A Home in Illinois.
Mrs. Lida Rowland, 2109 Grenshaw St., Chicago, Ill., writes:
"We think Peruna the greatest medicine on earth. One year ago last winter my little boy had a severe cough. We had consulted the finest physicians of Chicago, and he got no better.
"One night he had a very severe spell of coughing. It seemed as if he would never stop. My husband bought a bottle of Peruna and the first dose stopped the coughing. We continued giving it to him until he was entirely cured. He is a strong, healthy boy now."
"Peruna saves me many doctor bills."

A Home in Texas.
Miss M. M. Johnson, Hitebeck, Tex., writes:
"Your great medicine, Peruna, has restored me to health once more. I am truly thankful to you, for your medicine is certainly a catarrh cure. My sisters are surprised at my improvement. My appetite is good now. I sleep well at night. I have no more pains or backache or headache.
"I will recommend Peruna to all suffering women. It is just what you claim to be. When I began taking your treatment I was wretched. Peruna has cured me of all my catarrhal troubles."

A Home in Washington.
Mrs. Minnie Lappenbush, R. F. D. 1, Buckley, Wash., writes:
"I was sick and I thought perhaps Peruna would help me, and after using Peruna and Manlin, I am healthy. I have had the children since I was sick, and work in the house and outside also.
"I use Peruna for all kinds of ill and consider it an excellent medicine.
"I have seven children. I keep your medicine in the house almost all the time. I can do my housework alone, which I was incapable of doing before.
"I wish every suffering woman could know how Peruna helped me."

Head of Big System Spends Night in Omaha, of Whose Prosperity He Speaks in High Terms.

"The Wabash has the short line to St. Louis and we are going to improve it and make use of what advantage we have," said George J. Gould, president of the Missouri Pacific railroad and head of the Gould family, "I came up over the Wabash to see some improvements which have been made on the line and the road surprised me, for I did not know it was so good."
As the special train bearing Mr. Gould, F. A. Delano, president of the Wabash; Henry Miller, general manager of the Wabash, and E. T. Jeffries, chairman of the board of directors of the Wabash, pulled into Union station yesterday afternoon Mr. Gould was met by St. Louis representatives, Messrs. Haney and J. O. Phillips, and he was glad to get to Omaha, as he had not been here for four years.
"My visit at this time has no special significance for Omaha, as I am simply looking over these western lines," said Mr. Gould.
"Are you figuring on doing any good for the people of Omaha and Nebraska in the way of railroad building?" was asked of Mr. Gould.
"Nothing at present."
"What about the Western Pacific, Mr. Gould?"

"Nothing at present."

"What about the Western Pacific, Mr. Gould?"

A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as a savage thing to be a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with overwork. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretion of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the deflection of other organs.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, flat weak, painful, tired, nervous, frequent headaches, pain or distress in small of back, gnawing or distressing feeling in stomach, perhaps nausea, and "bilious" "fringes" in throat after eating, and blood and eruptions of weak stomach and torpid liver, no medicine will relieve you more promptly or surely than Dr. Pierce's Golden Medical Discovery. Perhaps one of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all bad food, and eat only the best. Take the "Golden Medical Discovery" regularly and stick to it until you are vigorous and strong.

The "Discovery" is a pure, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advertised. Don't accept a substitute of unknown composition for this non-secret, genuine or known composition.

AMUSING INCIDENTS OF FIRST RAID

Leader Goes to Secure More Help and Finds Some Company More Congenial and Falls to Return.

Guards were again stationed along the course of the Union Pacific tracks at W and Twenty-seventh streets last night. It was not thought that any depredations would be attempted provided there was any kind of protection at hand. If, on the other hand, the tracks were left unprotected, there was reason to suppose an attempt might be made. Accordingly a small guard of men was placed at the exposed places, but no reserves were kept at the brewery. Several police officers were stationed with the railroad men. The maneuvers of Thursday night turned out to be a ridiculous farce, though several times there was a serious aspect. It is said that all the teams necessary to haul the tracks out of the streets were in readiness with one exception. The leader of the force, a well known man of the city, went after it, but consumed so much time that he returned the others had grown faint-hearted and the teams were put away. Reports of the large body of railroad men stationed at the tracks put a decided damper on the plan. The men decided they would rather take liquid refreshment internally than externally from the nozzle of a hose. About midnight the police located the leader in a saloon and the men of the brewery called him up. By this time most of his following had departed and there was no chance of getting together again. The men at the telephone invited him to come down and have a drink on the night's excitement, and he forsook the idea of the red flag and complied. On arriving at the brewery he was treated as the prodigal son and given the best they had. It is said he went home at 2 o'clock Friday morning, but his testimony on the subject would not bear a rigid cross-examination. He was not seen about the streets all day.

Miss Benham was assisted by Misses Anne and Margaret Parks. The Shamrockers were delighted with their entertainment.

Boy to Detention School.
Judge Sutton Looks Into Case of Two Youngsters Charged with Theft.

Charged with taking three horses and a bicycle, William Dixon, aged 9 years, was before Judge Sutton of the juvenile court Saturday morning. With him was Leo Witt, a very small boy, who was charged with aiding and abetting in the theft of the animals. On three different occasions, according to Probation Officer Carver, the two boys have untied horses, driven around town to their hearts' content and then returned the animals or put them in the hands of their owners. When charged, took a bicycle, rode it a while and then sold it to a friend for 1 cent. When the wheel was recovered the rear tire had been slashed and completely ruined. Judge Sutton sent Witt out to the Detention school until he can look into his case further.

