#### No Depredations by Indians

Indian Commissioner Leupp today received a report from S. G. Reynolds of the Crow Creek agency, who had been assigned to look into the reports that the White River warriors were now on their way to Fort Meade, committed certain depredations before they were rounded up. It was alleged that the Utes had burned buildings on the Kendrick ranch, shot a prominent citizen named Spear and killed his horse from beneath him, and had run off several bands of cattle. Reynolds stated that he had no ground upon which to base such reports. There has evidently been a desire on the part of the Utes to create a feeling against the Utes, such as would tend to arouse an antagonistic feeling among the citizens of Wyoming against them.

#### Trust Funds for Indians

A petition has been approved by the commission of Indian affairs from the 'White Earth' Indians, requesting that they be permitted to draw \$50,000 from their trust fund, and this money will be distributed among these Indians at the same time their annuities are paid. These payments will be made at the Sisseton agency, South Dakota. The annuities amount to about \$20,000 and the advance of \$30,000 from the trust fund will bring the disbursement up to \$50,000. The payment will occur some time during the present month.

#### School Teacher Sent to Omaha

W. R. Davis, present superintendent of schools at White Earth Indian reservation, in Minnesota, today ordered a report to the Omaha Indian warehouse to fill a \$1.50 clerkship.
