This body is to take over all legislative powers heretofore exercised by the Phillipine commission in that part of the archi. pelago not inhabited by Moros or non-

For instance, the ansembly of brovisional governors, recently in session in Manila, with the view to arranging the preliminaries for the meeting of the Philippine assembly, is reported to ave recommended that the suffrage be widely extended.

Basis of Suffrage. It is pointed out here that this is not possible, for the reason that the act of congreek under which the assembly will be convened, expressly states the qualifications of voters. These, in brief, are that the voter must be at least 25 years old (which was the Spanish requirement); must be able to read and write either Spanish or English, or must own a certain small amount of property, or must have been in he past an office holder under the Spaneh government. These qualifications were ned upon the old Spanish practice and no Philippine assembly can change them, The new assembly or legislature will consist of two houses to be known as the Philippine commission or assembly, the his speeches very short.

Hearst's candidacy for governor. Mr. Woodruff objects to the publication in parallel columns of extracts from the speeches of the presiof wealth. Mr. Woodruff said, concerning the publication:

It is carnestly hoped that President Rosseveli, who has to a degree long maintained a position that he cannot interfere in local politics, will take up this matter and denounce the author of the fluxion. It was expected that such an effort as this would be made by Hearst to influence voters.

would be made by Hearst to inducate voters.

My attention was called to the Hearst publication yesterday, and I made an investigation which disclosed the facts regarding the publication of the parallel views of the president and Hearst. I find it to be a serious matter and will urge upon the president the advisability of breaking his rule of stlence in local political matters and reply to this insinuation. I am aware that the president is not inclined to interfere in state politics, but in view of this publication I would strongly urge that the president break his silence and repudiate the author or the man who would benefit by that statement.

Lincoln, Nebr.,

Dear Sart

I enclose you herewith a copy of an editorial what appeared in the Blair Pilot, a republican paper. I think this is good stuff and if you can find space for it or frame up an editorial in your own language conveying the same idea it will be effective.

The republican platform has a "Terminal Taxation" plank that will give to Omaha the benefit of all the terminal taxes instead of distributing the same out over the entire state as is now done. If the republican platform is enacted into law it will mean that every town in the state will lose their proportionate share of the railroad taxes and that Cuaha will be the beneficiary. The Cuaha Bee has aiready pledged ninety republican candidates in the legislature on this proposition. The other republican candidates refused to give their assent to the scheme. I think this is important.

Yours truly,

Tollen
