

Your Grocer has it now

PILLSBURY'S BEST Cereal, Vitos

The white heart of the wheat. A 2 lb. package retailing at 15c, when cooked makes 12 lbs. of dainty creamy white food.

Made by the man who makes "The Flour"

FOR BREAKFAST— Stir slowly one half cup into two and one half cups of boiling water, salt to taste and boil 15 minutes. If too thick add boiling water. Serve hot with cream and sugar. When cold it makes a delicious luncheon dish, fried and served with syrup. Numerous dainty dinner desserts can be prepared with fruit and jelly.

BRIDGES BOOSTS OLD LAW

Ordinance Defines Gas Tank Limit - Strengthened Present Law

OBJECT TO GET BEYOND RESIDENCE LINE

Curvatures of Connellmen Indicates New Bill Will Not Meet Serious Opposition from Any Member.

Councilman Bridges' ordinance, introduced at the council meeting Tuesday evening, defines certain limits within which tanks or other receptacles for the storage or manufacture of fuel or illuminating gas may be erected, prohibiting the alteration of such places already established in the city and precludes the conversion of other places within the proscribed limits for purposes referred to. The object of the ordinance eventually is to remove all gas plants and tanks to points well removed from the residence district. A canvass of the councilmen indicated the ordinance would not meet with much if any resistance when placed on its way for final passage.

The proscribed territory is enclosed by a boundary line starting from the northwest corner of the city limits to Sherman avenue, south to Bell street, thence to Thirtieth and Nicholas, south on Thirtieth to Capitol avenue, east to Ninth, south to Pacific, east to Sixth, south to Pierce, east to Second, south to the ave. of Bulfinch, thence north to the ave. of Bulfinch, thence east to the first point referred to. This territory includes nearly all the city.

Consent of Property Owners.

The ordinance which this one if passed would displace provides that the consent of all property owners within a radius of 100 feet shall first be obtained before the city building inspector shall grant a permit for the erection of any building for gas manufacturing or storage purposes. Two months ago Building Inspector Withnell was cited to appear before Judge Day to show cause why he should not grant the Omaha Gas company a permit to erect a large tank in Twentieth and Center streets. The building inspector stood upon the ordinance and showed that the gas company failed to present the required signatures of property owners. The gas company held the ordinance would not hold inasmuch as the company merely wanted to add another tank to a battery of three already established at the same location.

Judge Day ruled in favor of the city and the case was set for the supreme court and argued four weeks ago. A decision will be rendered at the next sitting of the court. Bridges' ordinance, now pending, will

strengthen the old ordinance and which ever way the supreme court may decide in the case now before it the city will have another and stronger ordinance regulating the establishment of gas plants.

PASSION FOR DESTRUCTION

Mania for Wrecking Household Lead - Joe McDermott into Court Where He is Fined.

The penchant of Joe McDermott, who boarded with Mrs. McGreal at 1730 South Eighth street, for destroying the furniture belonging to his landlady has been the means of his appearing before the people's bar twice within the last week, although he must be credited with having varied his usual performance considerably. Tuesday night he returned home after work and attempted to complete the undertaking of breaking up housekeeping for Mrs. McGreal, which he started last Friday night, when he piled all the furniture in the middle of the room and threatened to set fire to it, for which offense he was fined \$5 and costs by Judge Crawford in police court last Saturday.

Tuesday night he completely wrecked the furniture in the house, causing damage to the extent of \$100, and as a fitting finale tore down the stove, which had a blazing fire in it, filling the house with smoke so thoroughly that the officers could not see through it. They came to take him into custody. Officer Frank Murphy testified that he never saw a house so completely and thoroughly wrecked and that McDermott was an artist in his line. McDermott tried to burn the landlady out of her house and home last Friday. As a result of the last episode McDermott's incendiary inclination will be curtailed for the next ten days while he enjoys the hospitality dispensed at the county jail.

Quick and Safe Remedy for Bowel Complaints.

Twenty years ago Geo. W. Brock discovered that Chamberlain's Colic, Cholera and Diarrhoea Remedy was a quick and safe cure for bowel complaints. "During all of these years," he says, "I have used it and recommended it many times and the results have never yet disappointed me." Brock is publisher of the Aberdeen (Md.) Enterprise.

Births and Deaths.