Among the spectators at the session of the court were Miss Gladys Sloman of Detroit, Mrs. Morris Meyer and Mrs. A. D. Brandeis, who are interested in the work of the court.

Great Western Chances.

Paulsen, formerly chief clerk in the Omaha office, has been appointed to be contracting agent in place of Mr. Fidler.

OUR LETTER BOX.

All Kinds of Victory for Bryan.
OMAHA, Nov. 9.—To the Editor of The Bee: The returns are not all in, but enough is known to make it as clear as moonshine that Mr. Bryan has won all kinds of victory (?) in this state and in New York. By speaking right and day for months he has won the following victory: First, the return of a republican congress by the unexpected majority of fifty or sixty in the house. Secondly, the election of Hughes by his endorsement of Hearst by a majority of 52,000. This he has won by a "victory" for the defeated scullion because the majority for Hughes did not reach 30,000, as his supporters in that state had expected. Thirdly, Mr. Bryan made another "whirlwind" campaign for Shallenberger in his own state and succeeded in whirling up, say, 15,000 majority for Shallenberger and the republican state ticket and securing a solid republican delegation in congress except Hitchcock, whose bacon was saved by a side issue.

Mr. Bryan has won all kinds of political victory in the late contest by hurrying everybody in defeat, as usual, whom he has supported, but his real achievement, his crowning triumphs, have not been political. I am quite sure that if he had made ten or fifteen more speeches for Shallenberger than he did make that Shallenberger's majority would have been 30,000 instead of 15,000. But even this would have been nothing in comparison to the moral victories which he has won in the battle of his life for political purity in our beloved country. When Mr. Bryan was issuing decrees from Berlin, London and Lincoln against "traitors" democrats in Illinois, Iowa and other states because these democrats happened to be in the employ of public service corporations he rose to great altitudes and uttered much eloquence and anathemas in denouncing them. But he has not yet risen to his full height of moral sublimity. It was not until he openly espoused the cause of the unspeakable Hearst in an appeal to any friends he might have in New York to support him for governor that he became morally great in his own individual right.

If there was ever any serious doubt about Mr. Bryan's supremacy as lawyer to his own and other nations of the earth, these can be none whatever to his moral attitude and altitude before the world after his endorsement of an unspeakable scullion for governor of the great state of New York, who bought control of the democratic party in that state by means and methods which drew groans and protests from even Croker himself from beyond the sea.

On Sunday Closing.
SOUTH OMAHA, Nov. 8, 1906.—To the Editor of The Bee: There has been considerable written for the papers in regard to the Sunday closing of saloons in South Omaha, while they are said to run wide open in Omaha, but I think one point has been missed by all. The city of South Omaha is largely composed of people of foreign birth and many of them were fed on beer from the day of their birth in their native lands. It is as natural for them to drink beer as it is for some people to drink coffee or milk.

To take their beer away from them on Sunday affects them the same as the absence of coffee affects many other people, and as one man, who is a radical temperance man, said to me one day this week, to take the beer away from many people of foreign birth is the same as taking the cow away from people who depend on milk for the principal part of their sustenance.
I do not believe in this country taking up with many foreign ideas, but when it comes to affecting the appetites of many thousands of people, and when they are deprived of what they have been accustomed to generations back a little common sense and judgment should be used with these people. The old saying about the horse being led to the water but not being able to make it drink, does not apply to men, for you cannot even lead them to the trough, let alone trying to make them drink water instead of beer. If the saloon keepers had to depend on men like me, they would starve to death, but they should be used with the same common sense as other people are. If there was not a demand for beer from the foreign population of our city, I am sure the saloon men would gladly have one day of rest each week. If all the people of South Omaha were native born Americans there would be no difficulty about Sunday closing, but when the city is so largely composed of foreigners, we cannot expect them to change from what they have been accustomed not only for a lifetime, but for generations back.
It is about time a little common sense was used by those who have the power to act.

Have You an "Up-to-Date" Piano

PEOPLE who buy automobiles insist upon having the latest model. The 1902 or 1903 model may have been a very good car for its time, but the purchaser of today wants the 1907 model.
In the piano business a similar situation presents itself. To be strictly "up-to-date" a piano nowadays must be capable of not merely one method of playing, but of both the accepted ways—by hand and by pianola. The only piano which unites both of these methods in a single instrument is the

Pianola Piano

"The First Complete Piano"
The Aeolian Company originated the idea of combining the two instruments in one. So tremendous was the demand for a piano "that everybody could play" that piano manufacturers felt the need of meeting such unprecedented competition, and all sorts of pianos have since been combined with all sorts of Piano Players.

The Pianola is not built inside the case of any piano except those owned and controlled by the Aeolian Company, namely, the Weber, Steck, Wheelock and Stuyvesant. Consequently other combinations of a Player and Piano include the less well known makes of Piano Players, all of which lack the vital improvements that characterize the Pianola.

Malt-Vita "The Perfect Food," malt life, as the name implies, stands out of a food skillfully prepared from the whole of the wheat, of which, after being cooked, each kernel has been subjected to the searching digestive action of the diastase and other enzymes of barley malt. This makes it a "predigested" food of highest nourishment value, which explains the remarkable results obtained in cases of nervous debility, deranged stomachs and constipation. Besides, it is the best food to eat.

We had almost despaired of finding something our family could eat without being distressed. It has done much to relieve our suffering from constipation and a general derangement of the stomach and bowels. Since we began feeding our little Malt-Vita he has improved wonderfully in health and is entirely cured of constipation. In fact, myself and husband realize a great benefit from Malt-Vita and to the entire system." Same given on request by Malt-Vita Food Co., Battle Creek, Mich.
