

GOOD THINGS TO EAT PLENTY

Market Well Supplied with Seasonable

Dainties and Substantial.

EVERYTHING NEEDED FOR SUNDAY DINNER

What a Visit to the Local Stores
Discloses to Make Up the
Family Menu in
Highest Style.

The question of supplying the inner man is one of continual interest to housewives, chefs and all those having to do with preparing for the table the various forms of vegetable and animal life used for food. The average housewife who wisely appreciates the physiology of "feeding the brute," knows her husband cannot live without meat, and she cooks the meats and even at that occasionally marks, "What shall we have to eat?" For her answer she either calls up her purveyor by telephone or goes to market herself and finds that today Omaha was never better provided with the good things that go to sustain life and please the palate.

The Omaha market at this season of the year takes on a new lease of life with the autumnal tinge, as with the advent of cooler weather and approach of Thanksgiving the appetite of the community takes on added zest and supply meets demand. The markets are just now presenting a tempting appearance, much of the product being of a more substantial nature than that offered in the summer days. The local market facilities have kept apace during the year with other lines of advancement. Fruits, vegetables, nuts, fish, poultry and other forms of food are coming in abundantly from both domestic and foreign points.

Start in Anywhere.
"Where shall I begin?" remarked a woman who wanted to look over the market yesterday afternoon.

"Just begin anywhere," she was told. So she started in with the cranberries, and found that there will be a material advance in price before Thanksgiving shall have arrived, the reason being that the demand for the little red turkey accompaniment is strong this year.

The poultry supply in general is plentiful and the quality good. Peculiar circumstances have affected the price of poultry, which will be lower this season than last year. Turkeys will not be as plentiful as last year in Nebraska. It is believed some of the tribe will have to be brought from Texas and Oklahoma to Nebraska this year.

There are some fine spring chickens and domestic ducks on the market just now. Geese are nearly as scarce as hen teeth. The uncertainty in the east as to what conditions may prevail in cold storage legislation has had the effect of causing something of a slump in the poultry market, particularly that of chickens.

Oysters and Celery.
Then comes oysters and celery. David Cole has two cars of Nebraska oysters on the track and at least a dozen cans of oysters at his office. Mr. Cole says oysters are coming along fine, so that he who runs can eat oysters if he chooses. There are plenty of "standards" in. The standards are the spring chickens of the oyster family. They come from the waters of the Chesapeake and are separated from their kind parents at the tender age of 2 years, for standards travel on their tenderness. Omahans who like "selects" can have plenty of them. Selects are oysters which reach their majority, which in oyster life is 3 years. They are nice raw or fried. New York counts are from the Beau Brummel of oysters. They are, after all, but selects transplanted to waters of Long Island sound or other similar water and not marketed until large enough to sell by the thousand in the shell. No one ever heard of a New York count being sold by the gallon. That is why the price of "counts" is higher and the demand so great. Omahans people consume New York counts in large numbers. The oyster dredging season was opened October 15 in Maryland and Virginia.

Speaking again of celery, it is noted that this plant is taking rank in Omaha with cabbage and pressing the potato hard for its laurels. One dealer who has two cars on hand has ordered six cars for his Thanksgiving trade.

Apples and Other Fruits.
All sorts of tempting fruit are on the market, with others on the way. Such popular New York apples as Spitzenbergs, Waggers, Kings, Baldwins and Greenings are offered at slightly advanced prices, but the quantity this season such as to cover great demand. The same varieties from Michigan are offered, but they are not plentiful. From the Ozark districts splendid table and eating apples, such as the Jonathans, Winesaps, Missouri Pippins and the old reliable Ben Davis are shown. The fancy varieties from Colorado and other western states will be in this week. A fine grade of "Parson Brown" Florida oranges are to be had. Tokay and Red Emperor grapes from California, in large clusters, and Almeria white grapes from Spain, packed in kegs, are now offered. New York Concord grapes may last up to Thanksgiving.

California Winter Nellie pears, tangerines, Hallowell and Bayview dates and Smyrna figs and Malaga grapes also are in. The Florida grape fruit is becoming more popular in Omaha every year. That variety will be in within two weeks to relieve the California supply. The grape fruit is considered very healthy. A local chef says: "Cut the fruit in two, fill with sherry and sugar, stand over night and eat." One commission man said the demand this season for grape fruit is four times that of a few years ago.

Egg plants from the south are in. They are nice cut into squares and fried in butter. Southern cultivated mushrooms of unusual size are to be had and Brussels sprouts from the southland are available and of good quality just now.

Cauliflower and Vegetables.
Cauliflower is now being offered by the pound. Here are some of the vegetarian offerings: Head lettuce, raised in Nebraska; green and wax beans from the south; beet root for this time of year; Nebraska spinach, radishes, lettuce, carrots, tomatoes, cucumbers and other relishable products of the soil. The southern vegetables will be in soon in larger quantities. The California tomatoes are worth more than passing interest.

Fish, Fine and Plentiful.
In the line of fresh fish the best trout of the year is now being offered. White fish, pike and pickerel, next in the piscatorial category, may be had for a few weeks longer from the lakes. Modern refrigeration has made it possible for the Omaha housewife to have what practically is fresh fish even after the great lakes are frozen over.

Red snappers and blue fish, desirable salt water fish for baking, and such pan fish as black bass, croppies, bull heads and catfish, are offered in abundance. For breakfast there is fine mackerel, either Spanish or native; and there are frog legs for a dainty and shrimp and lobsters for salads. Halibut and salmon, good general purpose salt water fish are on market in fine form. New stocks of smoked salmon, halibut and cod may be had from the delicatessen. Steelhead salmon and baby halibut is tasty and

SUNDAY DINNER BARGAINS

THE LANGE GROCERY CO.

