EXCITING DAY IN 'FRISCO

(Continued from First Page.)

use the most gentle methods in performing this task, and several prominent citizens were roughly thrown out into the street in damaged condition. Later certain people were admitted to the court room until it was filled, and it was then noticeable that a large percentage of the gathering inside consisted of policemen in plain clothes.

A throng of 2,000 persons remained on the streets outside patiently and in an orderly manner awaiting the result of the hearing inside. When Landgon and Hinesy emerged they were heartily cheered. A few minutes later Hinesy appeared and was hooted and hissed. As he was making his way to his automobile a man who had been ejected from the court room attempted to strike the political leader, but the police seized him. Roof was attended in court and afterward by two detectives from the police department.

Politics at Springfield.

SPRINGFIELD, Neb., Oct. 26.—(Special.)—Springfield is still to remain on the map politically at least until another election comes off. The political solemnity has been almost oppressive here all during the campaign, but the spell is broken at the eleventh hour. The republican state committee was the first to break the ice when they announced last week that George Sheldon, candidate for governor, and John L. Kennedy, candidate for congress, would address the multitude here on Monday, November 5. Not to be outdone by their political rivals, the democratic state committee announced this week that the Hon. W. J. Bryan, together with Candidate Gilbert M. Hitchcock would also arise in Springfield on Tuesday, October 30. Everybody is happy and will go to the polls and vote as they please on election day.

Hooe on the Stand.

PITTSBURGH, Oct. 26.—(Special.)—The negro coachman formerly employed by Augustus Hartz, went on the stand in criminal court today to defend himself from the charge of perjury. Hooe reiterated his first statements damaging to the reputation of the late Scott Hartz. He went into details of the alleged meetings and also swore that the confession and retraction secured from him by the detective agency was made under compulsion and while intoxicated.

RICHMOND, Ind., Oct. 26.—A definite plan for the unification of its foreign missions was adopted at the closing session of the American Friends' conference here today. The plan will not go before the various yearly meetings in America as it is optional with them to adopt it. It consists in cooperation with the Friends African Industrial Mission board, the work of the board to be absorbed by the central body.

BROWN AT HIS HOME TOWN

He and Sheldon Draw to the Capacity of the Opera House.

FUSION RECORD GIVEN A GOING OVER

Furnishes a Guide as to Which Party is Likely to Live Up to Promises It is Now Making to the Voters.

KEARNEY, Neb., Oct. 25.—(Special Telegram.)—Norris Brown and George L. Sheldon spoke to an audience which filled the opera house on overflowing this afternoon, holding the attention of the immense crowd for two hours and a half. After music by the Midway military band and several selections by the Central City Blue club, Chairman McDonald introduced Hon. George L. Sheldon, who plumed at once into his subject, launching into state issues. Mr. Sheldon declared that railroad rates in Nebraska are forty to fifty per cent higher than in Iowa, Kansas or Minnesota. This statement was followed by an analysis of the rates in Nebraska and Iowa, showing the lower rates in the latter state on grain, live stock, lumber and coal. The republicans, he asserted, are bound to the constitutional amendment for railway commission and legislation to do the commission with full power to make rates, but there are no two democratic candidates committed, to the same remedy. Mr. Sheldon's statements were greeted with hearty applause. Especially was this true when he explained his position on the Cady railway commission amendment bill.

Comparing Party Records.

A comparison of the fusion and republican administrations in the matter of railroad taxation was given into exhaustively, showing that the republican officials have made increases aggregating about \$1,000,000. The railroads refused to pay these taxes and have resorted to the courts. Republicans demand the payment of these taxes and a square deal all along the line. They demand freedom from railroad domination and a truly representative government. Mr. Sheldon closed his speech with an earnest, eloquent and powerful arraignment of the railroads in politics and urged the voters of the country to stand by the republican nominees for the legislature, who will have a vote for our fellow citizens and candidate for United States, Norris Brown.

The voice of Mr. Brown quivered with emotion as he began his address to his friends and fellow-citizens. First he spoke in terms of glowing eulogy of George L. Sheldon, republican candidate for governor. In mentioning the supporters he urged the election of a republican legislature to support and enact into law the policy for which Mr. Sheldon stands. Notwithstanding the democratic plea that democrats should be sent to congress to hold up the hands of President Roosevelt, the support a democrat would give Roosevelt would be about like the attack upon him in the World-Herald, which Mr. Brown read to the audience.

Populist Court to Blame.

