

CONDITION OF OMAHA'S TRADE

Healthy Condition in All Lines Characterizes the Local Market.

SCARCITY OF COTTON GOODS THE FEATURE

Several Substantial Advances in Metal and Woodenware Named—Hundreds of Implement Dealers to Be Here for Convention.

Business on the local market runs along in a steady, healthy way, entirely satisfactory to the local jobbers. There is no boom in trade just now, but the majority of houses report sales in excess of the corresponding time of last year.

The managers of the shoe houses say they are having a good fall season. Traveling salesmen are sending in good orders and a glance at the order blanks show they are buying the better grades of goods.

Implement Convention This Week. As far as house trade is concerned, business has been at a standstill with the implement jobbers for two or three weeks. The retailers have not been visiting the market, but have been waiting for the convention, which will be held in Omaha Tuesday, Wednesday and Thursday of this week.

Business has been lively at the hardware houses, demand for winter goods being excellent and the demand for builders' hardware keeping up in a remarkable way.

Prunes have shown a further advance of 1/2c, with further advances in sight. Raisins have again been marked up, particularly seeded. These goods are in very active demand because of the fact that shipments have been very late and jobbers have been dividing with their neighbors in order to take care of their trade.

Apples have advanced again 1/4c, in fact, 1/2c, after losing 1/4c about ten days ago.

From present indications California, on January 1, will have the lightest stock of dried fruit, including peaches, apricots, prunes and raisins, the heaviest stock of canned fruits of all kinds and the lightest stock of canned salmon that it has had in twenty years.

No change has been made in the market on tomatoes during the last week. The statistical report of the Baltimore pack, compiled by the Baltimore Canned Goods exchange, shows that while the pack was a trifle larger than last season, there are less goods on hand now than there were at the same date last year.

The corn market is in little better shape. Sales have been made at an advance of 7/16c over prices recently ruling, so that the situation appears stronger than it has for some time.

Canned peas are practically cleaned up, very little stock of any kind remaining in the hands of the packers. The pack of both string and refuse beans was very much lighter this week than the season of 1905. Cheap string beans are closely cleaned up in Baltimore and sales have been made this week at an advance of 10c per dozen over prices recently ruling.

Cove oysters are in very strong position. The jobbers are buying from one another to cover their requirements. New goods are just being shipped out of the south, but it will take many days to make a fair distribution of these goods, and the entire west is dependent upon the south very largely for its supplies.

Drugs are still in good demand. The volume of business during the week showed a decided increase over the corresponding period last year. Changes have not been very numerous, but have all been in the nature of slight advances. The tone of the market is strong. Opium is high abroad, but there is no change on this side as yet. The market for quinine is decidedly strong. The late Amsterdam sale of bark resulted in higher prices. Business continues steady in alcohol, for both grain and wood. Antimony has advanced in sympathy with the rise in metals.

The glass market remains firm and the demand for all lines is heavy, especially for small plate glass, this being due to the fact that plate glass is being used very freely for residential instead of the double-strength glass, which had been used extensively in the last few years. Lined oil has taken a jump of 1 cent, the bid being 50 cents and raw 25 cents. Lead is the same as last week, Charter's being 7 1/2 cents, while Southern is 7 1/2 cents. The demand for paint continues to be very good, the mild weather enabling painters to continue their work outside.

Foreign Financials. LONDON, Nov. 10.—Money was much wanted in the market today and the supplies were limited. Discounts were firm. Trading on the stock exchange was on a small scale, but the quotations of British securities were firmly maintained. Foreigners were inactive. Russians were a shade harder. Americans started steady, but transactions throughout the session were small. Quotations scarcely moved above parity. The market closed dull and heavy.

REAL ESTATE TRANSFERS. Ellen Gavin to Mary Ellen Gavin, lots 8 & 9 and 7, block 28, Walnut Hill. 1.000

John W. Hays to Morris Hays, 1.300

Chris Wick and wife to W. Howard Heyman, lot 4, block 7, Spring Lake Park, South Omaha. 900

Mary E. Miller to Elijah B. Davis, lot 4, block 3, Florence. 150

Arthur J. Story and wife to Christen Tjalstrom, 1/2 lot 10, block 11, Omaha View. 125

Lucien F. Hale to Margaret J. Hale, east 10 feet lot 5, south 1/2, west nine feet lot 6, block 18, Omaha. 150

Lucien F. Hale and wife to Joseph A. Hale and wife, same as above. 250

McCague Investment company to Lena Chleboud, 1/2 lot 19, J. E. Eley's sub. 500

Arthur East to Christine East, lot 5 and south 1/2 feet lot 4, block 4, subdivision block 20, Albright's Choice, South Omaha. 700

"The Greatest Greenwater Offering of the Year" "The Twin of the Furnace Creek Copper Company."

WE OFFER FOR IMMEDIATE SUBSCRIPTION 250,000 Shares Treasury Stock FURNACE CREEK SOUTH EXTENSION COPPER CO. AT \$1.00 Per Share

Mines Adjoin Those of Patsy Clark's Furnace Creek Copper Company and Both Properties Have the Same Vein.

Table with 2 columns: CAPITALIZATION, TREASURY STOCK, Officers and Directors. Includes names like HON. JOHN SPARKS, C. B. KINGSBURY, L. M. SULLIVAN, J. L. LINDSAY, GEORGE D. PYNE, JOHN D. CAMPBELL.

48-Vein of 22 Per Cent Copper Ore

The great Anxiety-Copper Shoe groups of claims, adjoining on the south the ground of Patrick Clark's Furnace Creek Copper Company in Greenwater, have been taken over by the newly incorporated FURNACE CREEK SOUTH EXTENSION COPPER COMPANY.