The following births and death were reported to the Board of Health during the twenty-four hours ending Wednesday: Births—John Robb, twenty-eighth street and Crown Point; Oscar Blum, 1924 North Nicholas; boy, Luther Czech, 953 York; twenty-seventh; boy, Francis Kocourek, 1214 North Twenty-fifth; boy, E. J. Hamlin, 324 Farnam; girl, Winnetta Hollivaine, 314eward; girl, Frank Kocourek, 1214 North Twenty-fifth; Andrew Sosenquiat, 227 California; boy, Death—Simon Williams, 92 North Forty-fifth avenue.

Creates Sensation in New Orleans

L. T. Cooper, the young philanthropist, who with his strange new medicines has been exciting much attention from newspapers all over the country, now has New Orleans in a storm of enthusiasm over its remarkable work. The sales of his preparations has reached enormous figures and the wonderful cures of stomach trouble and rheumatism accredited to his medicines, which were at first the subject of much conjecture, have become so common that their genuineness can no longer be doubted.

His theory that fifty per cent of the so-called stomach trouble is due to immense parasites, or tape worms, is verified in nearly every case reported. Whenever he goes people bring to him glass jars and dishes containing these parasites which have been expelled from their systems by his medicines. Nearly three hundred of these cases are reported from New Orleans and in almost every instance the patient had been unaware that his suffering was caused by anything more than ordinary stomach trouble.

Mr. A. B. Halle, a prominent business man of 143 Canal street, New Orleans, is authority for the report of one of the most remarkable of these cases. According to his statement, Mr. Halle had been a sufferer from a severe affection of the stomach for the past six years and had been treated by physicians who diagnosed his case as one of tape worm, but whose treatment failed to relieve him. Speaking of his experience with Cooper's preparation he said: "My case has been a stubborn one and nothing I could do seemed to alter my condition. Several physicians treated me without result and when Cooper's medicines began to create so much attention I determined to give them a trial. The worm which they expelled from my system measured nearly fifty feet in length and as soon as it was rid of the horrible thing I began to improve." Upon being asked about the attendant symptoms he declared that they are much similar to those of any stomach disorder, a variable appetite, dizziness, spells, headaches, constipation, nervousness, and a continual languid, tired worn out feeling being the most common, while one of the surest signs is dark spots that appear to float before the vision after stooping over. It is estimated that one hundred thousand bottles of Cooper's Medicines have been sold during his visit in New Orleans and judging from the space devoted to his work by the newspapers of the city Cooper is the talk of the town.

L. T. Cooper, it will be remembered, is the man who created such turmoil in St. Louis a short time ago, where he is said to have sold nearly a quarter million bottles of his preparations.

At the Boston Drug Co.'s drug store, the local agency for Cooper's medicine, it is said that the sales of his two remedies, Cooper's New Discovery and Cooper's Quick Relief, have become enormous and that the most gratifying reports have been received from those who have used them.

SOME MARKET HINTS

Tender little home grown green onions and fresh, crisp lettuce are difficult to reconcile with bleak late October, but they are in the market and have been all week, although the wet weather has prevented the gardeners bringing them in regularly. Of course, they are hot bed and hot house products, but they are as tempting or more so than they were last spring. The onions sell for 5 cents a bunch and the head lettuce at 10 cents a head. Another week or so will bring most of the garden truck or the south. The first of the Turkish figs came in Wednesday, and sell for 15c cents a pound. The first carload of New York apples arrived Wednesday morning and will sell from \$1.50 to \$1.75 a barrel, according to variety. Quinces are scarce and high priced in proportion, selling for 10 cents a pound.

The scarcity in oysters and the corresponding advance in price has not materially affected the retail market as yet. Bulk oysters sell for 40 cents a quart and "cold" for 45 cents a quart; select, 50 cents a quart.

Two Luncheon Recipes.

SWEET RICE BALLS—Wash thoroughly one scant cupful of rice in cold water, put in a double boiler, with one point of milk, cover and cook until soft. Add one teaspoonful of butter, two tablespoonfuls of sugar, salt to taste, and the well beaten yolk of an egg. Well knead the mixture in the center of a large, a candied cherry, or a little stiff jelly. Dip in egg, roll in crumbs and fry smoking hot fat. Drain and roll to powdered sugar before serving.