In replying to the democratic charge of neglect of duty by republicans in failure to enforce the maximum rate law, he showed how the statute had been rendered null and negatory by a populist supreme court decision which wiped out the State Board of Transportation. That statute, he declared, was dead and it was beyond the power of any attorney general to resurrect it. In referring to the tax cases now before the United States supreme court, the speaker declared with feeling: "Whether an attorney general of Nebraska or private citizen, or United States senator, I intend to argue that case when it comes up, even if I have to walk all the way to Washington."

Sheldon at Lexington.

LEXINGTON, Neb., Oct. 25.—(Special Telegram.)—While attending the weather very inclement, a violent wind storm prevailing, an entertainment at Sheldon's opera house and district court in session at the court house, the audience that greeted Hon. George L. Sheldon and other speakers at Old Fellows hall was very gratifying indeed. The president over by F. L. Temple, who first introduced the Central City Blue club, which sang three lively songs that made every one present feel at home. The first speaker was Hon. C. A. Sibbey, candidate for state senator from the Thirtieth district, who compared the records of the fusionists when in power with that of the republican party, particularly that of Attorney General Smith and Brown. His talk was convincing, though brief, and brought out long-continued applause.

The blue club again held the audience for a few moments, after which Mr. Sheldon took the platform and in the most conclusive manner proved that the position of the republican party today was for the best interests of the people. He called especial attention to the freight rates on coal, lumber, apples, merchandise. He showed that the railroads carried freight from Omaha to Chicago for less than from Omaha to Lexington. That apples cost far more in proportion from Falls City to Alliance than from Rochester, N. Y., to the same place, and gave the figures to prove his statement that flour and grain were shipped clear across the continent and over the ocean to Europe for less than more than was charged within the state alone. He gave the earnings per mile of the different roads within the state, the main line of the Union Pacific reaching as high as \$1.00 per mile, and took up the lumber in question and the meager rate in all its branches, and showed how exorbitant the rates were in Nebraska, being far in advance of those in Iowa and Minnesota.

Answers Some Charges.

He answered the charge of Norris' Democrat that when in the state senate he had opposed the passage of the rate bill, proving beyond doubt that the history of that legislation had been most seriously misrepresented by the opposition. He showed in a most convincing manner that the passage of the constitutional amendment creating a railroad commission would greatly relieve the present suffering, as that commission would have the prerogative of discriminating between the powerful and the weak roads as against the powerful corporations. Mr. Sheldon then went into a dissection of the promises and pledges made by the fusionists, comparing them with the practical work that was being done by the republican party. He clearly showed why the pledges made by Mr. Shallenberg regarding a 2-cent rate were not feasible under his plan, and how it could become effective under the proposed commission. He gave a clear and convincing statement of the work done by Attorney General Brown against corporations and that he was the only attorney general Nebraska ever had who had won out in suits against corporations. His speech was a masterpiece and was listened to with great attention, every now and then calling out prolonged and enthusiastic applause. He was followed in a short, witty speech

by Mr. Wiley of Cedar county, candidate for the state senate, who read from the official report of the fusion board of 1906, in which it was acknowledged that the fusion officials, almost to a man, rode on railroad passenger trains. Notwithstanding the vicissitudes of the evening the meeting was a grand success and will have a strong influence in setting at rest any doubts that may have been had as to the election in this county. Hon. M. W. Gregory, candidate for representative in this district, had a seat upon the platform. The music of the blue club was perhaps the best that has ever been rendered at a political meeting in this county. This club accompanies Mr. Sheldon on his tour in this portion of Nebraska.

OMAHA MAN GRANTED A FRANCHISE

H. T. Clarke, Jr., of Belle Electric Light Plant at Wynmore, was granted a franchise for an electric light plant at that place. BEATRICE, Neb., Oct. 26.—(Special Telegram.)—At a special meeting of the city council at Wynmore today H. T. Clarke, Jr., of Omaha was granted an electric light franchise. Messrs. Philbrick and Reuling of Wynmore withdrawing their application, Mr. Clarke will commence at once to build a new electric light plant at that place.

Shallenberg at Beatrice.

BEATRICE, Neb., Oct. 25.—(Special Telegram.)—Hon. J. H. Shallenberg, democratic candidate for governor, spoke here at the Paddock opera house to a fair sized audience. His speech was well received and entertaining. His argument was along the lines he has been following at other points. He was profuse in democratic promises of removing all the evils and giving the state a simple, pure administration for the next two years.

