SPORTS OF A DAY.

Winter Yarns of Summer Doings.
So far as base ball records go the most expensive drive ever made on a ball ground occurred in Cincinnati some years ago, when Sam Rice, who was then playing with Chicago, swanned a home run over the fence of the park in a saloon, the occupants of which always thought themselves protected but the awning was dear. On the Saturday afternoon in question, Chicago needed a couple of runs, and there was a runner on first and the ball cracked like a pistol shot, and away soared the sphere at a clip of 30 degrees.

Passing over the fence it tore up a mechanical advertising apparatus costing over \$50, and still unimpeded, smashed through a plate glass window struck the center of a table, breaking up a pinocchio game, and then bounded over the bar into the cut glass ware on the shelves, and when the wreckage had been cleared up a bill was presented to the house management for \$4 damage. The ball now hangs in that saloon as a trophy.

President Charles W. Murphy of the Cubs is in favor of a longer series of games for the world's championship than that now in vogue. Instead of the four out of seven games, as in the recent contest between the Sox and the Cubs, Mr. Murphy suggests a series of seven out of thirteen, or at least five out of nine. The Cubs' president has communicated his desires to the national commission.

Mr. Murphy's suggestion has been met with the suggestion he was not actuated by the spirit of disappointment over his team's defeat by the Athletics, but that his study of base ball has shown him that in a short series the best players would be in the result. As examples Mr. Murphy points to the last New York-Detroit series, when the Athletics were beaten three straight by the Tigers, and to the series here between the Cubs and Brooklyn, when the victors cleaned up three straight games.

Jim Jeffries, retired champion heavyweight of the world, and Philadelphia Jack O'Brien, who defeated Jim Trumble and Fred Cooley at the Pacific Athletic club pavilion last Tuesday night, have agreed to give an exhibition boxing match for the benefit of the Simpson relief fund, which will be held in the Simpson auditorium November 23 and 24. The exhibition (catchweight) will referee the contest.

Creighton has a hard game for Saturday when the State Normal school team will come from Peru to meet the blue and white boys of Omaha. The campus has been in bad shape all week, but this has not stopped the men from practicing, and they have got in some good work. The hospital is being rapidly reduced and most of the men who have been laid up for repairs are again in the lineup. Captain Lampher is again back in the game and Dick Coad has also reported for duty. Peru made a good showing against the strong Doane and the game will be scored to 11 to 4. Saturday's game will be called at 3 o'clock.

GANS AND HERMAN MATCHED
Articles Call for Fight Between
CHICAGO, Oct. 26.—Articles calling for a final fight between Joe Gans and "Kid" Herman of Chicago were signed here today. The terms are 12 rounds over 10 hours before the fight, the winner to receive \$5 per cent and the loser \$1 per cent of the purse, the fight to take place for the third time.

CORRELL TEAM IN NEW YORK
Husky Athletes from Ithaca Ready for Battle with Princeton Today.
NEW YORK, Oct. 26.—Thirty Cornell university foot ball players, coaches, trainers, led by Glen Warner, the head coach, and accompanied by nine other times that number of enthusiastic students from Ithaca, arrived here late today for the big game with Princeton on the Polo grounds tomorrow.

Iowa Students Cheer Athletics.
IOWA CITY, Ia., Oct. 26.—(Special Telegram.)—Iowa university students joined in a mammoth mass meeting here tonight, at which university athletes and officials delivered informal addresses and the team was cheered to the echo. Anticipation (such as an) for the morning and the Tigers in Cedar Rapids tonight and will arrive in the city tomorrow noon Iowa's team averages 164 net, or about seven pounds less per man than the Michigan team.

WITH THE BOWLERS.

The O. D. Ks. won two games from the Dietz Athletics last night at the association alleys. The Dietz boys were without their captain, but put up a good game, and are showing steady improvement for a new team. Norene had both high total and single game, with 98 and 233. The score:

O. D. Ks.			
1st	2d	3d	Total
Neale	102	102	204
Neale	113	113	226
Molyneux	139	139	278
Gjerde	159	159	318
Sprague	182	182	364
Totals	595	595	1190

DIETZ ATHLETICS			
Chetlain	141	141	282
Catherwood	128	128	256
Kidson	141	141	282
Korene	141	141	282
Totals	551	551	1102

On the Metropolitan alleys last night the Omaha Bicycle company took three games from the Arnouza. Moore of the Bicycles bowled a pretty game, being high on totals with 588. Singler of the Arnouza had high single game with 265. Score:

OMAHA BICYCLE CO.

Cap Race in 1906.
NEW YORK, Oct. 26.—The Evening Post today says there will be no race for the America's cup next year. There will, however, be a race for that historic cup in the summer of 1907, unless the New York Yacht club refuses to meet the challenge a fraction of half way, which is unlikely. Both the foregoing statements may be accepted as coming from the best sort of authority.

