RULE MENACE TO MERCHANTS

Decision of Commission on Round Trip Rates May Kill Meetings.

BLOW TO RETAILERS OF NEBRASKA

Unless Ruling is Changed They Can No Longer Come to Omaha on One-Fifth Fare to Buy Goods.

A recent ruling of the Interstate Com merce commission, by placing restrictions on the issuance of reduced rate round trip tickets on the cartificate plan, threatens the destruction of the custom of holding annual merchants' meetings at jobbing centers. If one part of the ruling is not changed-and as yet it amounts merely to a suggestion of what the commission s mplates doing-retail merchants of Newaska and the west will no longer enjoy the privilege of coming to Omaha each fall on one and one-fifth fare to buy their

This is the text of the ruling: This is the text of the ruling:

Round trip tickets on the certificate plan may be issued at reduced rates, and their use be confined to the delegates to a particular association or to the members of a particular association or society, upon the condition that a certain number of such tickets shall be presented for validation for return trip before the reduced rate for return trip will be granted to any Tariffs of rates and regulations governing issuance and use of round trip tickets on the certificate plan must be regularly filed and posted and the regulation must not be such as will operate to evade or nullify any l operate to evade or nullify any on of the law. e commission suggests that the rule ild provide that not less than 100 tickets be presented for validation for re-tits before reduced rates will be

turn trip before reduced rates was granted to any.

Round trip tickets on the certificate plan may also be issued to government employees going home to vote and returning to their employment.

Effort to Save Excursions. The Omaha Jobbers and Manufacturers association will hold a meeting Wednesday to talk over the matter and adopt a plan of action, for the members declare the ommission will kill buyers' excursions to all markets if it finally adopts the provision that 160 tickets must be presented for validation for the return trip before rate tickets are granted. Such a ruling might be just, as far as it concerns big conventions, they say, but as far as it applies to merchants' meetings it is not, and for the merchants other provisions should be made. The jobbers maintain that at no market in the country can the requirement be met. They say it is invariably the case that many merchants who arrive early want to go home before the number in the city has reached 100.

The association has letters from commercial bodies along the Missouri and Mississippi rivers protesting the action of the mission. It is probable the local organization will appoint a committee to con fer with jobbers' associations of other cities with a view to taking some united action before the commission

of the significant facts connected with the agitation for the giving away by the city of a twenty-five year franchise is the effort being made to stampede the class of men, wage-earners and business men in the Omaha Commercial club and the Real a modest way, who for years been solidly set against the giving away of any more public utility franchises of any character To men who are anti-franchise on principle of Daniel Fuller, J. A. Abbott and J. M. and who foresee municipal ownership within a reasonable time, it would be a very discouraging spectacle if the voters of Omaha should be hoodwinked by a false cry of anti-monopoly to vote away so valuable a privilege, for no other reason than to

'boost" a stock jobbing scheme. Men who know better are likely to be deceived into voting for this free and easy franchise unless they devote a few moments pany, which does a manufacturing bust-ness at Thirteenth and Jones streets. Mr. 7 of the franchise and its provisos. They are the meat in this cocounut. the local wholesale houses, he has more middle of Section 7 these words "except as orders than he can fill and he needs money Hereinafter Provided," then read the second provise to said section, as follows:

"Provided further, that for the purpose of carrying this franchise into effect the grantees shall assign and transfer this ordinance and franchise to a corporation duly organized (not under the laws of Nebrasks, mark you) with power to take over and operate under the same; and it further provided that the grantees, their successors and assigns, may pledge and mortgage this ordinance and the right. privileges and franchises bereby granted as security for any issue of bonds other obligations of said grantees, or of their successors or assigns, and the proceeds of the sale of such bonds shall by used in the construction and maintenance of maid telephone plant."

The men to whom this very thing is to he given by the city council, if the voters concent, for the purpose of selling it at once, make a false and dishonest pretens of opposition to monopoly merely to carry their point. But the voters, if they made the mistake, cannot undo the bad work for twenty-five years, and even then the city cannot take over the plant.