This announcement is equivalent to the statement that a twin of the Furnace Creek Copper Company has been born.

The Furnace Creek Copper Company, with a capitalization of 1,250,000 shares is selling today around \$4.25 per share. It was originally promoted at 25c per share.

The Furnace Creek South Extension Copper Company has a capitalization of 1,500,000 shares, of the par value of one dollar each; 500,000 shares are in the treasury. Treasury stock is offered at one dollar per share.

From the report given below by J. D. Campbell, the noted mining engineer, it is apparent that the Furnace Creek South Extension Copper Company owns practically a counterpart of the property of Patrick Clark's Furnace Creek Copper Company. The same croppings of high grade copper ore are in evidence on both properties, the veins having been proved to be continuous.

The Copper Matte Claim of the Furnace Creek Copper Company has the greatest showing in the Greenwater camp to date. This claim adjoins the Anxiety No. 1 claim of the Furnace Creek South Extension Copper Company. The immensely rich veins on which the present valuation of Furnace Creek Copper Company's stock is based pass from the Copper Matte Claim of the Furnace Creek Copper Company into the Anxiety and Copper Shoe Claims of the Furnace Creek South Extension Copper Company.

These veins have been traced for a distance of 4,500 feet on the two properties. On the Furnace Creek Copper Company's ground this belt of ore shows 48 feet of 22 per cent copper ore; 30 per cent copper ore has been found on the surface, and no ore of lower grade than 10 per cent in copper has been encountered at the 250-foot level.

It can be stated as an absolute fact that at the time when Mr. Patrick Clark purchased the estate of the Furnace Creek Copper Company he endeavored to secure the important claims which are now a part of the estate of the Furnace Creek South Extension Copper Company, but they had already been acquired.

Clark's and Heinze's Properties Adjoin This

The tremendous mine showing presented at surface by the property of the Furnace Creek South Extension Copper Company is in a measure shown by Engineer John D. Campbell's report, made before the purchase. It follows:

"The Furnace Creek South Extension Copper Company's property consists of the Anxiety and Copper Shoe groups, embracing the following mining claims: Anxiety, Anxiety No. 1, Anxiety No. 2, Copper Shoe and Nos. 1 and 2, a total of 120 acres. The territory is heavily capped with gossan, one of the truest indications of immense copper deposits beneath, with occasional croppings of high grade copper ore.

"This property has the advantage of exceptional location, being bounded on the north by the estate of the Furnace Creek Copper Company and the Heinze holdings. The Copper Matte claim of the Furnace Creek property, which has the greatest showing in the camp to date, lies next to the Anxiety No. 1 claim of the Furnace Creek South Extension.

"The great copper ledge traversing the Copper Blue and Copper Matte claims of the Clark holdings has been disclosed at surface on both the Anxiety and Copper Shoe groups, and has been traced for a distance of 4,500 feet on the acreage. These croppings are clearly defined and cut through the formation with the directness of a railroad track. On the Furnace Creek estate this belt of ore shows forty-eight feet of twenty-one per cent copper ore.

"Thirty per cent copper ore has been found on the surface, and no ore of lower grade than ten per cent in copper values has been encountered down to the 250-foot level.

"The Anxiety and Copper Shoe groups form what is regarded as one of the richest pieces of inside ground in the entire district. It is my opinion, based upon the showing of the property of the Furnace Creek South Extension Copper Company and its location with reference to the trend of the copper veins of the Clark mine, that it should develop into one of the greatest copper producers of the Green water district."

Ownership Stock Pooled and Not for Sale

In announcing the promotion of the Furnace Creek South Extension Copper Company, we beg to call attention to the fact that copper just at present is commanding a higher price than ever before in the history of metal mining. The supply falls far short of meeting the demand. Never before has the consumption of copper been so heavy. It is finding more general use every day. Copper stocks have been the distinct features of trading in all market centers for many months. Figured on a basis of the present market value of Furnace Creek Copper Company's shares, stock in the Furnace Creek South Extension Copper Company at one dollar per share is a gift. An investment at this time and at this price is a practical guarantee of tremendous quick profits.

Of the million shares of ownership stock which were paid to acquire the property, 850,000 shares are pooled for one year and cannot be sold or transferred. This will convey an idea of the high opinion of the future of this stock which is entertained by the owners of the controlling interest. The present offering is of 250,000 shares of treasury stock. The net proceeds from the sale of this stock will be put into the treasury of the company and be used for development work entirely. It is believed that these funds will be ample to provide all moneys needed for the opening up of the property and the making of it a dividend payer for many years.

The following recent promotions of Greenwater, which include all the important ones, will convey some idea as to the opportunity presented here for quick profit making: Furnace Creek Copper Company, recently promoted at 25c, with a capitalization of 1,250,000 shares, now \$4.25 per share. Greenwater & Death Valley, recently promoted at one dollar per share, with a capitalization of 3,000,000 shares, now \$2.75 per share. United Greenwater Copper Company, recently promoted at one dollar per share, with a capitalization of 3,000,000 shares, now \$1.25 per share.

Sullivan Issues Always Oversubscribed

Subscriptions at one dollar per share should be made at once to insure consideration. The recent offering by the L. M. Sullivan Trust Company of treasury stock of the Eagle's Nest Fairview Mining Company at 35c per share was oversubscribed by upwards of 800,000 shares and that stock is now commanding a big premium. Telegraph your reservation as soon as you have made up your mind that you want some of this stock, and we will immediately reply as to what allotment we can make, if any. On receipt of notice of allotment, it will be necessary that remittance be made in full to cover at one dollar per share. As soon as payment is made, stock certificates will be promptly issued and forwarded by registered mail, or stock can be ordered shipped attached to draft, if your reliability is known to us.