Philadelphia Golf Champion.
PHILADELPHIA, Oct. 26.—Mrs. Ronald H. Barrow today won the golf championship of Philadelphia, defeating Miss Frances Stracom of the Marion Cricket club by one up.

STORM BLOCKS THE CAMPAIGN
Speakers Snowbound in Wyoming and Most of Meetings Are Abandoned.

CHEYENNE, Wyo., Oct. 24.—(Special.)—The recent severe snowstorm interfered seriously with the political campaign which has been on in this state for several weeks. Several campaign tours were abandoned and speakers in the districts remote from railroads are now snowbound. Numerous meetings have been postponed or abandoned altogether.

The people of Wyoming as a rule are prosperous and care little for politics. It is a foregone conclusion that Congressmen Mondell will be re-elected by a large majority and that a legislature overwhelmingly in favor of the return of Francis E. Warren to the United States senate will be elected. The democrats may elect two or three out of the sixty odd to be chosen, but they will be hopelessly in the minority and will cut little figure. It is predicted that Senator Warren will receive the solid vote of the republican party and possibly some of the democratic members.

GOLD COINS ARE TRIMMED
Expert Craftsmen in Seattle Are Able to Decipher Most Experienced Bank Cashiers.

SEATTLE, Wash., Oct. 26.—Hundreds of \$10 gold pieces are being "shaved" by some unknown man in this city. So well is the work being done that it has escaped detection by some of the most experienced bank cashiers. The criminal is evidently shaving the coins by placing them in a lathe and carefully trimming off the edges, without, however, destroying the milling. Outside of making the edges of the coins a little thinner than the body the work of the criminal could escape detection by the most expert paying or receiving teller in the local banks. Captain Bell of the secret service estimated that about 50 cents is made on the \$5 gold pieces and \$1 on the larger coins.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

THE SWIFT SPECIFIC CO. CURES SORES

Every old sore exists because of a polluted condition of the blood. This is an unhealthy condition from a long spell of sickness, or the trouble may be inherited. The poisonous germs and matter with which the blood is saturated force an outlet on the face, arms, legs or other part of the body and grows red and angry, festers and eats into the surrounding flesh until it becomes what is very aptly termed an "old sore." The relief produced by external treatment is only temporary. The only treatment that can do any real good is a blood purifier that goes to the very root of the trouble and removes the cause, and for this purpose nothing equals S. S. S. It drives out from the circulation all morbid matter and germs, even reaching down to hereditary taints, and by cleansing the blood heals old sores permanently. S. S. S. not only removes all taints and poisons from the blood but builds it up by supplying it with the rich, health-sustaining properties it needs to keep the system in health. S. S. S. makes pure blood and a sore must heal if the blood is pure and healthy. Book on Sores and Ulcers and medical advice free.

DUN'S REVIEW OF TRADE

Adverse Factors Have Little Effect on Progress of Business.

TRAFFIC DELAYS, HIGH MONEY RATES AND FOREST IN BANKS OF LABOR AFFECT SITUATION AT SOME POINTS.

NEW YORK, Oct. 26.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Traffic delays, high money rates and some unrest in the ranks of labor have not checked progress on the whole, although in special industries a little restraining influence of these adverse factors are felt. Some irregularities of temperature and provisions in some trade reports with less uniformly glowing descriptions of retail distribution. Wage earners are agitating for more pay or shorter hours in several industries, especially in the railway service. Although many retailers and dealers are making plans for the greatest business on record in jewelry and other holiday lines. A further advance in the demand for cotton in the price of pig iron is the best evidence of continued prosperity in that industry. There is some fear that the demand for what might be called legitimate provision for future needs, and the demand for cotton into next year, it is true, but there is no reason to believe any forward order is being placed with the exception of the cotton. Extension of facilities continue in every department, one plant for the manufacture of steel cars already projected, that will cover 320 acres. Orders for thousands of tons of structural steel for this and other undertakings have been placed. In a few cases it is still possible to get deliveries within a month, but in the large mills are offered for quick shipment without avail. Spot quotations are becoming so rare that the market is fast represented by prices on orders for future delivery, which are more regular at all the markets.

Improvement in the primary markets for cotton goods has gone so far that the operators begin to express a fear that a setback will be encountered through the curtailment of the demand for cotton on this point seems premature in view of the statistical position. Prices are now at about the level of the summer deliveries, and demand is much better. There is little complaint regarding the cotton crop delivery, but otherwise the woolen industry is unsettled, awaiting a general movement of the clothiers. Manufacturers are receiving liberal orders from jobbers in all sections for winter and early spring delivery, while salesmen are starting west for fall contracts and carry samples for next fall. Prices are still maintained and conditions are considered favorable. Demand for leather is limited to city needs, but spring orders are being placed. Extremely narrow variations occur in prices of leading cereals, movement being restricted by inadequate transportation facilities. Market conditions have not changed, but shipments abroad would have been larger if the season's deliveries had not been curtailed. A little more activity at northwestern flour mills is encouraging, although there is a heavy decrease compared with the output a year ago, when all records were being equaled.

