focd prepared in it becomes the perfection of wholesome nutriment and delicious flavors, and will prove of great vil or to humanity, and a cure for dyspeptics and food cranks. It is constructed in such a manner that it costs less to operate than a coal stove, besides reducing kitchen work to a pleasure. Here is a great opportunity for some one to get interested in the greatest mechanical invention of the present set mechanical invention of the present set mechanical invention of the present set and in recompense for your time in putting the matter before your readers I will present you with one of my sieves.

The fact of the reader me, I beg to remain very respectfully.