FRILLED CHICKEN—Select for this a fowl rather than a chicken, as the long cooking will make it tender. Since clean and cut it up as for a fricassee, put in a kettle with one-half of a small onion, stuck with a clove, and one stalk of celery, cover with boiling water and simmer until the meat falls from the bones, adding one teaspoonful of salt when half done. Take out the chicken and cook down the liquor to three-quarters of a cupful, then strain it and skim off fat. Lightly butter a mold and decorate the bottom and sides with slices of hard boiled eggs and sliced olives. Free the meat from the skin, bone and fat, and pack in mold, sprinkling with salt, add the liquor and set aside to cool.

NIGHT SCHOOL SEASON HERE

Season Opens Monday Night at Kellom and Commencin, Same Buildings Used Last Year.

The regular night school season in the public schools will begin next Monday evening at Kellom and Commencin schools. The sessions will be from 7:30 to 9:30 on Monday, Tuesday, Wednesday and Thursday evenings. The season will last five months. No tuition fee is charged and all persons 15 years of age or over are permitted to attend. For several years the public night schools have proved a valuable adjunct to the public school system of Omaha.

Announcements of the Theaters.

George F. Hoyt has written some of the best stuff that ever went into print, and part of this is for the newest of musical comedies, "Coming Thro' the Rye." With a book by H. Hart and music by A. Baldwin Brown, the brilliancy of the piece is assured. Then with a company made up of competent people, the general success is certain. Will J. Block is directing the piece, and has provided an organization fully equal to any that ever went out for the purpose of delighting the world with music and fun. The engagement begins at the Boyd this afternoon, and continues the rest of the week, with a matinee on Saturday afternoon.

The regular shoppers' matinee will be given at the Burwood this afternoon, "Mr. Smooth" being the bill. This offers a fine chance for the women, especially those from out of the city, to spend a pleasant hour at the theater after making the rounds of the stores and shops.

A fine treat is promised the clientele of women who attend the midweek popular price matinee at the Orpheum on Thursdays at the performance this afternoon. "The House of the Rising Sun" is especially in vogue, and will give the greatest range of any singer on the stage will shortly join the Metropolitan Grand Opera company, New York, and it may be a long time before the eminent singer will be booked here again. Miss Theresa Best with her two famous vocalists, an appropriate horse show week attraction, are scoring heavily.

Williams and Walker in their all new production "Abyssinia" will be in attraction at the Krug theater for the remainder of the week starting tonight. The piece is bristful of music and is staged more elaborately than any piece in which these popular comedians have heretofore been seen. The management wishes to state that there is still plenty of good seats and that they will be able to take care of most of their patrons. The vaudeville closes Saturday night. There will be a matinee on Saturday.

COAL DEALERS GIVE BOND

Members of Alleged Trust Under Indictment Put Up Thousand Each.

BILL CONTAINS NINE DISTINCT COUNTS

Grand Jury is Investigating Alleged Cement Trust, Secretary of Which Cannot Be Reached Just Now.

Coal dealers against whom trust indictments were returned Tuesday afternoon by the county grand jury have been going into court and giving bond for their appearance in court when wanted. Judge Sutton has fixed the amount of bond at \$1,000 for each defendant and in order to expedite matters, the coal men have been ordered to appear at 9 o'clock in the morning or 1 o'clock in the afternoon in order not to interfere with the regular session of the court. A special session was held Tuesday night in order to enable those who wanted to be furnished bond. The dealers named in the indictments are: Joseph T. Beatty, Jeff W. Bedford, Carl Brandeis, Leon W. Bunnell, George C. Hanlock, Charles K. Coustant, George C. Squires, Samuel E. Caldwell, Randall K. Brown, Arthur W. Roscoe, Harry Christopher, Alfred Hald, George D. Rice, Luther A. Harmon, Joseph C. Weath, Harwell T. Lemist, George P. Cronk, Edward E. Howell, Charles S. Johnson, John P. Keboe, Isaac Levi, Leroy E. Lucas, F. W. Neal, Morris Rosenblatt, Samuel E. Howell, Taylor J. Wells, William C. Ballard, John E. Tetard, Edward E. Le Beau, G. Frederick Elmsler, Alfred A. Pardon, Alva B. Cook, Robert J. Atchison, Samuel A. Corner, William T. Shackelford, Hiram H. Dickey, John J. Thomson, Arthur W. Partridge, Patrick C. Heafey, James S. Monaghan, Ernest A. Blum, Edward Mcenna in Wednesday, George B. Corrigan, Charles W. Hull, Talbot D. Dakin, James A. Sunderland, Lester T. Sunderland, Tom Collins Haven, George W. Megeath and William R. Wood.