Liabilities of commercial failures this far reported for October amounted to \$1,485,134, of which \$284,207 were in manufacturing, \$2,278,115 in trading and \$1,938,422 in other commercial lines.

BRADSTREET'S REVIEW OF TRADE

Business is Unprecedentedly Active for the Season.

NEW YORK, Oct. 26.—Bradstreet's tomorrow will say:

Trade is unprecedentedly active for the season. Retail trade, which has been with consequent increase of the re-order demand from jobbers and there is rather more doing on spring accounts. Higher prices for cotton have helped southern trade, inducing freer marketing and enlarging country trade and collection. Good reports also come from the central and western states, where the weather conditions have improved. Something like an unfavorable cross current is visible in the iron and steel market, and overhanging country elevators are complained of as affecting marketing of wheat.

The grain trade generally also complains of the congested condition of the market, owing to business in ship delays. This week's reports on grain shipments, however, show a heavy increase of both flour and wheat from both coasts. Strikes of grain handlers curtail shipments from some Pacific ports.

Reports from leading industries are of unabated activity. Higher premiums are being paid for better quality iron and steel. Imports of foreign pig iron are active and reports of labor scarcity are still well universal, and the movement of the cotton crop, the shipment of lumber, the outputs of coal and the deliveries of various mills are still restricted from this cause by reason of inadequate car supply. Voluntary wage increases are reported in numerous cases, but agitation for higher compensation are numerous among railway employees.

The price situation is one of exceptional strength. Grain prices are steady, while cotton has eased on larger movement and a rather better report, but wheat prices are strong at about the highest levels of the year. The cotton seed oil market has advanced rapidly (nearly 10 cents per gallon in the two weeks) and oil supplies are practically cleaned up. Steel in the country over sales of structural material for buildings is of fair proportions for bridge work is being freely placed.

Refined copper has advanced to 22 1/2¢, but little new business is being done owing to the scarcity of supplies.

Cotton prices have tended downward, mainly on better accounts and to the cotton crop and freer movement, sharp weakness being shown toward the close on the publication of the government census and report showing a 5,000,000 bales gained against a loss of 1,000,000 in cotton goods the feeling is one of steadiness and the market is certainly less feverish, though really prices are firm. Prices on cloths are higher and quotations for many makes of bleached goods, brown cottons, muslins and similar fabrics are hardened. Wool has seen the most active dealings of the year and holders' prices have been generally accepted.

Recent stormy weather has helped trade in shoes and rubber footwear, the west but fall and winter snow trade is yet hardly as good as hoped for.

Leather is steady and current demand prevents accumulations. Skins and hides are in good demand and prices do not weaken.

The largest sales for any week this year were reported in the Boston wool market. Large sales were bought very freely, the total sales running over 25,000,000 pounds.

Business failures in the United States for the week ending October 26 number 184 against 107 last week, 178 in the like week in 1905, 130 in 1904, 117 in 1903 and 114 in 1902.

In Canada failures numbered eighteen against eighteen last week and twenty-five in this week.

Wheat, including flour, exports from the United States for the week ending October 26 aggregated 5,135,817 bu. against 4,921,841 bu. last week, 4,507,109 bu. last week, 4,200,000 bu. in 1905, 4,072,385 bu. in 1904, 3,807,100 bu. in 1903, 3,600,000 bu. in 1902, 3,400,000 bu. in 1901, 3,200,000 bu. in 1900, 3,000,000 bu. in 1899, 2,800,000 bu. in 1898, 2,600,000 bu. in 1897, 2,400,000 bu. in 1896, 2,200,000 bu. in 1895, 2,000,000 bu. in 1894, 1,800,000 bu. in 1893, 1,600,000 bu. in 1892, 1,400,000 bu. in 1891, 1,200,000 bu. in 1890, 1,000,000 bu. in 1889, 800,000 bu. in 1888, 600,000 bu. in 1887, 400,000 bu. in 1886, 200,000 bu. in 1885, 100,000 bu. in 1884, 50,000 bu. in 1883, 25,000 bu. in 1882, 12,500 bu. in 1881, 6,250 bu. in 1880, 3,125 bu. in 1879, 1,562 bu. in 1878, 781 bu. in 1877, 390 bu. in 1876, 195 bu. in 1875, 97 bu. in 1874, 48 bu. in 1873, 24 bu. in 1872, 12 bu. in 1871, 6 bu. in 1870, 3 bu. in 1869, 1 bu. in 1868, 1 bu. in 1867, 1 bu. in 1866, 1 bu. in 1865, 1 bu. in 1864, 1 bu. in 1863, 1 bu. in 1862, 1 bu. in 1861, 1 bu. in 1860, 1 bu. in 1859, 1 bu. in 1858, 1 bu. in 1857, 1 bu. in 1856, 1 bu. in 1855, 1 bu. in 1854, 1 bu. in 1853, 1 bu. in 1852, 1 bu. in