CEREAL CLUB FIXES PRICES

(Continued from First Page.)

and members of the Grain Dealers' association adopted this card as the basis for prices to be paid the farmers and that independent elevator and forces into a pooling arrangement with line elevators on penalty of losing business by price manipulation.

Special Favors to Sheldon.

J. T. Hilland, third vice president of the Chicago, Milwaukee & St. Paul, was kept on the stand the entire forenoon explaining the dual capacity of E. W. Sheldon, manager of the railroad company's Kansas City elevator, and a member of the firm of Simonds-Shields Grain company, which handles from 75 to 90 per cent of the grain that goes through that elevator. Indubitably it was brought out that Mr. Sheldon received advance information on the changes in freight rates on grain and was taken into consultation in the fixing of the rates and that as a manager of the elevator he was unable to keep from himself as the largest shipper this advance information.

This afternoon the commission had before it C. G. Meserole, secretary of the Farmers' Co-operative association, who testified that he had been discriminated against, and George A. Wells, secretary of the Iowa Grain Dealers' association, who testified that his association had never fixed prices nor attempted to run out independent grain dealers, but admitted being the author of a number of letters produced by the commission's attorneys in which Chicago firms were given a gentle reminder not to buy grain from these independent companies.

Small Rent for Elevator.

In the testimony of Mr. Hilland, who was on the stand the entire forenoon, it was brought out that the firm of Simonds-Shields Grain company pays a great rental for the tanks for storing grain with free cleaning, sorting, mixing and clipping privileges, the capacity of the tanks being 50,000 bushels. Attorney Marble asked if this privilege and the rental together was not worth \$2,000. Mr. Hilland said the fact that the tanks were built and had no connections on the road was to be considered, as the road was forced to endeavor in every way possible to increase its freight shipments and revenue. He said he would not consider a bill of a larger rental for the tanks as a benefit to the farmer if the other firm gave bond, if it was without the connections along the line.

Mr. Hilland was questioned as to the office arrangement at Kansas City and whether Mr. Sheldon as manager of the elevator had a general office as his office, as a grain dealer and member of the firm. He testified that the railroad took a lease on a separate office, but he could not say whether it was occupied or whether or not the clerks for the company also worked for Mr. Sheldon's grain company. As third vice president of the firm he informed them that the Simonds-Shields Grain company paid any elevator charges to the railroad, as Mr. Sheldon was employed to make such collections.

Mr. Hilland was then asked as to Mr. Sheldon's knowledge of rail ranging and it developed that when the railroad a year ago made an export rate for corn and later took it off, Mr. Sheldon was informed both times and later, also in August of this year, when for ten days a special rate was on for wheat to meet a lower rate of the Chicago market. Mr. Sheldon had knowledge as manager of the elevator.

Farmers' Firms "Irregular."

At the meeting this afternoon George A. Wells identified a large number of letters written to the Eschenberg & Dalton firm of Chicago in which the railroad had demanded that various grain firms in Iowa, particularly the Farmers' Elevator company at Daugherty, Ia., and the Manly Grain company of Manly, Ia., were irregular, and asking them to stop buying grain from these elevators.

A FOOD CONVERT

Good Food the True Road to Health.

The pernicious habit some persons still have of relying on nauseous drugs to relieve dyspepsia, keeps up the army of dyspeptics, and helps keep up the army of dyspeptics. Indigestion—dyspepsia—is caused by what is put into the stomach in the way of improper food, the kind that so taxes the strength of the digestive organs they are actually crippled. When this state is reached, to resort to stimulants is like whipping a tired horse with a big load. Every additional effort he makes under the lash increases his loss of power to move the load.

Try giving the stomach by leaving off heavy, greasy, indigestible food and take our Grape-Nuts—light, easily digested, full of strength for nerve and brain, in every grain of it. There's no waste of time nor energy when Grape-Nuts is the food. "I am an enthusiastic user of Grape-Nuts and consider it an ideal food," writes a Maine man: "I had nervous dyspepsia and was all run down and my food seemed to do me but little good. From reading an adv. I tried Grape-Nuts food, and after a few weeks' steady use of it, I felt greatly improved. "Am much stronger, not nervous now, and can do more work with out feeling so tired, and am better every day. "I relish Grape-Nuts best with cream and use four teaspoonfuls at a meal. I am sure there are thousands of persons with stomach trouble who would be benefited by using Grape-Nuts. Name sold by Grape-Nuts Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."