Nine separate counts. The indictment is a bulky document and consists of nine separate counts, each naming a specific violation of the state anti-trust laws. Count one charges in general terms a combination to fix prices and restrain competition. Count two relates specifically to an alleged combination through the Omaha exchange to prevent competition. Counts three and four cite two sections of the constitution and by-laws forbidding soliciting by clerks, agents or otherwise or by letter except by printed postal card, and count five charges violation of the law in enforcing the regulation referred to in counts three and four. Count six charges the defendants, through the exchange, about September 14, raised the price of anthracite coal from \$12.50 to \$13.50 by conspiracy and in violation of law. Count seven charges in general terms a conspiracy to raise the price of coal, and count eight charges a violation of law in fixing the price of anthracite at \$13.50. In count nine the schedule of retail prices on coal, printed by the authority of the exchange and circulated, is set forth in a separate appendix.

Considerable difficulty has been encountered in the alleged cement trust investigation owing to the absence from Omaha of H. A. Doud, secretary of the alleged combination, who is now in Chicago. For the Tuesday afternoon, and inquires at his house brought out the fact he was away on his vacation. The officers were unable to find out where he is. He is one of the principal witnesses in the inquiry relating to the investigation of the building material dealers.

The argument on the motions in the Coal trust civil suit before Judge Troup which were to have come up Wednesday morning, was put over until Thursday morning, as the several parties interested could not be present Wednesday.

Mr. Doud is deputy collector of the

Cement Trust Inquiry.

City Engineer Rosewater, another guest of the exchange, arranged the Omaha Electric Light and Power company for its so far successful efforts to maintain a monopoly on electric power. Its recent public statements that it is furnishing electricity cheaper than power could be furnished by the city, have been denounced as untrue. He made a long presentation of statistics to show that water power is cheaper and expressed himself in favor of a canal to break the present monopoly.

Commissioner Ure was called on. He said that when the new levy is made next August the city will have the entire levy for the year before it and no back debts to pay. He predicted a reduction of 2 to 4 mills in the levy.

FINK PREDICTS THREE MILLS

Treasurer Says Finances Are Such that Levy Will Not Exceed that Figure.

That Douglas county and Omaha city finances are in much better condition than they have been for years was shown by County and City Treasurer Fink in a talk before the Real Estate exchange Wednesday.

This good financial condition is due, he said, to the scavenger tax law and economical administration. The county had \$215,000 warrants outstanding in 1904, \$177,000 in 1905 and in 1906 it has warrants out only to the amount of \$55,000. The general fund warrants are held by Douglas county, so that today not \$1 interest on the general fund is paid to anyone other than the county. He said \$70,519.31 had been realized from the operation of the scavenger law from 1903 and previous years. Of this \$49,565.85 had gone to the city, \$15,126.78 to the county and \$5,826.74 to South Omaha. For 1904 about 98 per cent of the local taxes had been collected, he said, a showing never made before.

Due to its income from the sale of property under the scavenger tax law the city has redeemed and retired long-time bonds to the amount of \$10,000, special improvement bonds to the amount of \$15,000 and has transferred \$15,000 to various funds, besides paying judgments to the amount of \$10,000 and interest to the amount of \$11,000.

"I believe Douglas county can in another year," said Mr. Fink, "reduce the tax levy by 3 mills if you have a body of business men as county commissioners."

Commissioner Ure was called on. He said that when the new levy is made next August the city will have the entire levy for the year before it and no back debts to pay. He predicted a reduction of 2 to 4 mills in the levy.

He made a long presentation of statistics to show that water power is cheaper and expressed himself in favor of a canal to break the present monopoly.

Commissioner Ure was called on. He said that when the new levy is made next August the city will have the entire levy for the year before it and no back debts to pay. He predicted a reduction of 2 to 4 mills in the levy.

City Engineer Rosewater, another guest of the exchange, arranged the Omaha Electric Light and Power company for its so far successful efforts to maintain a monopoly on electric power. Its recent public statements that it is furnishing electricity cheaper than power could be furnished by the city, have been denounced as untrue. He made a long presentation of statistics to show that water power is cheaper and expressed himself in favor of a canal to break the present monopoly.