S. & H. GREEN TRADING STAMPS.

After "Red Letter Day" comes our many specials, with S. & H. Green Trading Stamps! If you are not you have not been benefited like your neighbor. Have you seen the beautiful cut glass dish or the elegant pair of vases or rocking chair that your neighbor got with a book of S. & H. Green Trading Stamps? You can get the same thing by saving the stamps we give you on each purchase. Call at our store and get a book to paste them in and ten stamp free. We give these stamps on every purchase you make.

BRIGGS IN NEW TROUBLE
South Omaha Chief of Police Accused
by Braeden, His Enemy.

Again.

George Braeden of South Omaha, who has had more or less trouble with Chief of Police Briggs and his men, now comes forward with a new charge. He asserts that in June, 1905, he gave Chief Briggs and Detective Elselder \$20 to pay the expense of bringing Lillian Braeden and James Beck back from Sioux City and that the officer later collected from the county for the trip.

The records in the county clerk's office show that Henry Elselder did render a bill for the trip after the two parties. The bill was for \$16.10 and was allowed by the county board and paid by warrant No. 5720.

Braeden asserts he will at once file charges against Briggs and Elselder with the South Omaha Board of Fire and Police commissioners.

OMEGA OH IS GOOD FOR ANY PAIN
that can be reached externally. Trial No.

SEASONABLE FASHIONS.

NOS. 6769, 6770—A STUNNING STREET GOWN.

The tailored suit expresses the highest form of the fashion designer's art and here is a new model which is especially trim and becoming. The natty little coat closes in double-breasted style, being fitted in back only. The neck edge is finished with a Tuxedo collar-faced of velvet according to the latest fashion. The skirt is a new thirteen-gored flare one, plaited at the center front and back so as to afford a becoming fullness at the bottom. Any of the seasonable materials are recommended for the suit, broadcloth, serge and cheviot being suggested. The patterns are easily put together so that even the amateur may attempt such a garment as this. The medium size 7½ yards of 54-inch goods are needed. Two patterns: 6769, sizes 32 to 42 inches bust measure; 6770, sizes 30 to 34 inches waist.

The price of these patterns is 20c, but either will be sent upon receipt of 10c.

For the accommodation of The Omaha Bee readers these patterns which usually retail at from 35 to 60 cents, will be furnished at a nominal price (10 cents), which covers all expenses. In order to get a pattern enclose 10 cents, giving number and name of pattern wanted and bust measure. That the present law shall be amended

THE REAL "PEOPLE'S LOBBY"

Washington Correspondents as Boosters for
the Square Deal.

TRAINED OBSERVERS ON THE SPOT

Some Notable Achievements for Public
Good—Croked and Shady Tricks
Exposed with Beneficial
Results.

A "people's lobby" is the attractive scheme proposed by one of the magazines. The idea is to establish at Washington a lobby of well known men who will scrutinize all the legislation that comes up before the public.

The "people's lobby" is the attractive scheme proposed by one of the magazines. The idea is to establish at Washington a lobby of well known men who will scrutinize all the legislation that comes up before the public.

The records in the county clerk's office show that Henry Elselder did render a bill for the trip after the two parties. The bill was for \$16.10 and was allowed by the county board and paid by warrant No. 5720.

Braeden asserts he will at once file charges against Briggs and Elselder with the South Omaha Board of Fire and Police commissioners.

The present committee is as strong as any that ever held that trying place. It consists of Samuel G. Blythe, chairman; Maurice Spain, secretary; Richard H. Lindsay, Arthur J. Dodge and John P. Miller.

Going as far back as Grant's second ad-

ministration, the people's lobby did yeoman service in the exposure of the whisky ring frauds. Grant himself was opposed to the showing up of the thieves, because the trail led to his own personal friends, and it was one of Grant's faults that he could never be induced to believe that a friend of his could be crooked.

Secretary Bristow conducted his investigation with the aid and knowledge of all the correspondents in Washington, with the understanding that none of them should print a word about it until he gave the signal.

The star route scandals were exposed by Major John M. Carson, then the correspondent of the New York Times. He secured documentary evidence in a number of cases, and one day printed the evidence in a single case. It attracted little attention, but the next day Carson printed the evidence in another case. This time people began to take notice. On the third day out came the facts in another case, and so day after day Carson continued to pour in his broadsides until the country was ringing with the exposures and congressional investigation was started.

After the congressional investigation Assistant Postmaster General Brady was indicted by Senator Dorsey and others. They escaped ultimately, but that was no fault of the people's lobby.

CONGRESS AND CABINET ABUSES.

The present government of the District of Columbia by a commission appointed by the president, the people of the District being disfranchised, is the work of the people's lobby. A. M. Gibson, then correspondent of the New York Sun, opened fire, on the government headed by Alexander R. Shepard; other correspondents took it up, and the people's lobby completed an investigation, which resulted in the abolition of the territorial form of government and the establishment of the present one.

It is due to this institution that the organization known as the "press gallery" is about the cleanest spot in Washington life. For three congresses it was presided over by the late E. G. Duncell of the New York Times, who won the reputation of being the most unspiring and remorseless rooster-of-grafters that ever held the place of chairman of the press committee.

The present committee is as strong as any that ever held that trying place. It consists of Samuel G. Blythe, chairman; Maurice Spain, secretary; Richard H. Lindsay, Arthur J. Dodge and John P. Miller.
